Noted teachers and scholars William J. Duiker and Jackson J. Spielvogel present a balanced, highly readable overview of world history that explores common challenges and experiences of the human past and identifies key patterns over time. Thorough coverage of political, economic, social, religious, intellectual, cultural, and military history is integrated into a chronological framework to help students gain an appreciation and understanding of the distinctive character and development of individual cultures in society. This approach, with organization around seven major themes (Science and Technology, Art and Ideas, Family and Society, Politics and Government, Earth and the Environment, Religion and Philosophy, and Interaction and Exchange), helps students link events together in a broad comparative and global framework, thereby placing the contemporary world in a more meaningful historical context. Last Man Standing (Matt Drake 8) picks up where Blood Vengeance left off, with most of the book taking place over a twenty-four hour span. Drake, Mai, Dahl and Alicia find themselves pitted against eight of the deadliest assassins on

the planet - forced into an extreme tournament where just one can make it out alive. Only Matt Drake's greatest nemesis - Coyote - knows all the rules, and nothing will stop her from destroying everything he loves. Not the destruction of the unwitting town that hosts the tournament, not the demolition in combat of its biggest hotel, not the battle that rages on the edge of town. Amidst the annihilation of the Ninth Division and the emergence of the Pythians as a significant enemy, Drake and the team must fight for their lives against not only their deadliest foe, but an army of mercenaries and each other, to determine who will be. . . .the Last Man Standing.

In Tariacuri's Legacy: The Prehispanic Tarascan State, Helen Perlstein Pollard draws upon ethnohistoric documentation, ecological data, and archaeological research, including her own recent work in the region, to provide the first comprehensive overview of the Tarascan state, one of the two great political powers the Spanish encountered when they arrived in Mexico in the early sixteenth century. The Tarascans dominated western Mexico - in a state founded, according to legend, by the mythical Tariacuri - as fully as the Aztecs dominated the central Valley of Mexico, but until recently they have been little studied and poorly understood. There are several reasons for this neglect: Spanish chroniclers recognized but did not focus on the Tarascans, who were far from the heart of the Spanish administration in Central Mexico; nineteenth-century archaeologists were more drawn to the spectacular monumental sites of the Maya area and of Central Mexico; and, in the twentieth century, the Aztec model was the paradigm for civilization against which other Mexican states were measured. In more recent years, however, the Tarascan state has become a subject of growing interest, and in the last decades the work of Helen Perlstein Pollard in particular has revealed much about this remarkable civilization. Pollard's survey of Tzintzantun has led her to identify specialized zones and to define the urban character of this central administrative city, as well as its economic, political, ecological, social, ideological, and cultural relationship to other parts of the Tarascan state. She emphasizes the importance of metallurgy, in particular, as a marker of elite social status and a major source of wealth for the ruling dynasty. Placing the Tarascan state in the larger context of Mesoamerica, Pollard shows one complex and brilliant variant of archaic civilizations. The text is accompanied by twenty-three maps and thirty-four photographs.
