Face2face is a general English course for adults and young adults who want to communicate quickly and effectively in today's world. This Workbook Answers section is available separately from the pack, which is a saleable item. The presentation and practice of vocabulary and grammar are of equal importance and there is a strong focus on listening and speaking with an emphasis on 'real world' language for social situations. The listening and

reading material provides fresh new angles on universal topics, and students are given numerous opportunities to practise new language through a wide variety of communicative activities, many of which are personalized. face2face is also fully compatible with the Common European Framework of Reference for Languages and gives students regular opportunities to evaluate their progress. Each self-contained double-page lesson is easily teachable off the page with minimal preparation. The Teachers Books contain optional photocopiable resources and tests, ensuring that the course

can be tailored to the needs of different classes. Each level provides approximately 80 hours of core teaching material, which can be extended to 120 hours with the inclusion of the photocopiable resource material and extra ideas in the Teacher's Book. The Student's Books are packaged with a free CD-ROM/Audio CD which offers hundreds of extra practice activities, video sequences, recording capability, customizable texts and much more.

A curated Italian word frequency list Are you looking for unconventional ways to speed up the process of learning Italian? Then this book is exactly what you are looking for. Following the Pareto principle (80/20 rule), this book is built to streamline the

learning process by concentrating on the core words and sentence structures that make up everyday conversations. The result is a unique vocabulary book with 2000 of the most important Italian words and phrases ordered by their frequency of use. Who this Italian learning book is for: This book is for beginners and intermediate learners of Italian who are self-motivated and willing to spend 15 to 20 minutes a day on learning vocabularies.

The simple structure of this vocabulary book is the result of taking all unnecessary things out allowing the learning effort to solely be spent on the parts that help you make the biggest progress in the shortest amount of time. If you are willing to put in 20 minutes of learning every day, this book is very likely the single best investment you can make if you are at a beginner or intermediate level. You will be amazed at the

speed of progress within a matter of just weeks of daily practice. Who this Italian frequency list is not for: This book is not for you if you are an advanced learner of Italian. In this case, please go to our website or search for our Italian vocabulary book which comes with more vocabularies and is grouped by topic which is ideal for advanced learners who want to improve their language capabilities in certain fields. Furthermore, if you are

looking for an all in one Italian learning book that guides you through the various steps of learning Italian, this book is most likely also not what you are looking for. This book contains vocabularies only and we expect buyers to learn things like grammar and pronunciation either from other sources or through language courses. The strength of this book is its focus on quick acquisition of core vocabularies which

comes at the expense of 200. Once you know information many people might expect in a conventional language learning book. Please be aware of this when making the purchase. How to use this workbook: This book is ideally used on a daily basis, reviewing a set number of pages in each session. The book is split into sections of 50 vocabularies which allows you to step by step progress through the book. Let's for example say you are currently reviewing vocabularies 101 to 200. Once you know vocabularies 101 to 150 very well, you can start learning vocabularies 201 to 250 and on the next day skip 101-150 and continue reviewing vocabularies 151 to 250. This way, step by step, you will work your way through the book and your language skills will jump with each page you master. Some final thoughts: Like many language hacking methods, this book is quite unconventional in its approach, but for a

driven person that uses it correctly it can significantly speed up the learning process. Vocabulary books have been around for centuries and as with so many things that have been around for some time, they are not very fashionable and a bit boring, but they usually work quite well - and that is what counts in the end.
