Inspector Sejer and his colleague Skarre are baffled but while the confusion in the outside world continues, a chilling and heart-stopping drama is unfolding inside the old woman's home. The Postcard Killers Little, Brown

"No one can thoroughly chill the blood the way Karin Fossum can." — *Los Angeles Times* Critically acclaimed across Europe, Karin Fossum's Inspector Sejer novels are masterfully constructed, psychologically convincing, and compulsively readable. They evoke a world that is at once profoundly disturbing and terrifyingly familiar. The inaugural Inspector Sejer novels have been conveniently packaged together for your very own chilling reading experience. **EVA'S EYE** When the body of a man floats to the surface of a river, Inspector Sejer is called in. Sejer and his team determine that the man, Egil, died in a violent attack. But Egil has been missing for months, and the trail to his killer has gone cold. It's as puzzling as another unsolved case on Sejer's desk: the murder of a prostitute who was found dead just three days before Egil went missing. Sejer sets to work piecing together the fragments of these two impossible cases; soon enough he realizes that they might not be as separate as they had seemed. **DON'T LOOK BACK** At the foot of the imposing Kollen Mountain lies a small, idyllic village where neighbors know neighbors and children play happily in the streets. But when the body of a teenage girl is found by the lake at the mountaintop, the town's tranquility is shattered forever. Annie was strong, intelligent, and loved by everyone. What went so terribly wrong? Doggedly, yet subtly, Inspector Sejer uncovers layer upon layer of distrust and lies beneath the town's seemingly perfect façade. **HE WHO FEARS THE WOLF** Inspector Sejer is hard at work again, investigating the murder of a woman who lived alone in the middle of the woods. The chief suspect is another loner, a schizophrenic recently escaped from a mental institution. The only witness is a twelve-year-old boy, overweight, obsessed with archery, and a resident at a home for delinquents. Shrewdly, patiently, as is his way, Sejer confronts a case where the strangeness of the crime is matched only by the strangeness of the criminals, and where small-town prejudices warp every piece of information he tries to collect. "In spare, incisive prose, Fossum turns a conventional police procedural into a sensitive examination of troubled minds and a disturbing look at the way society views them . . . A superb writer of psychological suspense." — *New York Times*

This open access book is a novel contribution in two ways: It is a multi-disciplinary examination of the indigenous South Saami people in Fennoscandia, a social and cultural group that often is overlooked as it is a minority within the Saami minority. Based on both historical material such as archaeological evidence, 20th century newspapers, and postcard motives as well as current sources such as ongoing land-right trials and recent works of historiography, the articles highlight the culture and living conditions of this indigenous group, mapping the negotiations of different identities through the interaction of Saami and non-Saami people through the ages. By illuminating this under-researched field, the volume also enriches the more general debate on global indigenous history, and sheds light on the construction of a Scandinavian identity and the limits of the welfare state and the myth of heterogeneity and equality.
