Ce manuel pratique aide à comprendre les grands principes régissant la morphologie des cours d'eau et leur dynamique pour mieux concevoir des aménagements qui sauront résister aux crues sans déséquilibrer pour autant les écosystèmes. Le chapitre 1 donne les définitions, principes de base et résultats d'hydraulique à surface libre. Les chapitres 2 à 4 approfondissent le diagnostic des rivières en tenant compte du

transport solide et de la constante interaction entre l'écoulement, le fond, les berges et le champ d'inondation. Les chapitres 5 à 9 exposent les différents aménagements et entretiens pour utiliser l'eau ou se protéger des crues. Cette 2e édition, entièrement réactualisée et augmentée de nombreux schémas et photos, aborde de nouveaux points : les calculs hydrauliques des déversoirs latéraux, des estimations de débit solide adaptées aux fortes pentes, la morphologie des torrents et les conséquences morphologiques des barrages, la restauration morphologique des rivières, les processus d'érosion par surverse, la conception des zones d'expansion de crues, des procédés de protection de berge ou de traitement des digues, la nouvelle norme sur les enrochements, etc... Diagnostic, aménagement et gestion des rivières s'adresse aux professionnels en charge de la

gestion et de l'aménagement des cours d'eau ou de la police de l'eau : cabinets d'ingénierie, collectivités territoriales, établissements publics, sociétés d'aménagement régional et services déconcentrés et centraux de l'État. Il sera une aide précieuse pour les étudiants en écoles d'ingénieur ou en université et intéressera les chercheurs en mécanique des fluides, géomorphologie ou écologie fluviale.

This study is an exploration of US Cuban theatrical performances written and staged primarily between 1980 and 2000. Lillian Manzor analyzes early plays by Magali Alabau, Jorge Ignacio Cortiñas, María Irene Fornés, Eduardo Machado, Manuel Martín Jr., and Carmelita Tropicana as well as these playwrights' participation in three foundational Latine theater projects --INTAR's Hispanic Playwrights-in-Residence Laboratory in New York (1980-1991), Hispanic Playwrights Project at South Coast Repertory Theater in Costa Mesa, CA (1986-2004), and The Latino Theater Initiative at Center Theater Group's Mark Taper Forum in Los Angeles (1992-2005). She also studies theatrical projects of reconciliation among Cubans on and off the island in the early 2000s. Demonstrating the foundational nature of these artists and projects, the book argues that US Cuban theater problematizes both the exile and Cuban-American paradigms. By investigating US Cuban theater, the author theorizes via performance, ways in which we can intervene in and reformulate political and representational positionings within the context of hybrid cultural identities. This book will of great interest to students and scholars in Performance Studies, Transnational Latine Studies, Race and Gender studies.

En *La sangre del cordero*, Don Wanderhope, alter ego del autor, nos cuenta cómo ha sido su vida desde su infancia en Chicago, en el seno de una familia calvinista, hasta la muerte de su hija de doce años, enferma de leucemia. Una vida, pues, marcada por la pérdida: la de su hermano, muerto en la infancia; la de su primer amor, que ha sucumbido a la tuberculosis; la de su esposa suicida y finalmente la de su hija. Sin embargo, lejos de convertirlo en un ser derrotado y mudo, la presencia constante de la muerte lleva a Wanderhope a preguntarse por el sentido de todo en un tono en el que la rabia y el duelo no paran de mezclarse con el ingenio, el humor y la ternura. *La sangre del cordero* nos ofrece una exhibición de ingenio, lirismo, precisión verbal y comicidad que confirma a Peter de Vries como uno de los mejores escritores estadounidenses del siglo XX.

When starting a family history project, where do you begin? For me, the answer is simple: Genesis. Being a man, a man of science, I find that as I get older, science has proven more and

more that the truth is very simple. In the opening statements of Genesis, God created the universe as we know it and also created the stars. How is such a thing possible? We are children of God. You know, children are like their creator, full of wonder. Wonder, why? Genesis states, In the beginning God created the heavens and the earth. The earth was without form and void and darkness was over the face of the deep. As we learn more on just how we got here, along comes a brilliant young scientist named Stephen Hawking. He explains in mathematical ways how the universe started with a big bang, started from nothing, and burst forth faster than the speed of light. Stars formed and gathered together to form galaxies then matter collected to form planets to circle around the stars. There was eternal darkness, and then there were the stars and light. As time passed, God planted the seeds of life. What is time? As we read the Bible, we were always in conflict with time. How do we feel comfortable with the evolution of life and the time frame of the Bible? Here, again, I find the answer is simple. Time, to us, is something we made up to understand what goes on around us; God is on his own time. I like to use baking an apple pie as my example of time and what it takes. Heres the question I ask, how long does it take to bake an apple pie? The answer I get is about an hour. I reply with Oh, you can? So here is my response to the one-hour apple pie: Where did the apple come from? How long did the apples take to grow? Where did that variety of apple come from? How long did it take for the seed to grow into a tree? How did you get the apple? At a store? How did the store get there? How did the refrigeration and transportation come to be? What about the cinnamon and sugar you used, where did it come from? (Cinnamon comes from Indiadried tree bark.) What about the tin

used to make the pan used to bake the pie? When was electricity harnessed to be used by man, the modern stove?

From Mexico City to San Francisco's Mission District, nothing comes easy—in life or in love. Here is an unsterotypical view of a world as treacherous as it is tender, as hilarious as it is heartbreaking. Authentic and honest, these nine stories focus on today's Latino men, their strength and vulnerability, their fears and deepest desires. "Danger, cruelty, lust, loss, blood, death and dance. . . . Couldn't put the book down. So hot I had to smother it in half and half. Murguía's a master of hearts on fire, working his storytelling anvil late at night, in a wrecked cubicle of SF called La Mission. No doubt the hungriest fiction and the most ferocious collection in the last three decades."—Juan Felipe Herrera, author of *Border Crosser* with a Lamborghini Dream "Alejandro Murguía has returned the short story to the people. Though some of his characters are down on their luck, the author has hit the literary jackpot with this one. He's been revered as an artist for decades among the multicultural cognoscenti, and the publication of this fabulous volume will confirm for many readers what we knew all along."—Ishmael Reed, author of *The Reed Reader* "This is a book of rare intensity and transcultural joy!"—José David Saldívar, author of *Border Matters: Remapping American Cultural Studies* "The nine tales of life in Mexico City and the Mission District depicted . . . crackle with energy without losing sight of their narratives. . . . [Murguia's] Mission district is not a hipster haven but a melting pot for Latinos from all over the Americas, and his Mexico City is a thriving cultural whirlwind."—San Francisco Chronicle Book Review "Alejandro Murguía begins *This War Called Love: Nine Stories*, his second

collection, with an unforgettable portrait of Mexico City in the summer of 1956. Murguía's prose has the captivating quality that can only flow from a narrator who is himself captivated by his passions. A born storyteller, Murguía sustains flawlessly believable first-person narratives, which gives his prose much of its warmth and nuance."—The San Francisco Bay Guardian "Equal parts funny and sad, Murguía's short stories depict, with tender and sometimes unflinching detail, love, life, and growing up Hispanic. . . . Although the best of the collection are on the darker side, Murguía also shines in the more lighthearted stories . . . Free of stereotypes and always honest, this collection presents Latino Chicano life at full throttle."—Booklist "Authentic and honest, these stories focus on today's Latin men, their strength and vulnerability, their fears and deepest desires."—Latin Style Alejandro Murguía was born in California, but raised in Mexico City. His experiences as an international volunteer in the Nicaraguan Insurrection of 1979 are recounted in his second collection of short stories Southern Front (American Book Award, 1991). He lives in San Francisco, where he teaches Latin American literature at San Francisco State University. Globe Fearon Company

This is the second book of four in the USS HOQUIAM PF-5 series: RESURRECTION, ROAD TO HUNGNAM, HOCKY MARU, and KNOCK OFF SHIP'S WORK. It is the continuing story of the USS HOQUIAM PF-5 as seen through the eyes of a young sailor, Lee Harrison Stewart. ROAD TO HUNGNAM continues the story started in RESURRECTED. As the story opens, the Hoquiam is in the midst of shakedown and training. Abruptly, she is ordered to Wonsan, North Korea, to participate in the Fifth Marines Amphibious Landing. The Commanding Officer is told his ship will carry out any additional tasks for two weeks as may be ordered by Commander, Task Force 90.

Anchored in Wonsan Harbor, the Captain, Lieutenant Commander Maxwell J. Brown, receives new orders to report to Commander, Task Force 96, for an indeterminate length of time. The crew is not prepared for the very cold weather that drops out of Siberia within days, as the Hoquiam acts as Harbor Entrance Control Vessel for troop and supply landings at Iwon, Songjin, Hungnam, and Chongjin, North Korea. Shortly after completing those missions, she returns to Hungnam and acts as Harbor Entrance Control Vessel once again. Meanwhile, Lee Stewart receives a letter from Betty Echols, a former girl friend, who believes he is still at Naval Station Tongue Point. She writes a sad tale of woe. At her high school graduation party, her date, Ralph Rogers, got her drunk, had his way, and now she was pregnant. Ralph immediately joined the Air Force and left town. She begs Lee to marry her and father this child. A letter from the D.A. in Astoria, Oregon, arrives a short time later, charging Lee Stewart with felony copulation with a minor, Betty Echols, whom he had dated, impregnating her, and serving her intoxicants. Lt. Marston steals both letters and places them in Stewart Personnel Jacket for safekeeping until they return to Yokosuka. The Hoquiam moors in front of ComFitActs Hungnam as their communications guard while they prepare to evacuate Hungnam. The ship takes on marines and children, and moves out to act as swept mine channel point at the Sea Buoy, Buoy #1. As such, the Hoquiam is literally the last vessel to depart the Hungnam area, right behind the Underwater Demolition Team support ship. The Hoquiam anchors in Pusan long enough to disembark the marines and Korean children, then sails home to Yokosuka, arriving December 31st, seventy-three days after she was ordered to Wonsan for two weeks. Lee learns his Japanese girl

friend, Kiki Hatsumoto, had to leave Yokosuka.

While sexually explicit writing and art have been around for millennia, pornography—as an aesthetic, moral, and juridical category—is a modern invention. The contributors to *Porn Archives* explore how the production and proliferation of pornography has been intertwined with the emergence of the archive as a conceptual and physical site for preserving,

cataloguing, and transmitting documents and artifacts. By segregating and regulating access to sexually explicit material, archives have helped constitute pornography as a distinct genre. As a result, porn has become a site for the production of knowledge, as well as the production of pleasure. The essays in this collection address the historically and culturally varied interactions between porn and the archive. Topics range from library policies governing access to sexually explicit material to the growing digital archive of "war porn," or eroticized combat imagery; and from same-sex amputee porn to gay black comic book superhero porn. Together the pieces trace pornography as it crosses borders, transforms technologies, consolidates sexual identities, and challenges notions of what counts as legitimate forms of knowledge. The collection concludes with a valuable resource for scholars: a list of pornography archives held by institutions around the world. Contributors.
