This is not a book about where to get free or cheap medical care.

Another book in this series covers that. This is about different options to buy health insurance, the different types of health insurance and options for hard-to-insure people. This is why I preach about saving your money and not spending it on frivolous things. Who is gonna care about all that money you spent on hair color and frivolous clothes when you're sick and depleting your life's savings?
