Driver Metuchen, N.J. : Scarecrow Press Manual Materials Handling MMH creates special problems for many different workers worldwide. Labourers engaged in jobs which require extensive lifting/lowering, carrying and pushing/pulling of heavy materials have

suffered increasing rates of musculo-skeletal injury, especially to the back.; This guide is intended to include all activities involved in MMH lifting, pushing, pulling, carrying and holding. Recommendations are provided in the form of design data that can be used to design different MMH work activities. The guide is divided into two parts. Part I outlines the scope of the problem, discusses the factors that influence a person's capacity to perform MMH activities and / or should be modified to reduce the risk of injuries, and reviews the various design approaches to solving the MMH problem. Part II provides specific design data in six distinct chapters. The seventh chapter of Part II of the guide describes various mechanical devices that are available to aid MMH activities.; The guide is aimed at all concerned with the health impact of MMH

activities; occupational health and safety workers; senior human resource managers; ergonomists; workers' compensation lawyers; union representatives.

SCDMV currently does not have a documented official process for the issuance of Official Specialty license plates. Official license plates include Constitutional Officers, Senators, members of the House of Representatives and State Boards and Commission members. Since its inception this has been a very "hands on" manual process due to the nature of the customers served. However as the number of plates and plate classes have increased there is a need to establish a formal process for issuance of these plate classes.
