Math Workbook for the SAT I Barrons Educational Series

This test prep guide opens with a detailed introduction

that provides an overview of this exam, information about calculator use and scoring, and strategies for maximizing your score, followed by a full-length diagnostic test with all answers explained to help students pinpoint their strengths and weaknesses. In the chapters that follow, detailed topic reviews cover several types of functions; transformations and symmetry; conic sections; polar coordinates; three-dimensional geometry; counting; complex numbers; matrices; sequences and series; vectors; statistics; probability; and much more. All chapters have been fully updated and include clear examples, explanations, and practice exercises. The chapters on rational functions and conic sections, in particular, have been heavily revised to explain these concepts in greater detail. This book concludes with six full-length model tests that have been updated with brand new questions and detailed answer explanations. Each test also contains a self-evaluation chart to help students identify chapters that need to be reviewed and rubrics for students to determine their raw and scaled scores. **BONUS ONLINE PRACTICE TESTS:** Students who purchase this book will also get FREE access to two additional full-length online SAT Math Level 2 subject tests with all questions answered and explained and automatic scoring.
