Excerpt from The Tribes and Castes of the North-Western Provinces and Oudh, Vol. 4 of 4 Mughul, Mughul. - One of the four great Muhammadan sub divisions known in Europe under the form Mongol. Mr. Ibbetson, ' writing of the panjab, does not attempt to touch upon the much debated question of the distinction between the Turks and Mughuls. In the Delhi territory, indeed, the villagers accustomed to describe the Mughuls of the Empire as Turks, used the word as synonymous with official, and I have heard my Hindu clerks of Kayasth class described as Turks, merely because they were in Government employ. On the Biloch frontier the word Turk is commonly used as synonym ous with Mughul. The Mughuls preper probably either entered the Paujfib with Babar, or were attracted thither under the dynasty of his successors; and I believe that the great majority of those who have returned themselves as Mughuls in the Eastern Panjab really belong to that race. In these Provinces they say that they take their name from their ancestor Mughul Khan. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Reforms at Risk is the first book to closely examine what happens to sweeping and seemingly successful policy reforms after they are passed. Most books focus on the politics of reform adoption, yet as Eric Patashnik shows here, the political struggle does not end when major reforms become enacted. Why do certain highly praised policy reforms endure while others are quietly reversed or eroded away? Patashnik peers into some of the most critical arenas of domestic-policy reform--including taxes, agricultural subsidies, airline deregulation, emissions trading, welfare state reform, and reform of government procurement--to identify the factors that enable reform measures to survive. He argues that the reforms that stick destroy an existing policy subsystem and reconfigure the political dynamic. Patashnik demonstrates that sustainable reforms create positive policy feedbacks, transform institutions, and often unleash the "creative destructiveness" of market forces. Reforms at Risk debunks the argument that reforms inevitably fail because Congress is prey to special interests, and the book provides a more realistic portrait of the possibilities and limits of positive change in American government. It is essential reading for scholars and practitioners of U.S. politics and public policy, offering practical lessons for anyone who wants to ensure that hard-fought reform victories survive.

Creation of a constructive work is often driven by two types of forces. One, which directs, assists the artist by being physically present. The other force is the source of inspiration. In this piece of research undertaken by me, the impelling force has been my mother, late Prof. (Mrs) Sheetalta Abasaheb Burghate. An academician herself, she always encouraged me to give my best. As a token of respect and admiration, which can never be adequately expressed, I dedicate this research project to her.

The story of my life essentially focuses on how politics destroyed an assiduously built industrial empire; how I fought a long but unsuccessful legal battle for getting my textile mills back; and how I eventually succeeded in reinventing life in the very industry I always loved. The origin of the House of Jaipurias dates back to 1914, when my father, Seth Mungturamji Jaipuria, left our native town of Nawalgarh (in Rajasthan) to travel to Kolkata (earlier Calcutta), which was then India's industrial and commercial hub, and had been its official capital till 1911. (Delhi then acquired that privilege.) I have tried to explain the evolution of the Jaipuria Group, as well as of the Indian textile industry, in as lucid a manner as I

could. I hope the young entrepreneurs, as well as the students of management, apart from the public at large, would find my narrative educative and, if I may say so, inspiring. I hope this book would not only help the younger generation understand India's industrial history and the roots of its own entrepreneurial abilities but would also inspire some of the few remaining entrepreneurs of my generation to record their life histories and share their rich experience, besides warning present and future governments about the dangers of unnecessary meddling in affairs of industry and trade.

The cast of characters was young, attractive, and upwardly mobile, the press hungry for a headline. As details of the case unravelled, the questions flew around—what had gone wrong? What made these young professionals turn to violent crime? Was it the savage pressure of the city, or was the motive even darker? This book will shock and inspire a much needed change in perception of celebrity culture and Bollywood. It's about so much more than a contested killing case and will be a talking point for years to come.

Recently vilified as the prime dynamic driving home the breach between poor and rich nations, here the branding process is rehabilitated as a potential saviour of the economically underprivileged. Brand New Justice, now in a revised paperback edition, systematically analyses the success stories of the Top Thirteen nations, demonstrating that their wealth is based on the 'last mile' of the commercial process: buying raw materials and manufacturing cheaply in third world countries, these countries realise their lucrative profits by adding value through finishing, packaging and marketing and then selling the branded product on to the end-user at a hugely inflated price. The use of sophisticated global media techniques alongside a range of creative marketing activities are the lynchpins of this process. Applying his observations on economic history and the development and impact of global marketing, Anholt presents a cogent plan for developing nations to benefit from globalization. So long the helpless victim of capitalist trading systems, he shows that they can cross the divide and graduate from supplier nation to producer nation. Branding native produce on a global scale, making a commercial virtue out of perceived authenticity and otherness and fully capitalising on the 'last mile' benefits are key to this graduation and fundamental to forging a new global economic balance. Anholt argues with a forceful logic, but also backs his hypothesis with enticing glimpses of this process actually

beginning to take place. Examining activities in India, Thailand, Russia and Africa among others, he shows the risks, challenges and pressures inherent in 'turning the tide', but above all he demonstrates the very real possibility of enlightened capitalism working as a force for good in global terms.

Max Pzoras is the poster child for the American Dream. The child of Greek immigrants who grew up in a dangerous New York housing project, he triumphed over his upbringing and became a successful Wall Street analyst. Yet on the frigid December night he ’ s involved in a violent street scuffle, Max begins to confront questions about suffering and mortality that have dogged him since his mother ’ s death. His search takes him to the farthest reaches of India, where he encounters a mysterious night market, almost freezes to death on a hike up the Himalayas, and finds himself in an ashram in a drought-stricken village in South India. As Max seeks answers to questions that have bedeviled him—can yogis walk on water and live for 200 years without aging? Can a flesh-and-blood man ever achieve nirvana?—he struggles to overcome his skepticism and the pull of family tugging him home. In an ultimate bid for answers, he embarks on a dangerous solitary meditation in a freezing Himalayan cave, where his physical and spiritual endurance is put to its most extreme test. Business and Intellectual Property reflects on the future of IP in the age of new media and shows how—in a rapidly changing business field—managers and decision-makers need to be more perceptive, agile and vigilant than ever before. Drawing on contemporary business affairs and strategies, it explores the nature and scope of IP and the evolution of national laws and global agreements like the TRIPs to protect it. It also explores the measures (the use of patents, copyrights and trademarks) used by some of the biggest brands—Coke, MGM, 20th Century Fox, Microsoft, Harrods, Maruti, Tata—to manage disputes and protect themselves.
