Patagonia The Backcountry Guide Pants are branded as Patagonia's top of the line soft

shell trousers. For winter use I've always been in favour of thin hard shell trousers because my legs freeze if it gets windy on long belays: soft shell just didn't quite cut it in the past.

Dressing for Backcountry Skiing & Snowboarding - Clothing ...

The Guide Pants are made using a Duraflex nylon fabric that is lightweight, yet stronger and more durable than polyester. Nylon will stretch, and these pants do, but it has a resiliency that will hold its shape. Meaning that your pants will not stretch or shrink over time.

Women's Backcountry Guide Pants in excellent condition. Worn two times. They're a bit too big for me so I bought a size 2 and am selling these. Pants come with removable suspenders. Two hand pockets, zippered side vents on both legs, one zippered storage pocket on the left leg.

Reinforced knees. Fleece around the inside of the waist.

Backcountry ski pants are used very differently than their inbounds relatives.

They need to be light, breathable, and contain thoughtful features, all characteristics that take a backseat in downhill ski pant design. The

Trailbreaker II pants are thin softshell pants that are bolstered by waterproof panels on the front of the lower legs.
