show highlights human behavior at its best and its worst. The major characters paint themselves as some of the most self-interested individuals in all of popular culture, and are faced with dilemmas that force them to make decisions. Those decisions are at the heart of economics. Each chapter in this book explores one or more key economic concepts and relates them to key scenes from the show. These principles are then applied to other real-world situations, arming readers with the tools needed to make better economic decisions. Written in a light-hearted and conversational style, this book is a must-read for fans of *Seinfeld* and anyone who wants to learn something from "the show about nothing." It is an ideal supplement for all economics classes.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party
