As in her former books, Alice Miller again focusses on facts. She is as determined as ever to cut through the veil that, for thousands of years now, has been so meticulously woven to shroud the truth. And when she lifts that veil and brushes it aside, the results are astonishing, as is amply demonstrated by her analyses of the works of Nietzsche, Picasso, Kollwitz, Keaton and others. With the key shunned by so many for so long - childhood - she opens rusty looks and offers her readers a wealth of unexpected perspectives. What did Picasso express in "Guernica"? Why did Buster Keaton never smile? Why did Nietzsche heap so much opprobrium on women and religion, and lose his mind for eleven years? Why did Hitler and Stalin become tyrannical mass murderers? Alice Miller investigates these and other questions thoroughly in this book. She draws from her discoveries the conclusion that human beings are not "innately" destructive, that they are made that way by ignorance, abuse, and neglect, particularly if no sympathetic witness comes to their aid. She also shows why some mistreated children do not become criminals but instead bear witness as artists to the truth about their childhoods, even though in purely intuitive and unconscious ways.

From the award-winning author of *The Golden Mean*, a captivating, wholly transporting new novel that follows Aristotle's strong-willed daughter as she shapes her own destiny: an unexpected love story, a tender portrait of a girl and her father, and an astonishing journey through the underbelly of a supposedly enlightened society. Aristotle has never been able to resist a keen mind, and Pythias is certainly her father's daughter: besting his brightest students, refusing to content herself with a life circumscribed by the kitchen, the loom, and, eventually, a husband. Into her teenage years, she is protected by the reputation of her adored father, but with the death of Alexander the Great, her fortunes suddenly change. Aristotle's family is forced to flee Athens for a small town, where the great philosopher soon dies, and orphaned Pythias quickly discovers that the world is not a place of logic after all, but one of superstition. As threats close in on her—a rebellious household, capricious gods and goddesses—she will need every ounce of wit she possesses, and the courage to seek refuge where she least expects it. This ebook edition includes a Reading Group Guide.

A pathbreaking history of the development of scientific racism, white nationalism, and segregationist philanthropy in the U.S. and South Africa in the early twentieth century, *Waste of a White Skin* focuses on the American Carnegie Corporation's study of race in South Africa, the Poor White Study, and its influence on the creation of apartheid. This book demonstrates the ways in which U.S. elites supported apartheid and Afrikaner Nationalism in the critical period prior to 1948 through philanthropic interventions and shaping scholarly knowledge production. Rather than comparing racial democracies and their engagement with scientific racism, Willoughby-Herard outlines the ways in which a racial regime of global whiteness constitutes domestic racial policies and in part animates black consciousness in seemingly disparate and discontinuous racial democracies. This book uses key paradigms in black political thought—black feminism, black internationalism, and the black radical tradition—to provide a rich account of poverty and work. Much of the scholarship on whiteness in South Africa overlooks the complex politics of white poverty and what they mean for the making of black political action and black people's presence in the economic system. Ideal for students, scholars, and interested readers in areas related to U.S. History, African History, World History, Diaspora Studies, Race and Ethnicity, Sociology, Anthropology, and Political Science.

Hanging onto the tree, Lawrence looked down in awe. Who would have believed that the quiet little Umhlatuzana could change from a small stream to this? When thirteen-year-old Lawrence is caught up in the tumult of the flood that struck Natal after freak torrential rains on Saturday 26 September 1987, his life is turned upside down. Everything that he has taken for granted changes overnight and he finds himself alone, trying to understand the forces that have swept him along. Sheer tenacity and the need to soar again like a kite, help him contend with the complexities of fending for himself, of understanding his radically altered younger brother and the almost recognisable mother who is lying in the hospital. Here we have the innermost thoughts of a boy caught up in a tangle of events, an experience showing someone struggling towards his own identity in a chaotic world. Gold Sanlam Prize for Youth Literature, 1990.

Paul Ricoeur is one of the most important modern literary theorists and a philosopher of world renown. This collection brings together his published articles, papers, reviews, and interviews that focus on literary theory and criticism. The first of four sections includes early pieces that explore the philosophical foundations for a post-structural hermeneutics. The second contains reviews and essays in which Ricoeur engages in debate over some of the central themes of literary theory, including figuration/configuration and narrativity. In the third section are later essays on post-structuralist hermeneutics, and in the fourth, interviews in which he discusses text, language, and myths. Mario Valdés provides an introduction to the literary theories of Paul Ricoeur and the works in this collection particularly. He also includes a complete bibliography of Ricoeur's works that have appeared in English.

In a world first, almost incredibly, Riaan Manser rode a bicycle right around the continent of Africa. It took him two years, two months and fifteen days. He rode 36 500 kilometres through 34 different countries. In this book he tells the story of this epic journey. It is a story of blood, sweat, toil and tears. It is a story of triumph and occasional disaster. Of nights out under the stars, of searing heat and rain, of endless miles of Africa and of pressing on and never surrendering whatever the odds. Mostly however it is the story of one mans courage and determination to escape the mundane and see the continent he loves and feels so much a part of. It is the story of the human warmth he encounters, and occasionally human wrath and hostility as he crosses troubled countries and borders. Riaan Manser was born in 1973 in Pretoria. He grew up in Zululand and attended John Ross College in Richards Bay. After studying Human Resource Management he took a job in the medical industry. He has been a lifesaver, a surfer and a rugby player. When he took his bicycle to ride around Africa it was as a commitment to do something entirely extraordinary with his life. He is now an author and motivational speaker -- and is looking for his next adventure.

The Mark Vintage

Sarah Lotz, internationally acclaimed author of *The Three*, and *Day Four*, describes *The Mark* as:

"An entrancing, truly original novel packed with twists you won't see coming and a heroine that breaks the mould. Unputdownable." In the future, the world has flipped. Ravaged by the Conflagration, the State of Mangeria is a harsh place where the sun beats down, people's lives are run by a heartless elite and law is brutally enforced. A mark at the base of the spine controls each person's destiny. The Machine decides what work you will do and who your life partner will be. Juliet Seven - "Ettie" - will soon turn 15 and her life as a drudge will begin, her fate-mate mate will be chosen. Like everyone else, her future is marked by the numbers on her spine. But Ettie decides to challenge her destiny. And in so doing, she fulfills the prophecy that was spoken of before she even existed.
