"The 5th Edition of Today's Technician: Automotive Engine Repair & Rebuilding is a comprehensive learning package designed to build automotive skills in both classroom and shop settings. Aligned with NATEF standards, this system-specific text addresses engine construction, engine operation, engine repair, and intake and exhaust systems, as well as

the basics on engine rebuilding. The Classroom Manual addresses all system theory, while a companion Shop Manual covers tools, procedures, diagnostics, testing, and service. This two-manual approach is designed to help build the theoretical and practical knowledge readers will need to repair and service modern automotive engines, and prepare for the ASE A1 certification exam."--Cover.
