What is Applied Behavior Analysis? What will happen when an ABA therapist comes into my home? Most importantly, how can ABA help my child? This quick guide answers all of the common questions that parents have when beginning an in-home ABA program. ABA is an effective intervention for children with autism and other developmental disorders, but all of the data collection, reinforcement, and strange lingo can be confusing for parents who are not familiar

---

with ABA therapy. Concise and practical, this handbook explains the ins and outs of Applied Behavior Analysis in a chatty question and answer format addressing everything parents need to know from what a typical session will entail, to how to navigate their relationship with their therapist, to how to get more involved and begin using ABA methods themselves. This book is an ideal introduction for parents to help them understand and get the most out of their child's ABA treatment. It will also be a useful resource for newly-qualified ABA therapists and for ABA agencies to use with clients.

You have probably always wanted to know what your loved one with Autism was thinking and why they do what they do. If you are like most of our clients, you probably have already tried getting help from a behavior therapist, speech therapist, occupational therapist, and so many more professionals. They have been able to offer some help, but your child still feels like a mystery. No matter how good a professional is, they can't get inside of your child's head. The only person who can tell you what it's really like to be Autistic is someone living with Autism. That's how we can help. This is Autism compiles stories of eleven Autistic adults who share what Autism means to them and how it has impacted their lives. Parents just like you who have heard the stories of our contributors through our panel Ask

Everyone on the panel is so willing to offer candid advice, kind words and a listening ear, which is oftentimes hard to find. Jessica does a great job moderating and provides insightful feedback and examples of things she has experienced from a professional perspective as well. I have gleaned so much valuable information from this opportunity and will continue to join in weekly!" Leeza Woodbury  
Amazing opportunity for parents and professionals combined. I am a parent and professional. It was nice to gain insight and have my questions answered by those who know the most in the field, the Autistic community themselves.
