The following table comes  
directly from the BABOK®  
Guide v 3 Proposed Draft.  
Tools and Techniques. The  
biggest concern I have with  
the BABOK® Guide v 3  
proposed draft is the increase  
in the number of tools and  
techniques, from 34 to 46. I  
believe the greatest test of the  
value of a business analyst  
comes from the core  
competencies that they  
possess, including their ability  
to learn and think outside of  
the box, not the number of  
specific tools they have in their

toolkit.
