Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. Twelve Years a Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

WINNER OF THE IMPAC DUBLIN AWARD • Widely considered a masterpiece, a breathtaking novel about family secrets that chronicles the relentless power of the past—from "Spain's best writer" (Roberto Bolaño, national bestselling author of *The Savage Detectives*). Juan knows little of the interior life of his father Ranz; but when Juan marries, he begins to consider the past anew, and begins to ponder what he doesn't really want to know. Secrecy—its possible convenience, its price, and even its civility—hovers throughout the novel. *A Heart So White* becomes a sort of anti-detective story of human nature. Intrigue; the sins of the father; the fraudulent and the genuine; marriage and strange repetitions of violence: Marías elegantly sends shafts of inquisitory light into shadows and onto the costs of ambivalence.

The eighteenth-century German physicist Georg Christoph Lichtenberg left behind at the time of his death thousands of fragmentary notes commenting on a dazzling and at the same time puzzling array of subjects. Pierre Senges's *Fragments of Lichtenberg* imaginatively and hilariously reconstructs the efforts of scholars across three centuries to piece together Lichtenberg's disparate notes into a coherent philosophical or artistic statement. What emerges instead from their efforts are a wide variety of conflicting and competing Lichtenbergs — the poet, the physicist, the philosopher, the humorist — and a very funny meditation on the way interpretations and speculation create new histories and new realities. In just over half a century, Georg Christoph Lichtenberg (1742-1799) had the time to be all of the following: a hunchback; a mathematician; a physics professor; a connoisseur of hare pate; a hermit; an electrical theorist; a skirtchaser; a friend of King George III of England; an asthmatic; a defender of reason; a hypochondriac; a dying man; and the author of 8,000 fragments written with ink and goose quills. Traditionally those fragments have been considered no

more than aphorisms, to be sipped like fine schnapps, but certain scholars claim, however, that his famous *Wastebooks* are really the scattered pieces of a Great Novel, and that this might yet be reconstructed, with the help of scissors, glue, and paper, and by using what is left of our imaginations. The present volume retracts, among other things, the work undertaken for more than a century by valiant Lichtenbergians.

"We think of English as a fortress to be defended, but a better analogy is to think of English as a child. We love and nurture it into being, and once it gains gross motor skills, it starts going exactly where we don't want it to go: it heads right for the goddamned electrical sockets." With wit and irreverence, lexicographer Kory Stamper cracks open the obsessive world of dictionary writing, from the agonizing decisions about what to define and how to do it to the knotty questions of ever-changing word usage. Filled with fun facts—for example, the first documented usage of "OMG" was in a letter to Winston Churchill—and Stamper's own stories from the linguistic front lines (including how she became America's foremost "irregardless" apologist, despite loathing the word), *Word by Word* is an endlessly entertaining look at the wonderful complexities and eccentricities of the English language.

The Lacanian Review (TLR) is a semiannual English-language journal of psychoanalysis, with bilingual (French - English) presentations of texts by Jacques Lacan and Jacques-Alain Miller. TLR publishes writing from prominent international figures of the Lacanian Orientation, featuring new theoretical developments in psychoanalysis, testimonies of the pass, dialogues with other discourses, and articles on contemporary culture, politics, art and science. Each issue explores a theme intersecting the symptoms of our era and emerging work in the New Lacanian School (NLS) and the World Association of Psychoanalysis (WAP). In issue 6 of *The Lacanian Review* (TLR), there is not a moment to lose. The acceleration of culture and the vertiginous pressure of the drive seem to collapse the instant to see, the time to understand and the moment to conclude. The urgent subject of the now cannot catch up to rapid cycles of political upheaval and social media streams turned into torrents of data. Production overflows consumption in a tidal wave of imaginary cacophony. How does psychoanalysis today respond to urgent times? For its 6th issue, *The Lacanian Review* (TLR) tasks the signifier, *Urgent!*, to orient the work of the New Lacanian School (NLS) in examining the urgent cases that occupy our clinic in preparation for the 2019 NLS Congress in Tel Aviv: ¡URGENT! Tracing the edge of the latest Lacan, Bernard Seynhaeve (President of the NLS) curated a series of newly established texts by Jacques Lacan and Jacques-Alain Miller, translated by Russell Grigg, appearing in the first ever bilingual featured section of TLR. Four lessons from the seminars of Jacques-Alain Miller frame this issue. TLR 6 draws heavily from the work of the current Analysts of the School to explore four new fundamental concepts of psychoanalysis: Pass, Real Unconscious, Urgent Cases, and Satisfaction. Interviews with Angelina Harari (President of the WAP), Ricardo Seldes (Director of Pausa), and Lee Edelman (Professor of English Literature at Tufts University) elaborate fundamental concepts across the work of the School One, the clinic of applied analysis, and literary theory in dialogue with psychoanalysis. A groundbreaking orientation text by Éric Laurent from the 2018 Congress of the World Association of Psychoanalysis (WAP) will be published for the first time in English, along with clinical cases exploring transference and psychosis. And finally, approaching the problem of temporality in psychoanalysis, this issue spans Freudian time-management to the logic of the cut in the Lacanian Orientation. TLR is published by the New Lacanian School (amp-nls.org) and distributed by the Lacanian Compass Bookshop (lacaniancompass.com) and Eurl Huysmans (ecf-echoppe.com).

Though best known in the English speaking world for his short fictions and poems, Borges is revered in Latin America equally as an immensely prolific and beguiling writer of non-fiction prose. In *THE TOTAL LIBRARY*, more than 150 of Borges' most brilliant pieces are brought together for the first time in one volume - all in superb new translations. More than a hundred of the pieces have never previously been published in English. *THE TOTAL LIBRARY* presents Borges at once as a deceptively self-effacing guide to the universe and as the inventor of a universe that is an indispensable guide to Borges.

Let 'em Roll Kafka John Wiley & Sons

Stefan George (1868 – 1933) was one of the most important and influential poets to have written in German. His work, in its originality and impact, easily ranks with that of Goethe, Holderlin, or Rilke. Yet George's reach extended far beyond the sphere of literature. Particularly during his last three decades, George gathered around himself a group of men who subscribed to his homoerotic and idiosyncratic vision of life and sought to transform that vision into reality. George considered his circle to be the embodiment and defender of the "real" but "secret" Germany, opposed to the false values of contemporary bourgeois society. Some of his disciples, friends, and admirers were themselves historians, philosophers, and poets. Their works profoundly affected the intellectual and cultural attitudes of Germany's elite during the critical postwar years of the Weimar Republic. Essentially conservative in temperament and outlook, George and his circle occupy a central, but problematic, place in the rise of proto-fascism in Germany. Their own surrogate state offered a miniature model of a future German state: enthusiastic followers submitting themselves without question to the figure and will of a charismatic leader believed to be in possession of mysterious, even quasi-divine, powers. When he died several months after the Nazi takeover, George was one of the most famous and revered figures in Germany. Today the importance of George and his circle has largely been forgotten. In this, the first full biography of George to appear in any language, Robert E. Norton traces the poet's life and rise to fame.

This generously illustrated examination of architectural photography from the 1930s to the present shows how the medium has helped shape familiar views of iconic buildings. Photography has both manipulated and bolstered our

appreciation of modern architecture. With beautiful photographs of private and public buildings by Julius Shulman, Candida Höfer, Andreas Gursky, Thomas Struth, and others, this book examines the central and active role that photography plays in defining and perpetuating the iconic nature of buildings and places. This volume shows how different photographers represent the same building, offers commentaries on the "American dream," and explores changes in commercial architectural photography. Placing decades-old images alongside modern ones, *Image Building* depicts the idea of the comfortable middle-class home and the construction of suburbia as an ironic ideal. It presents the ways that public spaces such as libraries, museums, theaters, and office buildings are experienced differently as photographers highlight the social, cultural, psychological, and aesthetic conditions to reveal the layered meanings of place and identity. Looking at how photography shapes and frames our understanding of architecture, this volume offers thought-provoking points of view through an exploration of social and cultural issues.
