A Widow's Hope shares a unique story as a young widow with children who shares the raw, relatable ways she dug her way out of the trenches and back to the land of the living. There are many books about widowhood and grief. While helpful when the time is right, the shock and the aftermath of such a traumatic experience can make it difficult to find the time and motivation to read

them while surviving the daily obstacles that zap your energy. Right now, the widow is too busy surviving funeral planning, endless calls and texts from family, tireless efforts to obtain the death certificate, meetings with social security, arrangements to be ironed-out with banks, mortgagors, and debts. Not to mention the practical things, like ensuring the children have been fed, arranging who will take them to school while you deal with the horrible details such as picking out his casket, or helping your

children with things only you can help with? And then it hits her, "How will I even tell them that their father is dead? They don't even know what 'dead' means!" Just thinking of the unending list of things to be done can leave the widow feeling smothered and breathless. Now is not the time for a novel; now is the time for a survival book, because right now, that's what the widow is doing—surviving. *The Book of Rural Life* HarperCollins Love is in the air! During a modern age that saw
the expansion of its democracy,
the fading of its empire, and two
world wars, Britain's hereditary

aristocracy was pushed from the
centre to the margins of the
nation's affairs. Widely remarked
on by commentators at the time,
this radical redrawing of the
social and political map
provoked a newly intensified
fascination with the aristocracy
among modern writers. Undone
by history, the British aristocracy
and its Anglo-Irish cousins were
remade by literary modernism.
Modernism and the Aristocracy:
Monsters of English Privilege is
about the results of that
remaking. The book traces the
literary consequences of the
modernist preoccupation with
aristocracy in the works of

Elizabeth Bowen, Ford Madox
Ford, Aldous Huxley, D.H.
Lawrence, Evelyn Waugh,
Rebecca West, and others
writing in Britain and Ireland in
the first half of the twentieth
century. Combining an historical
focus on the decades between the
two world wars with close
attention to the verbal textures
and formal structures of literary
texts, Adam Parkes asks: What
did the decline of the British
aristocracy do for modernist
writers? What imaginative and
creative opportunities did the
historical fate of the aristocracy
precipitate in writers of the new
democratic age? Exploring a

range of feelings, affects, and attitudes that modernist authors associated with the aristocracy in the interwar period--from stupidity, boredom, and nostalgia to sophistication, cruelty, and kindness--the book also asks what impact this subject-matter has on the form and style of modernist texts, and why the results have appealed to readers then and now. In tackling such questions, Parkes argues for a reawakening of curiosity about connections between class, status, and literature in the modernist period.
