How do you tailor education to the learning needs of adults? Do they learn differently from children? How does their life experience inform their learning processes? These were the questions at the heart of Malcolm Knowles' pioneering theory of andragogy which transformed education theory in the 1970s. The

resulting principles of a self-directed, experiential, problem-centred approach to learning have been hugely influential and are still the basis of the learning practices we use today. Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve. The 9th edition of *The Adult Learner* has been revised to include: Updates to the book to reflect the very latest advancements in the field. The addition of two new chapters on diversity and inclusion in adult learning, and andragogy and the online adult learner. An updated supporting website. This website for the 9th edition of *The Adult Learner* will provide basic instructor aids. For each chapter, there will be a PowerPoint presentation, learning

exercises, and added study questions. Revisions throughout to make it more readable and relevant to your practices. If you are a researcher, practitioner, or student in education, an adult learning practitioner, training manager, or involved in human resource development, this is the definitive book in adult learning you should not be without.

This groundbreaking new medical work demonstrates how modern sedentary lifestyles contribute to poor health, obesity, and diabetes, and how health can be dramatically improved by continuous, low-intensity, movement that challenges

the force of gravity. Citing her original NASA research on how weightlessness weakens astronauts' muscles, bones, and overall health, the author presents a simple and effective plan for maintaining good health throughout life by developing new lifestyle habits of frequent gravity-challenging movement. Written for everyone who spends most of their lives sitting in chairs, at desks, and in cars, this practical, easy-to-follow action plan outlines simple gravity-challenging activities such as standing up frequently, stretching, walking, and dancing that are more healthful and effective than conventional diet and exercise regimens.

Birth Settings in America

National Academies Press

This report of the President's Commission on Law

Enforcement and Administration of Justice -- established by

President Lyndon Johnson on July 23, 1965 -- addresses the

causes of crime and delinquency and recommends how to prevent

crime and delinquency and improve law enforcement and the

administration of criminal justice. In developing its findings

and recommendations, the

Commission held three national conferences, conducted five

national surveys, held hundreds of meetings, and interviewed

tens of thousands of individuals.

Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and

individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

Reminiscences of a Stock Operator

Penguin
International bestseller As seen in The Wall Street Journal--from free play to cozy together time, discover the parenting secrets of the

happiest people in the world What makes Denmark the happiest country in the world--and how do Danish parents raise happy, confident, successful kids, year after year? This upbeat and practical book presents six essential principles, which spell out P-A-R-E-N-T: Play is essential for development and well-being. Authenticity fosters trust and an "inner compass." Reframing helps kids cope with setbacks and look on the bright side. Empathy allows us to act with kindness toward others. No ultimatums means no power struggles, lines in the sand, or resentment. Togetherness is a way to celebrate family time, on special occasions and every day. The Danes call this hygge--and it's a fun, cozy way to foster closeness. Preparing meals together, playing favorite games, and sharing other family traditions are all hygge. (Cell phones, bickering, and complaining are not!) With

illuminating examples and simple yet powerful advice, *The Danish Way of Parenting* will help parents from all walks of life raise the happiest, most well-adjusted kids in the world.

The delivery of high quality and equitable care for both mothers and newborns is complex and requires efforts across many sectors. The United States spends more on childbirth than any other country in the world, yet outcomes are worse than other high-resource countries, and even worse for Black and Native American women. There are a variety of factors that influence childbirth, including social determinants such as income, educational levels, access to care, financing, transportation, structural racism and geographic variability in birth settings. It is important to reevaluate the United States' approach to maternal and newborn care through the lens

of these factors across multiple disciplines. *Birth Settings in America: Outcomes, Quality, Access, and Choice* reviews and evaluates maternal and newborn care in the United States, the epidemiology of social and clinical risks in pregnancy and childbirth, birth settings research, and access to and choice of birth settings.

Treasure Island, published in 1883, popularized the now familiar characters of pirates and brought them to rum-swilling life. When an old sailor named Billy Bones dies in the inn belonging to young Jim Hawkins's parents, he leaves a greasy old map on which an "X" marks the spot where treasure is buried. Jim joins the crew of a ship in pursuit of Bones's treasure, and on the seas meets up with Long John Silver, a peg-legged pirate who has infiltrated their ranks. Jim must survive mutinies and counter-mutinies, face hand-to-hand combat with drunken sailors, and outwit double-crossing thieves before the treasure can be his.

This important report, *Global Trends 2030-Alternative Worlds*, released in 2012 by the U.S. National Intelligence Council, describes megatrends and potential game changers for the next decades. Among the megatrends, it analyzes: - increased individual empowerment - the diffusion of power among states and the ascent of a networked multi-polar world - a world's population growing to 8.3 billion people, of which sixty percent will live in urbanized areas, and surging cross-border migration - expanding demand for food, water, and energy It furthermore describes potential game changers, including: - a global economy that could thrive or collapse - increased global insecurity due to regional

instability in the Middle East and South Asia - new technologies that could solve the problems caused by the megatrends - the possibility, but by no means the certainty, that the U.S. with new partners will reinvent the international system Students of trends, forward-looking entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades will find this essential reading.
