Barbarians at the Gates of the Public Library Harper Collins
The very idea of empire was created in ancient Rome and even today traces of its monuments, literature, and institutions can be found across Europe, the Near East, and North Africa--and sometimes even further afield. In Rome, historian Greg Woolf expertly recounts how this mammoth empire was created, how it was sustained in crisis, and how it shaped the world of its rulers and subjects--a story spanning a millennium and a half of history. The personalities and events of Roman history have become part of the West's cultural lexicon, and Woolf provides brilliant retellings of each

of these, from the war with Carthage to Octavian's victory over Cleopatra, from the height of territorial expansion under the emperors Trajan and Hadrian to the founding of Constantinople and the barbarian invasions which resulted in Rome's ultimate collapse. Throughout, Woolf carefully considers the conditions that made Rome's success possible and so durable, covering topics as diverse as ecology, slavery, and religion. Woolf also compares Rome to other ancient empires and to its many later imitators, bringing into vivid relief the Empire's most distinctive and enduring features. As Woolf demonstrates, nobody ever planned to create a state that would last more than a millennium and a half, yet Rome was able, in the end, to survive barbarian migrations, economic collapse and even the conflicts between a series of world religions that had grown up within its borders, in the process generating an image and a myth of empire that is apparently indestructible. Based on new research and compellingly told, this

sweeping account promises to eclipse all previously published histories of the empire. *The Fall of the Roman Empire* Library Juice Press, LLC

The need to understand this global giant has never been more pressing: China is constantly in the news, yet conflicting impressions abound. Within one generation, China has transformed from an impoverished, repressive state into an economic and political powerhouse. In the fully revised and updated second edition of *China in the 21st Century: What Everyone Needs to Know*, China expert Jeffrey Wasserstrom provides cogent answers to the most urgent questions regarding the newest superpower, and offers a framework for understanding its meteoric rise. Focusing his answers through the historical legacies--Western and Japanese imperialism, the Mao era, and the massacre near Tiananmen Square--that largely define China's present-day trajectory, Wasserstrom introduces readers to the Chinese Communist Party, the building boom in Shanghai, and the environmental fall-out of rapid Chinese industrialization. He also explains unique aspects of Chinese culture such as the one-child policy, and provides insight into how Chinese view Americans. Wasserstrom reveals that China today shares

many traits with other industrialized nations during their periods of development, in particular the United States during its rapid industrialization in the 19th century. He provides guidance on the ways we can expect China to act in the future vis-à-vis the United States, Russia, India, and its East Asian neighbors. The second edition has also been updated to take into account changes China has seen in just the past two years, from the global economic shifts to the recent removal of Chongqing Party Secretary Bo Xilai from power. Concise and insightful, *China in the 21st Century* provides an excellent introduction to this significant global power.

Clash at the Top W. W. Norton & Company

Bringing together original contributions from a worldwide group of scholars, this book critically explores the changing role and influence of institutions in the production of news. Drawing from a diverse set of disciplinary and theoretical backgrounds, research paradigms and perspectives, and methodologies, each chapter explores different institutions currently impacting journalism, including government bodies, businesses, technological platforms, and civic organisations. Together they outline how cracks in the autonomy of the journalism

industry have allowed for other types of organizations to exert influence over the manner in which journalism is produced, funded, experienced and even conceptualized. Ultimately, this collective work argues for increased research on the impact of outside influences on journalism, while providing a roadmap for future research within journalism studies. *The Institutions Changing Journalism* is an invaluable contribution to the field of journalism, media, and communication studies, and will be of interest to scholars and practitioners alike who want to stay up to date with fundamental institutional changes facing in the industry.

Controversial Essays Random House Trade Paperbacks

Barbarians serving in the Roman army, like all other Roman soldiers, faced difficult choices as political events buffeted their leaders and threatened their livelihoods. Honorius, Stilicho, Alaric, Galla Placidia, Constantius III and usurpers like Constantine III and Attalus left their imprints upon these years - coloring the fabric of political and spiritual life as much as they affected military affairs.

The Daring Mission of William Tyndale W. W. Norton & Company

Clash At The Top takes the reader on a fascinating and dangerous journey between Washington and Moscow during the cold war. The novel unfolds the new kind of tension that existed between the White House and the Kremlin, and tells about the sinister plot that was engineered in the dark corridors of a highly developed laboratory for Parapsychological research near Moscow. Although the Soviet Union has collapsed, it has recently been reported that the Laboratory for Advanced Parapsychological Research near Moscow is still very active and that more lethal methods of remote viewing and mind control are being developed. If you want to know more...then read on. It is for me to know that it is a fact and for you to find out if it is a fact or fiction.

Forget the Alamo Harper Collins

A #1 bestseller from coast to coast, Den of Thieves tells the full story of the insider-trading scandal that nearly destroyed Wall Street, the men who pulled it off, and the chase that finally brought them to justice. Pulitzer Prize – winner James B. Stewart shows for the first time how four of the eighties' biggest names on Wall

Street—Michael Milken, Ivan Boesky, Martin Siegel, and Dennis Levine—created the greatest insider-trading ring in financial history and almost walked away with billions, until a team of downtrodden detectives triumphed over some of America's most expensive lawyers to bring this powerful quartet to justice. Based on secret grand jury transcripts, interviews, and actual trading records, and containing explosive new revelations about Michael Milken and Ivan Boesky, Den of Thieves weaves all the facts into an unforgettable narrative—a portrait of human nature, big business, and crime of unparalleled proportions. Barbarians Within the Gates of Rome Oxford University Press

The inside account of a financial meltdown that reshaped Wall Street In 1983, Lew Glucksman, then co-CEO of the heralded investment bank Lehman Brothers, demanded the resignation of chairman Pete Peterson, with whom he had long argued over how to manage the company. Shockingly, Peterson, who had taken charge a decade earlier and led Lehman from near collapse to record profits, agreed to step down. In this meticulously researched volume, Ken Auletta details the turmoil,

infighting, and power struggles that brought about Peterson's departure and the eventual sale of one of Wall Street's oldest and most prestigious firms. Set against the backdrop of the 1980s stock exchange, where hotshot young traders made and lost millions in a single afternoon, the story of Lehman's fall is a suspenseful battle of wills between bankers, traders, and executives motivated by greed, envy, and ego. Auletta, who conducted hundreds of hours of interviews and was granted access to private company records, has crafted a thorough, enduring, and engaging account of pivotal events that continued to influence this storied financial institution until its ultimate demise in 2008.

Barbarians Inside the Gates and Other Controversial Essays Bloomsbury Publishing Journey into the realm of VHS tapes and midnight showings where brawny barbarians rescue nubile virgins from evil wizards, giant snakes, and armies of the undead! Although originating in the era of the pulp magazines, sword and sorcery fiction enjoyed a cinematic boom in the 1980s; a decade that gave us Conan the Barbarian and The Beastmaster as well as more

low-budget offerings like the Roger Corman-produced Deathstalker series and the Italian entries like Conquest and the Ator saga. Some of these movies are fondly remembered as cult classics today but many were released directly to VHS and lurked on the shelves of video rental stores before vanishing into obscurity. While some have long since lost their lustre, there are plenty of diamonds in the rough to be found. This book takes a comprehensive look at over 40 sword and sorcery movies from the 1980s, from the towering titans to the bargain basement sleaze-fests, unearthing them from their tombs and dusting them off so that they may shine once more.

Barbarian at the Gate Simon and Schuster

FIASCO is the shocking story of one man's education in the jungles of Wall Street. As a young derivatives salesman at Morgan Stanley, Frank Partnoy learned to buy and sell billions of dollars worth of securities that were so complex many traders themselves didn't understand them. In his behind-the-scenes look at the trading floor and the offices of one of the world's top investment firms, Partnoy recounts the macho attitudes and fiercely competitive ploys of his office mates. And he takes us to the annual drunken skeet-shooting competition, FIASCO, where he and his colleagues sharpen the killer instincts they are encouraged to use against their competitors, their clients, and

each other. FIASCO is the first book to take on the derivatives trading industry, the most highly charged and risky sector of the stock market. More importantly, it is a blistering indictment of the largely unregulated market in derivatives and serves as a warning to unwary investors about real fiascos, which have cost billions of dollars.

Barbarians at the Gate Hoover Press

“ Paints a telling portrait of this most restless generation raised in a system that has provided them with unprecedented personal opportunities while denying them political ones. . . . A gifted observer. ” —Washington Post “ Informative and often humorous . . . Presents a refreshing range of perspectives about being twenty-something in China. ” —Forbes

“ Masterfully crafted. ” —Los Angeles Review of Books “ A perceptive and quietly profound book. ” —Booklist, starred review “ Compelling and beautifully written. ” —Prospect China ’ s new youth are the generation that will change China. Offspring of the one-child policy, with no memory of Tiananmen, they are destined to transform both their nation and the world. Understanding their

motivations, dreams, and attitudes is possibly the most important gauge of China ’ s future direction as it plays an increasingly important role in shaping this century.

China ’ s New Youth follows the lives of six young Chinese as they navigate their aspirations, discontents, politics, and love lives. Their stories include a netizen nationalist, a country migrant, the daughter of a Party member, a rising pop star, and a feminist entrepreneur. With intimate access to this diverse generation, Alec Ash—a young writer based in China since 2012—gives a vivid, immersive, fascinating account of young China as it comes of age. China's New Youth was originally published in hardcover until the title *Wish Lanterns: Young Lives in New China*. The new paperback edition has been updated with a new preface and afterword by the author and a new foreword by Karoline Kan.

[Greed and Glory on Wall Street](#) HarperBusiness
Barbarians at the Gates of the Public Library is a philosophical and historical analysis of how the rise of consumerism has led to the decline of the original mission of public libraries to

sustain and promote democracy through civic education. Through a reading of historical figures such as Plato, Helvetius, Rousseau, and John Stuart Mill, the book shows how democracy and even capitalism were originally believed to depend upon the moral and political education that public libraries (and other institutions of rational public discourse) could provide. But as capitalism developed in the 20th century it evolved into a postmodern consumerism that replaced democracy with consumerism and education with entertainment. Public libraries have mistakenly tried to remain relevant by shadowing the rise of consumerism, but have instead contributed to the rise of a new barbarism and the decline of democracy.

Barbarians in the Boardroom Taylor & Francis Shows how Europe's barbarians, strengthened by centuries of contact with Rome on many levels, turned into an enemy capable of overturning and dismantling the mighty Empire.

Dark Age Ahead University of Chicago Press

The fight to control RJR Nabisco during October and November of 1988 was more than just the largest takeover in Wall Street history. Marked by brazen displays of ego not seen in American business for decades, it became the high point of a new gilded age, and its repercussions are still being felt. The ultimate story of greed and glory, *Barbarians at the Gate* is the gripping account of these two frenzied months, of deal makers and publicity flaks, of an old-line industrial powerhouse that became the victim of the ruthless and rapacious style of finance in the 1980s. Written with the bravado of a novel and researched with the diligence of a sweeping cultural history, here is the unforgettable story of the takeover in all its brutality.

The Lords of the Realm
Indiana University Press

“ Full of schadenfreude and speculation—and solid, timely history too. ”

—Kirkus Reviews “ This is a portrait of capitalism as white-knuckle risk taking, yielding fruitful discoveries for the fathers, but only sterile speculation for the sons—a story that resonates with today's economic upheaval. ” —Publishers Weekly “ What's not to enjoy about a book full of monstrous egos, unimaginable sums of

money, and the punishment of greed and shortsightedness? ” —The Economist Phenomenal reviews and sales greeted the hardcover publication of *The Big Rich*, New York Times bestselling author Bryan Burrough's spellbinding chronicle of Texas oil. Weaving together the multigenerational sagas of the industry's four wealthiest families, Burrough brings to life the men known in their day as the Big Four: Roy Cullen, H. L. Hunt, Clint Murchison, and Sid Richardson, all swaggering Texas oil tycoons who owned sprawling ranches and mingled with presidents and Hollywood stars. Seamlessly charting their collective rise and fall, *The Big Rich* is a hugely entertaining account that only a writer with Burrough's abilities-and Texas upbringing-could have written.
