Aviation Safety
The ICAO document is being published as the Manual on the Quality Management System for the Provision of Meteorological Service for International Air Navigation and the WMO document as the Guide to the Quality Management System for the Provision of Meteorological Service for

International Air Navigation.
Quality Assurance Manual (QAM) — AC-Aviation Documentation ...
In the aviation industry, a Quality System comprises the set of policies, processes and procedures required for the planning and execution of safe and efficient air operations. The system integrates the various internal processes and enables the organization to identify, measure, control and improve the effectiveness and safety of its

activities.
