Jack Jensen is a middle-aged nobody who lives a lackluster life in an even more uninteresting town. Having sampled every job the small town of Merrill, Wisconsin has to offer, he has excelled at nothing but growing his beer gut and his luxurious curly blonde hair. His life is one of unrealized potential and lack of direction. Things change one morning when his brother, an Army Major, lands his helicopter in the parking lot of Jack's less-than-profitable gaming store in a desperate bid to thrust the perennial slacker into the role of saving the country, the world, and even more unlikely, himself. *Heroes of Last Resort* is a LitRPG series that features leveling, detailed character systems, epic world saving quests, and much more. It's perfect for fans of books like *The Land*, *Noobtown*, and *Life Reset*. Find out more about the book and the authors at flamingfistpublishing.com.

Stolen Figs Del Rey

"Mommy" your little one whispers. "What's wrong with that kid over there?" This book provides a warm and wonderful tool for parents and teachers to use when talking to children about those who are different from themselves due to disabilities. Children and adults alike will see "different doesn't mean less than!". Through its pages you are welcomed into Noahland, a very real place where meals are received through a tube in the tummy, and homework consists of an almost daily line up of physical therapy, speech therapy, occupational therapy? . Yet pull back the curtain on what at first glance is just a boy with significant challenges and you'll discover a thoroughly likeable kid who enjoys playing with friends, painting, and doing the same things typical kids do, but in a different way. Written in rhyme, and letting the obvious speak for itself, the vibrant illustrations bring to life the everyday nuances between typical and differently-abled daily living in an engaging and enjoyable way. "This is phenomenal and amazing. Just WOW! As an educator and administrator (principal) for 30 years this book meets so many educational standards (literature with the rhyme, science with the scenery, identification of primary colors, etc.) in a fun and creative way. This book is rich with possibilities and only limited by your imagination in how this can be used to teach kids in a traditional setting using authentic literature." Louella Simmons, Ed.D., M.Div., BCC It is my hope that the reading of this book will result in casual as

well as in-depth discussions about this topic. I hope it will alleviate the awkwardness and discomfort many children (and adults) feel when in the presence of a person with disabilities. I hope that parents and others with special needs kids in their lives will be encouraged as they see Noah and his mom focus less on the limitations of what they cannot do and more on the endless possibilities of what they CAN DO. And that can make a world of difference.

Miles On the Mountain: Skiing At Sixty-four and Other Adventures

North Point Press

An effortlessly artful blend of travel book, memoir, and affectionate portrait of a people Calabria is the toe of the boot that is Italy—a rugged peninsula where grapevines and fig and olive trees cling to the mountainsides during the scorching summers while the sea crashes against the cliffs on both coasts. Calabria is also a seedbed of Italian American culture; in North America, more people of Italian heritage trace their roots to Calabria than to almost any other region in Italy. Mark Rotella's *Stolen Figs* is a marvelous evocation of Calabria and Calabrians, whose way of life is largely untouched by the commerce that has made Tuscany and Umbria into international tourist redoubts. A grandson of Calabrian immigrants, Rotella persuades his father to visit the region for the first time in thirty years; once there, he meets Giuseppe, a postcard photographer who becomes his guide to all things Calabrian. As they travel around the region, Giuseppe initiates Rotella—and the reader—into its secrets: how to make *soppressata* and *'nduja*, where to find hidden chapels and grottoes, and, of course, how to steal a fig without actually committing a crime. *Stolen Figs* is a model travelogue—at once charming and wise, and full of the earthy and unpretentious sense of life that, now as ever, characterizes Calabria and its people.

Shuttling between cultural comedies and political tragedies, Lawrence Weschler's articles have throughout his long career intrigued readers with his unique insight into everything he examines, from

the ordinary to the extraordinary. *Uncanny Valley* continues the page-turning conversation as Weschler collects the best of his narrative nonfiction from the past fifteen years. The title piece surveys the hapless efforts of digital animators to fashion a credible human face, the endlessly elusive gold standard of the profession. Other highlights include profiles of novelist Mark Salzman, as he wrestles with a hilariously harrowing bout of writer's block; the legendary film and sound editor Walter Murch, as he is forced to revisit his work on *Apocalypse Now* in the context of the more recent Iraqi war film *Jarhead*; and the artist Vincent Desiderio, as he labors over an epic canvas portraying no less than a dozen sleeping figures. With his signature style and endless ability to wonder, Weschler proves yet again that the "world is strange, beautiful, and connected" (*The Globe and Mail*). *Uncanny Valley* demonstrates his matchless ability to analyze the marvels he finds in places and people and offers us a new, sublime way of seeing the world.

From a poet who teaches us the beauty and magic of the natural world comes a reminder that this world includes "the creatures, with their / thick fur, their shy and wordless gaze. Their / infallible sense of what their lives / are meant to be." In *The Truro Bear and Other Adventures*, Mary Oliver brings together ten new poems, thirty-five of her classic poems, and two essays, all about mammals, insects, and reptiles. The award-winning poet considers beasts of all kinds: bears, snakes, spiders, porcupines, humpback whales, hermit crabs, and, of course, her beloved and disobedient little dog, Percy, who appears and even speaks in thirteen poems, the closing section of this volume. As Renée Loth has observed in the *Boston Globe*, "Mary Oliver, who won the Pulitzer Prize in poetry in 1983, is my choice for her joyous, accessible, intimate observations of the natural world . . . She teaches us the profound act of paying attention." Tell me, what is it you plan to do with your one wild and precious life? —Mary Oliver, "The Summer Day" (one of the poems in this volume)

Based on his more than 40 years of field research, Means, an expert on the eastern diamondback rattlesnake, reveals the biological complexity and beauty of the animals he has studied. In Australia, Means searches for the fierce, reputed to be the world's deadliest terrestrial snake. In Mexico, he stalks the rattlesnake that might have served as the model for the mythical plumed serpent of Mayan art. In Florida, he is chased by cottonmouth moccasins. Through his experiences, Means hopes that readers will gain a new appreciation for animals called herps, or creepy-crawly things.

Robert E. Howard is famous for creating such immortal heroes as Conan the Cimmerian,

Solomon Kane, and Bran Mak Morn. Less well-known but equally extraordinary are his non-fantasy adventure stories set in the Middle East and featuring such two-fisted heroes as Francis Xavier Gordon—known as "El Borak"—Kirby O'Donnell, and Steve Clarney. This trio of hard-fighting Americans, civilized men with more than a touch of the primordial in their veins, marked a new direction for Howard's writing, and new territory for his genius to conquer. The wily Texan El Borak, a hardened fighter who stalks the sandscapes of Afghanistan like a vengeful wolf, is rivaled among Howard's creations only by Conan himself. In such classic tales as "The Daughter of Erlik Khan," "Three-Bladed Doom," and "Sons of the Hawk," Howard proves himself once again a master of action, and with plenty of eerie atmosphere his plotting becomes tighter and twistier than ever, resulting in stories worthy of comparison to Jack London and Rudyard Kipling. Every fan of Robert E. Howard and aficionados of great adventure writing will want to own this collection of the best of Howard's desert tales, lavishly illustrated by award-winning artists Tim Bradstreet and Jim & Ruth Keegan.

[The Adventures of a Brownie, as Told to My Child](#) JHU Press

Rob was an ordinary college sophomore when a pitch-back portal opened up on campus and tried to kidnap his best friend. An act of heroism resulted in him being taken instead, and he was rewarded for his efforts by being transported to another world with nothing but a sword and the clothes on his back. On the first day, he almost died. On the second day, he almost died. On the third, he began to notice a worrying trend. And almost died. Whether he encounters wolves, cliffs, dungeons, monsters, or diseases, every day is a struggle to survive. The one advantage he has is his newfound ability to gain Levels and Stats, making himself stronger in order to survive the hostile lands that he was unceremoniously dumped into. He'll have to gain knowledge of the innerworkings of the world and its magic - progressing both his strength and his knowledge - in order to stay alive long enough to get revenge on whoever kidnapped him away from everything he knew and loved. Overcoming the wilds is just the first step in his journey; the locals aren't fond of humans, and discovering the dark past behind this new world's history of war and strife changes everything. As far as isekai adventures go, Rob drew the short straw in many ways, but it'll take more than danger at every corner to keep him down. He'll carve out a place in this world with his bare hands if necessary. He'll survive, and then he'll thrive. Whether anyone wants him to or not. -- *An Outcast On Another World* puts a great focus on story and characterization, making it perfect for fans of traditional fantasy stories, while still including plenty of skills, stats, classes, and progression for LitRPG-lovers to enjoy. The LitRPG elements are incorporated into the main story to construct a cohesive world that's easy to immerse yourself in. Rob's progression is weak to strong, and victories aren't handed to him on a silver platter. No matter how powerful he gets, mid-combat ingenuity is essential to achieving victory. *An Outcast In Another World* has dark elements to its narrative, but I've included appropriate humor as a balance, and many readers have told me that some parts made them burst out laughing while other parts tugged at their heartstrings. I truly believe that I've constructed a memorable fantasy RPG story that all types can love, and that you'll enjoy reading it as much as I enjoyed writing it.

"What Do You Care What Other People Think?": Further Adventures of a Curious Character

Rowman & Littlefield

The remarkable story of the heroic effort to save and preserve Afghanistan's wildlife—and a culture that derives immense pride and a sense of national identity from its natural landscape. Postwar Afghanistan is fragile, volatile, and perilous. It is also a place of extraordinary beauty. Evolutionary biologist Alex Dehgan arrived in the country in 2006 to build the Wildlife Conservation Society's Afghanistan Program, and preserve and protect Afghanistan's unique and extraordinary environment, which had been decimated after decades of war. Conservation, it turned out, provided a common bond between Alex's team and the people of Afghanistan.

His international team worked unarmed in some of the most dangerous places in the country- places so remote that winding roads would abruptly disappear, and travel was on foot, yak, or mule. In The Snow Leopard Project, Dehgan takes readers along with him on his adventure as his team helps create the country's first national park, completes the some of the first extensive wildlife surveys in thirty years, and works to stop the poaching of the country's iconic endangered animals, including the elusive snow leopard. In doing so, they help restore a part of Afghan identity that is ineffably tied to the land itself.

This book is not about heroes like military pilots who risk their lives protecting our country, or commercial pilots who wing their way across the world transporting us from one place to the other or general pilots who daily perform tasks that can only be done from the air. We owe all of these pilots a great respect and gratitude for the job that they do. Most of the books written are about them. This book is about the private pilot who is the average man or woman who does not intend to risk their lives flying an airplane. This book is about those people who simply want to take to the air for the joy of being airborne and for the intellectual challenge of keeping up with the birds. If I thought for a moment that flying was not safe, I would not step into an airplane. For years I felt that flying was for the foolhardy until by chance I discovered that flying is safer than driving a car if you learn how to fly and follow the rules. This book attempts to describe the transition from becoming a land person to becoming an air person and the pleasures experienced on the way. John O. Lewis My first adventure with John as an airplane pilot gave me the surprise of my life. After vehemently refusing to go flying with him, I agreed once and for all to join him in the cockpit for a brief tour around Chicago. Once airborne my imagined fears were replaced by sheer joy of seeing the sights and realizing the wonders both above and below. This initial flight was the beginning of adventures of our lifetime. Never again was any coaxing on his part needed for me to join him on flights. Edna M. Lewis

Children are unique and special in their own ways. This story celebrates our differences and new friendships. Tina is a young girl who is not like the other girls - she doesn't like to wear the clothes her Mommy puts her in. And Jordan is not like the other boys - because inside he feels like a girl. The two meet on a playground when Tina comes to Jordan's rescue from two bullies calling him names. Through this story we begin to realize through the characters how important unconditional love and acceptance is; establishing that it's okay to be just as you are, as you are now, and that it's okay to be different. Based on the real-life experiences of children who have felt or feel the same, this is the amazing tale of two new friends, Tina & Jordan, as they start new adventures together.

Ten percent of the population is affected by a learning disability, but few of us understand what being learning disabled (LD) is really like. When he was fourteen, Bradlee was diagnosed with Velo-Cardio-Facial-Syndrome (VCFS), a wide-spread, little-understood disorder that is

expressed through a wide range of physical ailments and learning disabilities. In this funny, moving, and often irreverent book, Bradlee tells his own inspirational story of growing up as an LD kid -- and of doing so as the child of larger-than-life, formidably accomplished parents: long-time Washington Post executive editor Ben Bradlee and bestselling author Sally Quinn. From his difficulties reading social cues, to his cringe-worthy loss of sexual innocence, Bradlee describes the challenges and joys of living "a different life" with disarming candor and humor. By the end of A Different Life he will have become, if not your best friend, one of your favorite people.

Imagine yourself staying in a luxurious penthouse suite with a panoramic view of Bangkok. Picture yourself sipping a glass of the finest champagne while dining on the 65th floor of the world class hotel while indulging on some of the most elegant dishes in the world at a two-Michelin star restaurant. Then, imagine the next morning, shoving your designer suit into a backpack, hiring a motorized rickshaw, and having them deliver you to your new home; a cramped, dorm room filled to the brim with strangers that are young enough to be your offspring. For lunch, you are enjoying a fried scorpion that you purchased from a food stand on the side of the road. This is exactly what Ryan Jacobson did for an entire year when he took a year off of his job as a middle school English and Geography teacher to pursue his passion for world travel. In the months prior to the start of the COVID-19 pandemic, Ryan decided to get the full experience of each destination he ventured by spending four days on a very stringent backpackers budget, staying at hostels, eating scorpions, crickets, or other street food, and spending relatively no money on entertainment or activities. The next four days he would travel on a moderate budget, staying at appropriately-priced hotels, eating at moderately-priced restaurants, and having an allotted budget for entertainment and activities. And the final four days in each country, he would spend on an all-out luxury budget; indulging on the best of what each destination had to offer. All to answer the question of who truly has the more fun, authentic experience when it comes to travel? Is it the backpacker crew that isn't afraid to get down and dirty with the locals or mingle with strangers that don't speak their language? Or is it the luxury travelers that spare no expense to get the full experience of what it means to travel like a rock star? Perhaps the moderate budget traveler has the best of both worlds and truly gets the most out of international travel? Regardless of the budget Ryan was traveling on, his adventures take him through unique journeys that will elicit both humor and horror, many of which at the same time. With Ryan's uncanny ability to find himself in peculiar situations, The Adventures of Mr. Brightside will concurrently leave you with a sense of immense wanderlust, as well as a substantial appreciation for reading this book from the comfort and safety of your own home.

Imagination can lead to a gateway of imaginary worlds of adventure and fantasy especially for Little Eli. Little Eli is a wonderful highly-spirited spiritual little boy who was born with a physical condition, cerebral palsy, that has restricted him to a lifetime in a wheelchair. He does not have the ability to go out and make friends and play with the other little kids in the neighborhood or do any of the other things that kids his age would normally do, although he does not let this sway his faith or stop him from enjoying his life to the fullest. He is a very positive, fun-loving and energetic little boy who has figured

out a way to create his own fun and entertain himself by escaping off into his own imaginary worlds filled with fantasy and adventures. With each adventure Little Eli will go on amazing journeys to different places far from his home. During his different adventures, he will spend the entire day traveling around meeting new friends who will often help guide him along a sacred path back to a spiritual gateway, which he must use after each journey to return home in time for dinner because he does not want his parents to worry. Having love and faith can be wonderful, and Little Eli is a courageous and inspirational little boy who has a tremendous amount of both.
