### SOPHIE B HAWKINS

Whaler CD | eBay

Milk transport from the farm  
to the collection centre,  
processing centre or factory  
should always be as quick as  
possible to prevent spoilage of  
the milk. Hygienic milk  
transport is also important.  
Clean the containers used for  
transport every time: rinse with  
cold water first, then scrub  
with a brush and warm water  
containing detergent and rinse  
again with cold water.
