The One True Me and You Routledge
This innovative volume introduces
Twinley 's concept of ' The Dark Side of
Occupation ' . Focused on less explored
and under-addressed occupations, it is an
idea which challenges traditional
assumptions around the positive,
beneficial, health-promoting relationship
between occupation and health.
Emphasising that people ' s individual
experiences of occupations are not

always addressed and may not always be
legal, socially acceptable, or conducive to
good health, the book investigates how
these experiences can be explored
theoretically, in practice and research,
and in curriculum content for those
learning about occupation. Beginning with
a discussion of some assumptions and
misunderstandings that have been made
about the concept, the substantive
chapters present and analyse tangible
examples of the concept ' s applicability.
This ground-breaking and practice-
changing text provides ideas for future
research and highlights contemporary,
internationally relevant issues and
concerns, such as the coronavirus
pandemic. This book is an essential
purchase for students in occupational
therapy and science, and valuable

supplementary reading for practitioners. It
is also relevant to a wide interdisciplinary
audience with an interest in human
occupation, encompassing anthropologists,
councillors, criminologists, nurses, and
human geographers.

In today's New Gilded Age, the world's moneyed classes have taken conspicuous consumption to new extremes. In *Very Important People*, sociologist, author, and former fashion model Ashley Mears takes readers inside the exclusive global nightclub and party circuit—from New York City and the Hamptons to Miami and Saint-Tropez—to reveal the intricate economy of beauty, status, and money that lies behind these spectacular displays of wealth and leisure. Mears spent eighteen months in this world of "models and bottles" to write this captivating, sometimes funny, sometimes heartbreaking narrative. She describes how clubs and restaurants pay promoters to recruit beautiful young women to their venues in order to attract men and get them to spend huge sums in the ritual of

bottle service. These "girls" enhance the status of the men and enrich club owners, exchanging their bodily capital for as little as free drinks and a chance to party with men who are rich or aspire to be. Though they are priceless assets in the party circuit, these women are regarded as worthless as long-term relationship prospects, and their bodies are constantly assessed against men's money. A story of extreme gender inequality in a seductive world, *Very Important People* unveils troubling realities behind moneyed leisure in an age of record economic disparity. "Many parents work more hours outside of the home and their lives are crowded with more obligations than ever before; many children spend their evenings and weekends trying out for all-star teams, traveling to regional and national tournaments, and eating dinner in the car while being shuttled between activities. In this vivid ethnography, based on almost 200 interviews with parents, children, coaches and teachers, Hilary Levey probes the increase in children's participation in activities outside of the home, structured and monitored by their parents, when family time is so scarce. As the parental "second shift" continues to grow, alongside it a second shift for children has emerged--especially among the middle- and upper-middle classes--which is suffused with competition rather than mere participation. What

motivates these particular parents to get their children involved in competitive activities? Parents' primary concern is their children's access to high quality educational credentials--the biggest bottleneck standing in the way of, or facilitating entry into, membership in the upper-middle class. Competitive activities, like sports and the arts, are seen as the essential proving ground that will clear their children's paths to the Ivy League or other similar institutions by helping them to develop a competitive habitus. This belief, motivated both by reality and by perception, and shaped by gender and class, affects how parents envision their children's futures; it also shapes the structure of children's daily lives, what the children themselves think about their lives, and the competitive landscapes of the activities themselves"--

" [Shindler] tells the story of her year wearing the crown while offering an incisive history and analysis of an always-controversial beauty contest. " —Kirkus Reviews In *Being Miss America*, Kate Shindle interweaves an engrossing, witty memoir of her year as Miss America 1998 with a fascinating history of the

pageant. She explores what it means to take on the mantle of America's "ideal," especially considering the evolution of the American female identity since the pageant's inception. Shindle profiles winners and organization leaders and recounts important moments in the pageant's story, with a special focus on Miss America's iconoclasts, including Bess Myerson (1945), the only Jewish Miss America; Yolande Betbeze (1951), who crusaded against the pageant's pinup image; and Kaye Lani Rae Rafko (1987), a working-class woman from Michigan who wanted to merge her famous title with her work as an oncology nurse. Shindle's own account of her work as an AIDS activist—and finding ways to circumvent the "gown and crown" stereotypes of Miss America in order to talk honestly with high school students about safer sex—illuminates both the challenges and the opportunities that keep young women competing to become Miss America. "Kate Shindle's sharply observed, smart, and heartbreaking take on Miss America will be embraced by pageant super fans and should be required reading for everyone who's thought about what it takes to be America's ideal." —Jennifer Weiner, New York Times bestselling author "This memoir offers a captivating cultural history of the last 100 years in America through the lens of the Miss America Pageant and its white-knuckled struggle

Applying the art and science of self-compassion to day-to-day therapy work. This lucidly written guide integrates traditional Buddhist teachings and mindfulness with cutting-edge science from several distinct fields—including neurobiology, cognitive neuroscience, psychotherapy outcome research, and positive psychology—to explain how clinicians can help clients develop a more loving, kind, and

forgiving attitude through self-compassion. The practice of self-compassion supports effective therapy in two vital ways: (1) It helps clients become a source of compassion for themselves; and (2) it helps therapists be happier and generate more compassion for their clients. Researchers now understand that self-compassion is a skill that can be strengthened through deliberate practice, and that it is one of the strongest predictors of mental health and wellness. The brain's compassion center, which neuroscientists call the Care Circuit, can be targeted and fortified using specific techniques. Filled with illuminating case examples, *Self-Compassion in Psychotherapy* shows readers how to apply self-compassion practices in treatment. The first two chapters illuminate what self-compassion is, the science behind it, and why it is so beneficial in therapy. The rest of the book unpacks practical clinical applications, covering not only basic clinical principles but also specific, evidence-based techniques for building affect tolerance, affect regulation, and mindful thinking, working with self-criticism, self-sabotage, trauma, addiction, relationship problems, psychosis, and more, and overcoming common roadblocks. Readers do not need to have any background in mindfulness in order to benefit from this book. However, those that do will find that self-compassion practices have the capacity to add new layers of depth to mindfulness-based therapies such as Dialectical Behavior Therapy (DBT), Acceptance and Commitment Therapy (ACT), Mindfulness-Based Stress Reduction (MBSR), and Mindfulness-Based Cognitive Therapy (MBCT).

Commodity Activism Univ of California Press teases out the relationships between material cultures and political subjectivities, arguing that activism may itself be transforming into a branded commodity.

Buying (RED) products—from Gap T-shirts to Apple—to fight AIDS. Drinking a “Caring Cup” of coffee at the Coffee Bean & Tea Leaf to support fair trade. Driving a Toyota Prius to fight global warming. All these commonplace activities point to a central feature of contemporary culture: the most common way we participate in social activism is by buying something. Roopali Mukherjee and Sarah Banet-Weiser have gathered an exemplary group of scholars to explore this new landscape through a series of case studies of “commodity activism.” Drawing from television, film, consumer activist campaigns, and cultures of celebrity and corporate patronage, the essays take up examples such as the Dove “Real Beauty” campaign, sex positive retail activism, ABC’s *Extreme Home Makeover*, and Angelina Jolie as multinational celebrity missionary. Exploring the complexities embedded in contemporary political activism, *Commodity Activism* reveals the workings of power and resistance as well as citizenship and subjectivity in the neoliberal era. Refusing to simply position politics in opposition to consumerism, this collection

Univ of California Press teases out the relationships between material cultures and political subjectivities, arguing that activism may itself be transforming into a branded commodity.

Modern beauty contests were invented by P.T. Barnum in the United States, but in the 20th century pageants and contests have spread across the entire world from Nepal to Tierra Del Fuego. Why are women (and sometimes men in drag) parading on stage such a universally appealing spectacle, attracting an audience in the billions? This book is the first global comparison of pageants from different parts of the world, at the ways each contest is both intensely local and unique, and simultaneously global and remarkable repetitive. The authors use the latest tools of feminist, ethnographic, and literary scholarship to unpack and interpret one of the greatest and most universal spectacles of modern times.

Self-Compassion in Psychotherapy: Mindfulness-Based Practices for Healing and Transformation University of Texas Press

“Black is Beautiful!” The words were the exuberant rallying cry of a generation of black women who threw away their straightening combs and adopted a proud new style they

called the Afro. The Afro, as worn most famously by Angela Davis, became a veritable icon of the Sixties. Although the new beauty standards seemed to arise overnight, they actually had deep roots within black communities. Tracing her story to 1891, when a black newspaper launched a contest to find the most beautiful woman of the race, Maxine Leeds Craig documents how black women have negotiated the intersection of race, class, politics, and personal appearance in their lives. Craig takes the reader from beauty parlors in the 1940s to late night political meetings in the 1960s to demonstrate the powerful influence of social movements on the experience of daily life. With sources ranging from oral histories of Civil Rights and Black Power Movement activists and men and women who stood on the sidelines to black popular magazines and the black movement press, *Ain't I a Beauty Queen?* will fascinate those interested in beauty culture, gender, class, and the dynamics of race and social movements.

A fresh exploration of American feminist history told through the lens of the beauty pageant world. Many predicted that pageants would

disappear by the 21st century. Yet they are thriving. America's most enduring contest, Miss America, celebrates its 100th anniversary in 2020. Why do they persist? In *Here She Is*, Hilary Levey Friedman reveals the surprising ways pageants have been an empowering feminist tradition. She traces the role of pageants in many of the feminist movement's signature achievements, including bringing women into the public sphere, helping them become leaders in business and politics, providing increased educational opportunities, and giving them a voice in the age of #MeToo. Using her unique perspective as a NOW state president, daughter to Miss America 1970, sometimes pageant judge, and scholar, Friedman explores how pageants became so deeply embedded in American life from their origins as a P.T. Barnum spectacle at the birth of the suffrage movement, through Miss Universe's bathing beauties to the talent- and achievement-based competitions of today. She looks at how pageantry has morphed into culture everywhere from *The Bachelor* and *RuPaul's Drag Race* to cheer and specialized contests like those for children, Indigenous women, and contestants with disabilities. Friedman also acknowledges the damaging and unrealistic expectations pageants place on women in society and discusses the controversies, including Miss America's ableist and racist history, Trump's

ownership of the Miss Universe Organization, and the death of child pageant-winner JonBenét Ramsey. Presenting a more complex narrative than what's been previously portrayed, *Here She Is* shows that as American women continue to evolve, so too will beauty pageants.
