Basic English Grammar Savvas Learning Company

Crisco's history began in pre-Civil War America when William Proctor, a candle-maker, and his brother-in-law James Gamble, a soap-maker, joined forces to compete against the other candle- and soap-makers in the Cincinnati area. By cornering the market on cottonseed oil, Proctor and Gable sidestepped the meat packer's monopoly on the price of lard and tallow. With electrification, the need for

lard-based candles decreased and the new product needed a new market. With a wealth of cottonseed oil at their disposal, the answer was Crisco. In order to market their product, Proctor & Gamble distributed for free Marion Neil's 1921 cookbook, The Story of Crisco. It provides a history of Crisco, information on the benefits of the product to families, as well as a 615 recipes all using the product.

The Economies of Latin America Oxford University Press

From the bestselling author of The Bomber Mafia, learn what sets high achievers apart—from Bill Gates to the Beatles—in this seminal work from "a singular talent" (New York Times Book Review). In this stunning book, Malcolm Gladwell takes us on an intellectual journey through the world of "outliers"—the best and the brightest, the most famous and the most successful. He asks the question: what makes high-achievers different? His answer is that we pay too much attention to what successful people are like, and too little attention to where they are from: that is, their culture, their family, their generation, and the idiosyncratic experiences of their upbringing. Along the way he explains the secrets of software billionaires, what it takes to be a great soccer player, why Asians are good at math, and what made the Beatles the greatest rock band. Brilliant and entertaining, Outliers is a landmark work that will simultaneously delight and illuminate.

TAB, an imprint of McGraw-Hill Professional, is a leading publisher of DIY technology books for makers, hackers, and electronics hobbyists.

Practice Makes Perfect Intermediate Spanish Grammar, 2nd Edition McGraw Hill Professional

This third edition of this text presents the major grammatical contrasts between English and Spanish in a simple and direct manner that is ideal for teachers of either language. This book addresses difficult grammatical topics for the English speaker, such as the question of aspect (preterit/imperfect) and the Spanish rorindicative/subjunctive; the English modal auxiliary system; and other challenging topics for the Spanish speaker. This reworked and expanded edition presents a complete inventory of all the major inter-lingual contrasts, emphasizing those contrasts that pose difficulties for teachers and students alike. The text features numerous exercises and, new with this edition, an extensive glossary of grammatical terms. Answer key available for download from the "features" tab on the publisher's website: <https://rowman.com/ISBN/9780761863755/Bilingual-Grammar-of-English-Spanish-Syntax-With-Exercises-and-a-Glossary-of-Grammatical-Terms-3rd-Edition>

Women are gaining ground as presidents of Latin America. Women leaders in presidential systems (particularly women directly elected by the public) were generally limited to daughters and wives of male executives or opposition leaders. With the election of Michelle Bachelet in Chile, these traditional patterns appeared to be shifting. This book asks: what conditions allowed for a broadening of routes, beyond family ties, for women in Latin America? Do women presidents of Latin America use their powers to enhance women ' s representation? While providing valuable insight into the big picture of women in presidential politics throughout Latin America over the last several decades, this book more closely analyzes four women presidents gaining office since 2006: Michelle Bachelet (Chile) Cristina Fern á ndez (Argentina) Laura Chinchilla (Costa Rica) and Dilma Rousseff (Brazil). It assesses the paths and impacts of Latin American women presidents and scrutinizes the ways gender shapes both aspects. No other scholar has offered such an in-depth analysis of the paths and actions of women presidents of Latin America. As such, this book offers important contributions to the gender in politics literature. Its multi-methodological approach consisting of original data collection from field work and in person interviews of political elites and experts combined with an analysis of a host of secondary sources including media articles and public opinion data makes this work exceptionally comprehensive. Its findings are applicable to those studying women, gender, and politics as well as comparative politics, Latin American politics, and leadership studies.
