Bean is the name used for the seeds of several plants. Most of these plants are known as legumes. Their scientific name is Fabaceae.

Common beans, lentils, soybeans, Kidney beans, peas. Beans contain a lot of fibre. They are also high in protein. Vetches and lupins are all in that group of plants but not all legumes are edible.

What You Do: Give one of each bean to your child to observe, explaining that each bean has a little opening for water to go inside. Have your little scientist lay a few stacked damp paper towels onto the baking sheet, and put the beans on top. Put a few more stacked damp paper towels on top of the beans.
