10,000 Afghans. 21 Sikh soldiers. One epic battle. On 12 September 1897, 21 soldiers of 36th Sikh regiment stood undeterred as they guarded the post of Saragarhi against the onslaught of almost 10,000 Afghan tribesmen – a battle for the ages that ended in them laying down their lives in a final hand-

to-hand combat. The unparalleled heroics of these 21 men have, however, been long forgotten by history. What led to the Battle of Saragarhi? What was the socio-political scenario at the time? Who were these tribesmen and why did they attack an outpost in such great numbers? Who were the 21 soldiers and how were they able to keep the enemy at bay against all odds? Based on colonial era records and information provided by the 4th Sikh battalion, the legatee unit of 36th Sikhs, 21 Kesaris attempts to answer these questions while paying homage to the brave soldiers who defended the 'kesari' flag – depicting their Khalsa heritage – with their last breaths.

This award-winning Civil War history examines Robert E. Lee's retreat from Gettysburg and the vital importance of Civil War military intelligence. While countless books have examined the Battle of Gettysburg, the Confederate Army's retreat to the Potomac River remains largely untold. This comprehensive study tells the full story, including how Maj. Gen. George G. Meade organized and motivated his Army of the Potomac to pursue Gen. Robert E. Lee's retreating Army of Northern Virginia. The long and bloody battle exhausted both armies, and both faced difficult tasks ahead. Lee had to conduct an orderly withdrawal from the field. Meade had to assess whether his army had sufficient strength to pursue a still-dangerous enemy. Central to the respective commanders' decisions was the intelligence they received about one another's movements, intentions, and capability. The eleven-day period after Gettysburg was a battle of wits to determine which commander better understood the information he received. Prepare for some surprising revelations. The authors utilized a host of primary sources to craft this study, including letters, memoirs, diaries, official reports, newspapers, and telegrams. The immediacy of this material shines through in a fast-paced narrative that sheds significant new light on one of the Civil War's most consequential episodes. Winner, Edwin C. I would have climbed up a mountain to get on the list [to serve overseas]. We were going to do our duty. Despite all the bad things that happened, America was our home. This is where I was

born. It was where my mother and father were. There was a feeling of wanting to do your part. --Gladys Carter, member of the 6888th Central Postal Directory, *To Serve My Country*, to Serve my Race is the story of the historic 6888th, the first United States Women's Army Corps unit composed of African-American women to serve overseas. While African-American men and white women were invited, if belatedly, to serve their country abroad, African-American women were excluded for overseas duty throughout most of WWII. Under political pressure from legislators like Adam Clayton Powell, Jr., the NAACP, the black press, and even President Roosevelt, the U.S. War Department was forced to deploy African-American women to the European theater in 1945. African-American women, having succeeded, through their own activism and political ties, in their quest to shape their own lives, answered the call from all over the country, from every socioeconomic stratum. Stationed in France and England at the end of World War II, the 6888th brought together women like Mary Daniel Williams, a cook in the 6888th who signed up for the Army to escape the slums of Cleveland and to improve her ninth-grade education, and Margaret Barnes Jones, a public relations officer of the 6888th, who grew up in a comfortable household with a politically active mother who encouraged her to challenge the system. Despite the social, political, and economic restrictions imposed upon these African-American women in their own country, they were eager to serve, not only out of patriotism but out of a desire to uplift their race and dispell bigoted preconceptions about their abilities. Elaine Bennett, a First Sergeant in the 6888th, joined because "I wanted to prove to myself and maybe to the world that we would

give what we had back to the United States as a confirmation that we were full- fledged citizens." Filled with compelling personal testimony based on extensive interviews, *To Serve My Country* is the first book to document the lives of these courageous pioneers. It reveals how their Army experience affected them for the rest of their lives and how they, in turn, transformed the U.S. military forever.
