What Being Poor Does to Kids' Brains and What Schools Can Do About It ASCD

Twelve years after the first charter school was launched, the charter school movement is now entering its adolescence. Like many pre-teens, it's had its share of growing pains, but I am confident that it is about to hit a growth spurt. That is because charter schools are enormously popular with their primary clients --parents and students-- and because they are starting to show promising results in terms of student achievement. The basic tenets of charter schools--give them room to be innovative, hold them accountable for results, and let parents decide if they meet the needs of their children --are perfectly aligned with the historic No Child Left Behind Act (NCLB), which also focuses on accountability for results in return for more flexibility, and with providing more options for parents than ever before. One of the promises of charter schools is that they can serve as laboratories of innovation --they can be public education's "R&D" arm. Because they have greater autonomy than traditional public schools, and since they tend to attract pioneering educators, they can try out new approaches to education that, if proven effective, can be transplanted back into the larger public education system. It is in this spirit that we highlight eight of the most successful charter schools in the United States. These schools were chosen after an exhaustive national search. They were primarily selected because they have demonstrated success over time in boosting student achievement. Surely many more charter schools could have been identified, and these should not be considered "the best" charter schools in the nation. Nevertheless, they are among the best, and each has much to teach other charterschools --and traditional public schools-- about teaching and learning, management strategies, staff development, and many other topics.

Lately, Anviksha Punjabi can't seem to get anything right. She is in the middle of ending her second marriage, is barely keeping any friends, and repeatedly getting into trouble at work. And as if all that weren't enough, she must put up with her gregarious and over-bearing 67-year-old mother as a housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two.

A dense black cloud boiled up in the southeastern sky. It rose high and fast, like a time-lapse movie of the birth of a thunderhead. But it was no rain cloud. Wholly black, it reached up and up until it loomed over her, blocking out the sun. Somehow, she knew, it was Death coming for her. Pre-med student Coral is on vacation in Idaho when something terrible happens. The black cloud is followed by a wildfire and searing heat that lasts for days. She survives deep in a cave but emerges days later to find the world transformed, with blackened trees, an ash-filled sky, and no living creatures stirring--except for her. So begins her desperate journey: to find water, and food, and other survivors...and the answer to the mystery of what happened. Gray I is the first novel in a series.

Computerized Assessment Bank CD-ROM John Wiley & Sons

Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control--his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

A Practical Guide to Improve Instruction Basic Books

From a debut author comes a story of finding oneself in a place all too familiar. After Dulcie Morrigan Jones's dad dies, her mom decides they need to find a new life in California. But Dulcie doesn't understand what's wrong with her old life back in Newbury, Connecticut. So she heads across country and back home in her father's red 1968 Chevy pickup truck. When she arrives, she meets Roxanne, a girl whose home life makes Dulcie see that her own situation may not be all that bad after all. And as the summer comes to an end, Dulcie realizes that maybe it's necessary to leave a place in order to come back and find out who you really are.

Freud's Mistress McGraw-Hill Science, Engineering & Mathematics

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account

of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Drawing on his own expertise in the humanities and on the Web, Steven Johnson not only demonstrates how interfaces - those buttons, graphics, and words on the computer screen through which we control information - influence our daily lives, but also tracks their roots back to Victorian novels, early cinema, and even medieval urban planning. The result is a lush cultural and historical tableau in which today's interfaces take their rightful place in the lineage of artistic innovation. With a distinctively accessible style, *Interface Culture* brings new intellectual depth to the vital discussion of how technology has transformed society, and is sure to provoke wide debate in both literary and technological circles.
