American Government Pearson Higher Ed

All you need to know about elections, politics, and government! Too often,

textbooks turn the noteworthy details of government into tedious discourse that would put even the president to sleep. American Government 101 cuts out the boring explanations, and instead provides a hands-on lesson that keeps you engaged as you learn. From the backstory of the Constitution to the institution of the Electoral College, this primer is packed with hundreds of entertaining tidbits and concepts to help you learn about how the government of the United States actually works. So whether you want to learn about how policies and laws are created, or just want to become a better-informed voter, American Government 101 has all the answers—even the ones you didn't know you were looking for.

Introduction to American Government Cengage Learning

“ Takes a sophisticated approach to big questions . . . assess[es] the huge role of government in American life in an illuminating way. ” —Frances Fox Piven Despite widespread anti-government sentiment in recent decades—including complaints that it does too much and that it doesn ’ t do enough—the fact remains that government has improved the lives of Americans in numerous ways, from providing income, food, education, housing, and healthcare support, to ensuring cleaner

air, water, and food, to providing a vast infrastructure upon which economic growth depends. In *What American Government Does*, Stan Luger and Brian Waddell offer a practical understanding of the scope and function of American governance. They present a historical overview of the development of US governance that is rooted in the theoretical work of Charles Tilly, Karl Polanyi, and Michael Mann. Touching on everything from taxes, welfare, and national and domestic security to the government's regulatory, developmental, and global responsibilities, each chapter covers a main function of American government and explains how it emerged and then evolved over time. Luger and Waddell are careful to identify both the controversies related to what government does and those areas of government that should elicit concern and vigilance. Analyzing the functions of the US government in terms of both a tug-of-war and a collaboration between state and societal forces, they provide a reading of American political development that dispels the myth of a weak, minimal, non-interventionist state, in a major contribution to the scholarly debate on the nature of the American state and the exercise of power in America.

American Government Pearson Educacion
Features of this Innovative Text
The 8th edition of this well-respected text features the 2014 midterm Congressional elections, the latest on Obama's presidency, important Supreme Court decisions, the implementation of the Affordable Care Act, and other timely updates. An increased attention to media in politics runs through the book. Key learning objectives at the beginning of every chapter focus students on central points to watch for. "The Constitution Today" chapter opening vignettes illustrate the importance of conflicting views on constitutional principles. Key terms

defined in the margin.

American Government: Institutions and Policies Sterling Test Prep

Foundations explains the beginnings of the American political system, including historical background. Chapters introduce the concepts of a federal republic, with relevant facts that keep young adults engaged. Five unique handbooks comprise the new American Government series. With the confusing political discourse in today's world, it's no wonder kids tune out. How can we tune them back in? The stale descriptions in standard American government textbooks do nothing to motivate learning. The readability is too high. And the language too dry. How can we make it personal? Accessible?

Interesting? Even humorous?

How the U.S. Government Works Wadsworth Publishing Company

Understand American politics from past to present. A streamlined and more flexible version of the bestselling text, *Essentials of American Government: Roots and Reform* is guided by the belief that students must first understand the origins of American government in order to understand the issues facing the United States today. American Government Crown

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This text uses the cultural appeal of "lists" and "rank orders" as a pedagogical tool applied to American government. Each chapter presents a list of the top things a student should know about that topic, and then carefully and accessibly explores each of the items in the list. The lists contained in the text are used to teach introductory students what many scholars agree are the key, core aspects of American government. There is something people seem to find irresistible

about lists and rank orders. There is also something almost unseemly or dangerous about them. This text uses both of these factors—the appeal and problems of “ lists ” and “ rank orders ” —as a pedagogical tool. The reader is asked to approach the lists critically and to think about what they might add to the list, what they might remove from the list, what they find problematic about the rank order, and so forth. Consequently, the lists serve to draw the students into the topic, to help them learn more about American government, and to use their critical thinking skills to critique the content and order of the lists. In a typical semester, it is nearly impossible to teach someone everything they can and should know about a topic as broad as American government and politics. Therefore, the two primary goals of this text are to (a) give introductory students the basic tools necessary to understand American government and politics in a format that is appealing and (b) in so doing giving them the background necessary to put current events and enduring questions into context.

Govt Psychology Press

American Government 2e is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The Handy American Government Answer Book Cengage Learning

This classic text ... explores the foundations of our national political system and shows how the fundamental features of our government influence the lives of all Americans. [It] focuses on three fundamental topics: the institutions of American government; the historical development of governmental procedures, actors, and policies; and who governs in America and to what ends.-Back cover.

American Government Cengage Learning

In this introductory American politics text, Cal Jillson provides not only a sense of how politics

works today but also how institutions, systems, political participation, and policies have developed over time to produce today's political environment in the United States. This historical context provides the necessary backdrop for students to understand why things work the way they do now. Going one step further, the book identifies critical reforms and how American democracy might work better. In a streamlined presentation, Jillson delivers a concise and engaging narrative to help students understand the complexities and importance of American politics. Key features: The 4th edition is thoroughly updated, including full analysis of the 2006 mid-term elections and shift in partisan control of Congress. Chapter-opening Focus Questions; illustrative figures and charts; "Let's Compare" and "Pro & Con" boxes; key terms; time lines; and end-of-chapter suggested readings and web resources. Companion website for students (<http://americangovernment.routledge.com>) features chapter summaries, focus questions, practice quizzes, glossary flashcards, participation activities, and links. Instructor's resources on the web and on CD-ROM, including Testbank, Instructor's Manual, figures and tables from the text, and lecture outlines.
