### Bard The Odyssey Of Irish

In Celtic cultures, a bard was a professional story teller, verse-maker, music composer, oral historian and genealogist, employed by a patron to commemorate one or more of the patron's ancestors and to praise the patron's own activities. Originally bards were a specific lower class of poet, contrasting with the higher rank known as fili in Ireland and Highland Scotland. With the decline of a living bardic

tradition in the modern period, the term has loosened to mean a generic minstrel or author.
