Resource added for the Business Management program 101023.

**Life Is Too Short** Geoffrey Young

As we move towards an increasingly knowledge-based economy, the ability to manage knowledge becomes a matter of competitive survival. Whilst current literature addresses the subject only partially, from a human resource, information systems or practitioner perspective, this is the first textbook to bring together and integrate all these dimensions. Knowledge Management: An Integrated Approach is centred around five parts of the knowledge cycle - discovering knowledge, generating knowledge, evaluating knowledge, sharing knowledge and leveraging knowledge. The blend of theory and practice makes this the ideal resource for students studying knowledge management courses within business management, information science and computer science degrees at both undergraduate and postgraduate levels. Key features include: The first truly integrated approach to knowledge management offers the student the most realistic and complete perspective. Case studies and vignettes from a range of sectors and organisations illustrate the theory in practice. The comprehensive coverage offers an accessible bridge between disciplines for students and practitioners in the fields of human resource management, information systems and strategic management. Chapters on intellectual capital and the philosophy of knowledge demonstrate the breadth of coverage from the evolution of the subject area to the leading edge of contemporary research. Learning

outcomes, exercises and questions for further thought stimulate the reader and encourage them to reflect on their learning. 'This is an excellent book which manages to combine a consideration of the philosophy of knowledge with the practical discussion of what it means to 'manage knowledge' in an organisational context. The book integrates many disparate strands from the literature and in doing so provides a comprehensive and coherent coverage of this emerging area.' Professor Sue Newell, Trustee Professor, Department of Management, Bentley College, USA 'This book provides a very useful summary of key works and current debates in the fields of organisational learning and knowledge management. It will be of value both to new students and to experienced scholars who are looking for a succinct overview of the field.' Professor Mark Easterby-Smith, Professor of Management Learning, School of Management, Lancaster University, UK and Chair, British Academy of Management Dr Ashok Jashapara is an internationally recognised expert in the field of knowledge management and Chair of the Knowledge Management Research Group at Loughborough University. He has considerable consultancy experience in Europe and the United States and has recently completed a knowledge management assignment for the United Nations in the Far East. He is Senior Lecturer in Knowledge Management in the most prestigious and highly rated information science department in the UK. He has published widely in leading books and journals and has won a number of awards for his writing.

Women and Leisure

Lifelong friends facing the future after cancer, Kathy, Eileen, and Charlotte are each dealing with complex family relationships and emotional issues.

Kathy 's husband is a serial cheater. Eileen 's mother keeps telling her she 's not wonderful like her sister. Charlotte still aches from losses of years ago. This is their second chance, the moment when they can make important life changes before it 's too late. As they take up the challenge of finding hidden treasures at a family beach house in Cape May and back home in the affluent Washington, DC, suburb of Bethesda, Maryland, these best friends discover shocking family secrets as well as new strengths in themselves. Their story entwines with those of Steve, an old friend with a mystery he 's trying to solve, and much younger Brian, whose army career has been his whole focus until he faces a life-changing dilemma. What must each of

them do to take the next bold step to happiness?

Tihany Design

Poetry. "I am spending my 39th year practicing uncreativity. On Friday, September 1, 2000, I began retyping the day's NEW YORK TIMES word for word, letter for letter, from the upper left hand corner to the lower right hand corner, page by page." With these words, Kenneth Goldsmith embarked upon a project which he termed "uncreative writing", that is: uncreativity as a constraint-based process; uncreativity as a creative practice. By typing page upon page, making no distinction between article, editorial and advertisement, disregarding all typographic and graphical treatments, Goldsmith levels the daily newspaper. DAY is a monument to the ephemeral, comprised of yesterday's news, a fleeting moment concretized, captured, then reframed into the discourse of literature. "When I reach 40, I hope to have cleansed myself of all creativity"-Kenneth Goldsmith.

An "inherently governmental function" is one that, as a matter of law and policy, must be performed by federal government employees and cannot be contracted out because it is "intimately related to the public interest". This book provides background, issues and options for Congress on defining inherently governmental functions within the context of DOD operations. It situates contemporary debates over which functions are inherently governmental within the context of the broader debate about the proper roles of the public and private sectors.

Advances in Computing and Communications,  
Part III

India will be the world's most populous country  
by 2024 and its third largest economy by 2028.

But the size of our population and a sense of  
historical greatness alone are insufficient to  
guarantee we will fulfil our ambition to become  
a global power. Our approach to realize this  
vision needs more than just planning for  
economic growth. It requires a shift in attitudes.

In *Making India Great*, Aparna Pande  
examines the challenges we face in the areas of  
social, economic, military and foreign policy  
and strategy. She points to the dichotomy that  
lies at the heart of the nation: our belief in  
becoming a global power and the reluctance to  
implement policies and take actions that would  
help us achieve that goal. The New India holds  
all the promise of greatness many of its citizens  
dream of. Can it become a reality? The book  
delves into this question.
