IP Office Embedded Voicemail
User Guide - Avaya
If your telephone system
includes a voicemail server,
pressing the MESSAGE button
accesses voicemail. Your system

administrator can configure whether that access uses either spoken prompts from the voicemail server or visual menus on the phone called 'visual voice'. This guide assumes the default operation of using the visual voice menus.

Mailbox Greeting - IP Office

Knowledgebase

If your telephone system includes a voicemail server, pressing the MESSAGES button accesses voicemail. Your system

administrator can configure whether the access uses either spoken prompts from the voicemail server or visual menus on the phone called 'visual voice'.

This guide assumes the default operation of using the visual voice menus.

I have the same problem. Voicemail pro 9 is running on a Windows Server 2012 R2 Standard and I am on Windows Pro 8.1. I am

running it as Administrator. I can run it fine from the server and it does not even ask for a user name or password.
