National Book Award finalist Laura Ruby returns with the middle chapter in her epic alternate-history adventure--a journey that will test Tess, Theo, and Jaime and change their lives forever. It was only a few weeks ago that the Biedermann twins, Tess and Theo, along with their friend Jaime Cruz, followed the secrets of the Morningstars' cipher further than anyone had in its century--and a-half history--and destroyed their beloved home in the process. But the Old York Cipher still isn't solved. The demolition of 354 W. 73rd Street only revealed the next clue in the greatest mystery of the modern world, and if Tess, Theo, and Jaime want to discover what lies at the end of the puzzle laid into the buildings of New York by its brilliant, enigmatic architects, they will need to press on. But doing so could prove even more dangerous than they know. It is clear that the Morningstarr twins marshaled all the strange technology they had spent their lives creating in the construction of the Cipher, and that technology has its own plans for those who pursue it. It's also clear that Tess, Theo, and Jaime are not the only ones on the trail of the treasure. As enemies both known and unknown close in on them from all sides and the very foundations of the city seem to crumble around them, they will have to ask themselves how far they will go to change the unchangeable--and whether the price of knowing the secrets of the Morningstars is one they are willing to pay.

[York: the Map of Stars](#) Pocket Books

National Book Award 2019 Finalist! From the author of Printz Medal winner Bone Gap comes the unforgettable story of two young women—one living, one dead—dealing with loss, desire, and the fragility of the American dream during WWII. When Frankie's mother died and her father left her and her siblings at an orphanage in Chicago, it was supposed to be only temporary—just long enough for him to get back on his feet and be able to provide for them once again. That's why Frankie's not prepared for the day that he arrives for his weekend visit with a new woman on his arm and out-of-state train tickets in his pocket. Now Frankie and her sister, Toni, are abandoned alongside so many other orphans—two young, unwanted women doing everything they can to survive. And as the embers of the Great Depression are kindled into the fires of World War II, and the shadows of injustice, poverty, and death walk the streets in broad daylight, it will be up to Frankie to find something worth holding on to in the ruins of this shattered America—every minute of every day spent wondering if the life she's able to carve out will be enough. I will admit I do not know the answer. But I will be watching, waiting to find out. That's what ghosts do.

[York: the Clockwork Ghost](#) Simon and Schuster

Walk down Mamane Street, the heart of Honokaa Town, and step back into the late 19th and early 20th century. Honokaa's single-wall, wooden plantation-era buildings are as much a symbol of Hawaii to local people as Diamond Head is to tourists. The commercial buildings have their emblematic false fronts and totan (corrugated iron) cladding. They contained, and still contain, mom-and-pop businesses that were founded upon personal relationships, required the labor of whole families, and provided for the education of the next generation. The small size of the town encouraged cross-pollination of peoples. Sugar workers, paniolos (cowboys), coffee farmers, and homesteaders all came to Honokaa.
