Before the First Shots Are Fired Battle Ready An unconventional war requires unconventional men—the Special Forces. Green Berets • Navy

SEALS • Rangers • Air Force Special Operations • PsyOps • Civil Affairs • and other special-mission units The first two Commanders books, *Every Man a Tiger* and *Into the Storm*, provided masterly blends of history, biography, you-are-there narrative, insight into the practice of leadership, and plain old-fashioned storytelling. *Shadow Warriors* is all of that and more, a book of uncommon timeliness, for, in the words of Lieutenant General Bill Yarborough, “there are itches that only Special Forces can scratch.” Now,

Carl Stiner—the second commander of SOCOM, the U.S. Special Operations Command—and Tom Clancy trace the transformation of the Special Forces from the small core of outsiders of the 1950s, through the cauldron of Vietnam, to the rebirth of the SF in the late 1980s and 1990s, and on into the new century as the bearer of the largest, most mixed, and most complex set of missions in the U.S. military. These are the first-hand accounts of soldiers fighting outside the lines: counterterrorism, raids, hostage rescues, reconnaissance,

counterinsurgency, and psychological operations—from Vietnam and Laos to Lebanon to Panama, to Saudi Arabia, Kuwait, and Iraq, to the new wars of today... *SSN Penguin* President Jack Ryan deals with the worst breach U.S. intelligence has ever suffered in this “compelling and frighteningly realistic” * thriller in Tom Clancy’s #1 New York Times bestselling series. Marine general Tony Zinni was known as the "Warrior Diplomat" during his nearly forty years of service. His credentials as a soldier were impeccable, whether

he was leading troops in Vietnam, commanding hair-raising rescue operations in Somalia, or - as Commander in Chief of CENTCOM - directing strikes against Iraq and Al Qaeda. But it was as a peacemaker that he made just as great a mark - conducting dangerous troubleshooting missions all over Africa, Asia, and Europe, and then serving as Secretary of State Colin Powell's special envoy to the Middle East, before disagreements over the 2003 Iraq war and its probable aftermath caused him to resign." Battle Ready follows the evolution of both

General Zinni and the Marine Corps, from the cauldron of Vietnam through the operational revolution of the '70s and '80s, to the new realities of the post-Cold War, post-9/11 military - a military with a radically different tools for accomplishing it. Opinions differ sharply about just what that job and those tools should be - and General Zinni makes it clear where he stands. The Generals Penguin In the wake of the troubled campaigns in Afghanistan and Iraq, military decision-making appears to be in crisis and generals have

been subjected to intense and sustained public criticism. Taking these interventions as a starting point, Anthony King examines the transformation of military command in the twenty-first century. Focusing on the army division, King argues that a phenomenon of collective command is developing. In the twentieth century, generals typically directed and led operations personally, monopolising decision-making. They commanded individually, even heroically. As operations have expanded in range and

scope, decision-making has multiplied and diversified. As a result command is becoming increasingly professionalised and collaborative. Through interviews with many leading generals and vivid ethnographic analysis of divisional headquarters, this book provides a unique insight into the transformation of command in western armies.
