shot is fired, introduces new levels of understanding and competence, provides useful advice, and answers many of the questions frequently asked by beginners. The key topics, which are examined in detail, include breathing, aiming, trigger control and 'follow through'. In addition, step-by-step guidance is presented on how to build a comfortable and stable prone position whilst wearing a jacket and sling. All through the book photographs, including pictures taken through the sights to show exactly what is being described, support the theory. The author also presents practice exercises that help demonstrate the different techniques. For people looking to progress beyond indoor practice shooting, there is an explanation of types of competition, how to enter events, as well as introduction to competing outdoors and learning how to anticipate the effect of the wind

on a shot. Whilst other shooting books may focus on the detailed skills used by those who compete at an international level, this book offers guidance for those at the beginner to intermediate levels. Foreword by Nick Clark. Essential reading for all newcomers to the sport and offers guidance for novice up to intermediate levels. Other shooting books focus on detailed skills used by those who compete at international level. Key topics covered including breathing, aiming, trigger control and 'follow through' and step-by-step guidance to achieving a comfortable and stable prone position. Superbly illustrated with 129 colour photographs, some of these are pictures taken through the sights to show exactly what is being described. Christopher Fenning has been shooting for over fifteen years and is a qualified club instructor.

When the sky grows dark and the moon glows bright, everyone goes to sleep . . . except for the watchful owl! With a spare, soothing text and beautifully rich and textured illustrations of a starry night, this is the perfect "book of sleep." Join the owl on his moonlit journey as he watches all the other animals settle in for the night: some sleep standing

up, while some sleep on the move! Some sleep peacefully alone, while others sleep all together, huddled close. Il Sung Na makes his American debut with this gorgeous bedtime offering. While each animal rests in its own special way, little ones will also drift off to a cozy sleep.

*A Moment in Time* Gramercy

A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of *The Rising Sun and Infamy*. Pulitzer Prize-winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book. Toland pored over military archives and was the first person

---

to gain access to previously undisclosed Chinese records, which allowed him to investigate Chairman Mao's direct involvement in the conflict. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs, bringing those who fought to vivid life and honoring the memory of those lost. In *Mortal Combat* is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. Toland tells the dramatic account of the Korean War from start to finish, from the

appalling experience of its POWs to Mao's prediction of MacArthur's Inchon invasion. Toland's account of the "forgotten war" is a must-read for any history aficionado. *Cooking Step by Step Arms & Armour*

photographs of common surgical instruments, Surgical Instrumentation: An Interactive Approach, 2nd Edition makes it easier to learn the identification, purpose, and set up of instruments for surgical procedures. Many photos include close-up views of the instrument tip, so you can quickly discern differences between instruments. Interactive resources on Evolve let you rotate key instruments 360 degrees for viewing from any angle, zoom in to examine the tip or zoom out to reveal the entire instrument, and also include flash cards, timed memory exercises, Mayo stand set up quizzes, and animations of large and small fragmentation sets. Written for surgical technologists by surgical technology educator Renee Nemitz, this resource offers a level of visual clarity and realism unmatched by any other surgical instrument book! More than 600 full-color, high-quality photographs help you learn the most common surgical instruments for all surgical procedures. Consistent instrument monographs include the name, common name, category, use (type of surgery and where on the body), cautions relating to safety or patient care, and

---

other details such as regional name variations. Student resources on the Evolve companion website include all of the images from the text, additional 360-degree views and close-ups of over 100 instruments, animations of large and small fragment sets, and timed recall exercises for practice in learning instruments. Close-up photos of more than 100 instruments show the details of each tip, demonstrating variations and making it easier to identify each surgical instrument. Presentation of two or fewer illustrations per page makes it

easier to see the details of each instrument. Enhanced flash cards and quizzes on the Evolve companion website allow you to review instruments by chapter or to randomize your review with instruments from the entire text. Alternative names are added to the book's index for easier lookup of instruments whose names have regional variations. Enhanced quizzes on Evolve are available as Practice or Test options, and results may be printed out for submission to instructors.

Twelve Years a Slave Elsevier Health Sciences

This is one of the most significant military books of the

---

twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast.

This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris. *The Measure of Madness*: Prabhat Prakashan

of 2013 Ben Hatch is on the road again. Commissioned to write a guidebook about France (despite not speaking any French) he sets off with visions of relaxing chateaux and refined dining. Ten thousand miles later his family's been attacked by a donkey, had a run-in with a death-cult and, after a near drowning and a calamitous wedding experience involving a British spy, his own marriage is in jeopardy. A combination of obsessions about mosquitoes, French gravel and vegetable theme parks mean it's a bumpy ride as Ben takes a stand against tyrannical French pool attendants, finds himself running with the bulls in Pamplona and almost starring in a snuff movie after a near fatal decision to climb into a millionaire's Chevrolet Blazer. Funny and poignant, Road to Rouen asks important questions about life, marriage and whether it's ever acceptable to tape baguette to your children's legs to smuggle lunch into Disneyland Paris.
