“ This book is a reflection of a warrior putting into practice all that she has learned, the moment when knowledge turns into wisdom, in order to heal a heart that is not afraid to love. ” — Don Miguel Ruiz Jr, author of The Mastery of Self & The Five Levels of Attachment In this continuation of the Warrior Goddess path, author HeatherAsh Amara shares a revolutionary new method to help you reconnect with your sense of authenticity and power. Too often we allow old narratives—about past failures, broken relationships, or damaging experiences—to define us, depleting our joy, limiting our passion, and whispering the poisonous lie that we are not enough. The Warrior Heart Practice is a revolutionary new method that will help you reevaluate those well-worn narratives and shift your thinking and intentions in a new, empowered way. Based on the four divisions of the heart, the practice leads you forward through the four chambers of experience—Feeling, Story, Truth, Intent—gently questioning your own assumptions along the way, and then back through the chambers in the reverse, so that you emerge armed with a clear understanding of your situation and a new sense of purpose and power. For those who have loved and lived Warrior Goddess Training and readers who are searching for a new freedom, The Warrior Heart Practice offers an inner revolution and a new path towards freedom.

For the millions of Americans who want spirituality without religion, Sam Harris's latest New York Times bestseller is a guide to meditation as a rational practice informed by neuroscience and psychology. From Sam Harris, neuroscientist and author of numerous New York Times bestselling books, Waking Up is for the twenty percent of Americans who follow no religion but who suspect that important truths can be found in the experiences of such figures as Jesus, the Buddha, Lao Tzu, Rumi, and the other saints and sages of history. Throughout this book, Harris argues that there is more to understanding reality than science and secular culture generally allow, and that how we pay attention to the present moment largely determines the quality of our lives. Waking Up is part memoir and part exploration of the scientific underpinnings of spirituality. No other book marries contemplative wisdom and modern science in this way, and no author other than Sam Harris—a scientist, philosopher, and famous skeptic—could write it.

An esteemed Insight Meditation teacher leads you through the sublime qualities of Buddhism—kindness, compassion, joy, and equanimity—and how they can enrich your life Compassion, kindness, equanimity, and joy are not only the fruits of the awakened life but also the path to it—attitudes of mind that can be cultivated through intention and dedication. Also known as the brahma viharas (sublime abodes) and the “Four Immeasurables,” these enobling qualities are far more than simply the “feel-good” states they are often mistaken for. They must be pursued sincerely as a spiritual practice—not just as a means of getting a “spiritual high”—in order to experience the full extent of their power. In Boundless Heart, Christina Feldman presents teachings on the Four Immeasurables, exploring how they balance each other in a way that enhances them all. Her simple practices will lead you toward a life infused with kindness, compassion, joy, and equanimity—and to a way of being that promotes those qualities to the world at large.

A guide to seven essential elements that will illuminate your path to spiritual realization and wise elderhood. What Carl Jung called “the second half of life” has the potential to be a remarkable curriculum for insight and awakening. When wisely understood, the changes inherent in the aging process become stepping-stones to the actualization of our best human qualities: wisdom, lovingkindness, compassion, joy, and equanimity. Author David Chernikoff has spent decades pursuing spiritual study and practice with remarkable teachers, including Ram Dass, Jack Kornfield, Sharon Salzberg, Father Thomas Keating, and Reb Zalman Schachter-Shalomi. In Life, Part Two, he distills lessons from across contemplative traditions to invite readers to embrace seven essential elements of conscious living: embracing the mystery, choosing a vision, cultivating intuitive wisdom, committing to inner work, suffering effectively, serving from the heart, and celebrating the journey. These elements culminate in wise elderhood--a state celebrated by indigenous cultures around the world, yet largely unacknowledged in contemporary Western society. For those of us who aspire to live fully and to love well as we age, Life, Part Two is a lucid guidebook that empowers us to personally thrive and to contribute with ever greater clarity and purpose.
