The Indian

Medical Gazette exploitation of Rama the energy and This three- volume work is concerned with the rules of international law governing the resources to be found on and under the sea-bed. Volume 3 complements the

previous two volumes by making available a selection of the principal documents referred to in volume 1 "The Continental Shelf" and volume 2 "Sea-Bed Mining." The documents are arranged in three Parts. Part 1 includes document on the continental shelf and the exclusive economic zone; Part 2 covers the United Nations regime for the Area beyond the limits of national jurisdiction, including the landmark Mining

Code adopted in July 2000; and Part 3 has a selection of national legislation on sea-bed mining and related coordinating treaties. Also included is a table showing the status, as at 1 October 2000, of the UN Convention on the Law of the Sea, 1982 and the 1994 Agreement relating to the Implementation of the UN Convention. This volume will be a useful practical tool for academics, practitioners, and policy-

makers concerned with the legal regime governing sea-bed energy and minerals and presents a carefully selected set of documents indispensable for a full understanding of the regimes analysed in the earlier volumes. Geological Survey Professional Paper Er. Amandeep This book offers a systematic analysis of a wide range of questions used in censuses, national surveys and international

surveys to measure language proficiency. It addresses the urgent need in language related survey research for a comprehensive examination of the large existing body of survey data in order to provide a fuller understanding of the extent to which survey results are shaped by the way language proficiency questions are worded. While census and survey language proficiency data are extensively

used in a wide range of research areas, as well as in forming, implementing and monitoring government policies, there are as yet no universally accepted survey measures of language proficiency. This book will therefore provide a valuable resource for students and scholars working in sociological areas that use census or survey language data, such as sociology of language,

sociology of education, politics, racial and ethnic studies, and cultural studies; as well as for policy analysts.
