Selected by The New York Times Book Review as a Notable Book of the Year A revelatory tale of science, adventure, and modern myth. When the writer Donovan Hohn heard of the mysterious loss of thousands of bath toys at sea, he figured he would interview a few oceanographers, talk to a few beachcombers, and read up on Arctic science and geography. But questions can be like ocean currents: wade in too far, and they carry you away. Hohn's accidental odyssey pulls him into the secretive world of shipping conglomerates, the daring work of Arctic researchers, the lunatic risks of maverick sailors, and the shadowy world of Chinese toy factories. Moby-Duck is a journey into the heart of the sea and an adventure through science, myth, the global economy, and some of the worst weather imaginable. With each new discovery,

Hohn learns of another loose thread, and with each successive chase, he comes closer to understanding where his castaway quarry comes from and where it goes. In the grand tradition of Tony Horwitz and David Quammen, Moby-Duck is a compulsively readable narrative of whimsy and curiosity.

From Sonoma wine country in the north to sundrenched La Jolla in the south, and from Malibu's seaside enclaves to Palm

Springs nestled in the desert, California's distinctive regions are home to many of the world's most stunning swimming pools. Since the ancient times, when manmade baths enhanced the gardens of Egyptian nobles, pools have been built as the ultimate symbols of luxury and leisure, providing a means of capturing one of nature's most elusive elements. Soon after the pool arrived in America in the nineteenth century, California became a mecca for pool owners, where many advances in pool design have been made over the last century. *Reflections on the Pool* presents 40 perfect pools in 100 brilliant color photographs. These include the vibrant, Mexican-style architectural design of Ricardo Legorreta and the avant-garde, sensational creations of John Lautner, and illustrate the theories of the renowned landscape designers Thomas

Church and Isabelle Greene. Each section of the book features a type of pool, or an element of pool design. Pools imitating nature, lap pools, architectural or highly ornamented pools are discussed in detail, as well as historic pools such as Hearst's Neptune Pool at San Simeon or Thomas Church's vanguard kidney-bean-shaped design of 1948, and other early California examples that set precedents for the pools of today. The introduction outlines technical aspects of design, and gives a brief history of the pool, including the influence of Hollywood on its popularity. Whether you own a pool or wish for one, and wherever you live, Reflections on the Pool is a color-infused, fresh, and inspirational display of the boundless possibilities in pool design.

Recently appointed as the new U. S. Poet Laureate, Ted Kooser has been writing and publishing poetry for more than forty years. In the pages of The Poetry Home Repair Manual, Kooser brings those decades of experience to bear. Here are tools and insights, the instructions (and warnings against instructions) that poets— aspiring or practicing— can use to hone their craft, perhaps into art. Using examples from his own rich literary oeuvre and from the work of a number of successful contemporary poets, the author schools us in the critical relationship between poet and reader, which is fundamental to what Kooser believes

Much more than a guidebook to writing and revising poems, this manual has all the comforts and merits of a long and enlightening conversation with a wise and patient old friend—a friend who is willing to share everything he ' s learned about the art he ' s spent a lifetime learning to execute so well.
