High Interest Books: Survivor NEW YORK TIMES BESTSELLER The definitive account of one of the most accomplished, controversial, and polarizing figures in American history Bill Clinton is the most arresting leader of his generation. He transformed American politics, and his eight years as president spawned arguments that continue to resonate. For all that has been written about this singular personality – including Clinton ' s own

massive autobiography – there has been no comprehensive, nonpartisan overview of the Clinton presidency. Few writers are as qualified and equipped to tackle this vast subject as the award-winning veteran Washington Post correspondent John F. Harris, who covered Clinton for six of his eight years in office – as long as any reporter for a major newspaper. In The Survivor, Harris frames the historical debate about President William Jefferson Clinton, by revealing the inner workings of the

Clinton White House and providing the first objective analysis of Clinton ' s leadership and its consequences. Harris shows Clinton entering the Oval Office in 1993 primed to make history. But with the Cold War recently concluded and the country coming off a nearly uninterrupted generation of Republican presidents, the new president ' s entry into this maelstrom of events was tumultuous. His troubles were exacerbated by the habits, personal contacts, and the

management style, he had developed in his years as governor of Arkansas. Clinton ' s enthusiasm and temper were legendary, and he and Hillary Rodham Clinton – whose ambitions and ordeals also fill these pages – arrived filled with mistrust about many of the characters who greeted them in the “ permanent Washington ” that often holds the reins in the nation ' s capital. Showing surprising doggedness and a deep-set desire to

govern from the middle, Clinton repeatedly rose to the challenges; eventually winning over (or running over) political adversaries on both sides of the aisle – sometimes facing as much skepticism from fellow Democrats as from his Republican foes. But as Harris shows in his accounts of political debacles such as the attempted overhaul of health care, Clinton ' s frustrations in the war against terrorism, and the numerous personal controversies that time and again

threatened to consume his presidency, Bill Clinton could never manage to outrun his tendency to favor conciliation over clarity, or his own destructive appetites. The Survivor is the best kind of history, a book filled with major revelations – the tense dynamic of the Clinton inner circle and Clinton’s professional symbiosis with Al Gore to the imprint of Clinton’s immense personality on domestic and foreign affairs – as

well as the minor details that leaven all great political narratives. This long-awaited synthesis of the dominant themes, events, and personalities of the Clinton years will stand as the authoritative and lasting work on the Clinton Presidency. **Beyond Charlottesville: Taking a Stand Against White Nationalism** Pan Macmillan This book examines the survivors of political violence and terrorism, considering both how they

have responded and how they have been responded to following critical incidents. As this work demonstrates, survivors of comparatively rare and spectacular violence hold a mirror up to society’s normative assumptions around trauma, recovery and resilience. Drawing on two years of observational field research with a British NGO who works with victims

and former perpetrators of PVT, this book explores contested notions of 'resilience' and what it might mean for those negotiating the aftermaths of violence. Examining knowledge about resilience from a multitude of sources, including security policy, media, academic literature and the survivors themselves,

this book contends that in order to make empirical sense of resilience we must reckon with both its discursive and practical manifestation s. An accessible and compelling read, this book will appeal to students and scholars of criminology, sociology, victimology, criminal justice and all those interested in the stories of survivors.

- A gripping tour de force in which three estranged brothers return to the Swedish lakeside cottage where, more than two decades before, an unspeakable accident forever altered their family and changed the course of their lives. "Takes you deep into an emotional labyrinth [where] you'll cry for these brothers. For the men they became, for the boys they were, for the innocence they lost. Brilliant, haunting and unforgettable."

—Fredrik Backman, author of *A Man Called Ove*. There is Nils, the oldest, who couldn't escape his suffocating home soon enough, and Pierre, the youngest, easily bullied and quick to lash out. And then there is Benjamin, always the family's nerve center, perpetually on the lookout for triggers and trap doors in a volatile home where the children were left to fend for themselves, competing for their father's favor and their mother's elusive love. But as the years have unfolded, Benjamin has grown

untethered from reality, frozen in place while life carries on around him. And among the brothers a dangerous current now vibrates. What really happened that summer day when everything was blown to pieces? In a thrillingly fast-paced narrative, *The Survivors* mixes the emotional acuity of Edward St. Aubyn, the literary verve of Ian McEwan, and the heart of Shuggie Bain. By brilliantly dissecting a mind unravelling in the wake of tragedy, Alex Schulman reveals the ways in which our deepest loyalties

leave us open to the greatest betrayals. Hiroshima
Independently Published
Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize – winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city,

through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima. Award winning host of Survivor, Jeff Probst, with Middle School: The Worst Years of My Life co-author, Chris Tebbets, comes a brand new family adventure series! A family vacation becomes a game of survival! It was supposed to be a vacation--and a chance to get to know each other better. But when a massive storm sets in without warning, four kids are shipwrecked alone on a rocky jungle island in the middle of the South Pacific. No adults. No instructions. Nobody to rely on but themselves. Can they make it home alive? A week ago, the biggest challenge Vanessa, Buzz, Carter, and Jane had was learning to live as a new blended family. Now the four siblings must find a way to work as a team if they're going to make it off the island. They're all in this adventure together--but first they've got to learn to survive one another. position they did not seek, and did not want--but events gave them no choice. The morning after the massacre, David Hogg told CNN: "We're children. You guys are the adults. You need to take some action and play a role. Work together. Get over your politics and get something done." This book is a manifesto for the movement begun that day, one that has already changed America--with voices of a new generation that are speaking truth to power, and are determined to succeed where their elders have failed. With moral force and clarity, a new generation has made it clear that problems previously deemed unsolvable due to powerful lobbies and political cowardice will be theirs to solve. Born just after Columbine and raised amid seemingly endless war and routine active shooter drills, this generation now says, Enough. This book is their statement of purpose, and the story of their lives. It is the essential guide to the #NeverAgain movement. We, the Survivors St. Martin's Press When most people think of child molesters they think of children lured into vans or victims of creepy old men lurking around school grounds. They don't think of Josh Duggar's sisters or Irish Catholic boys from rural Wisconsin

getting abused repeatedly by an older brother. They should. That is the reality. That is the untold story of untold millions. Empty Playground is a memoir that shares the journey from childhood sex abuse through the repercussions suffered and into recovery and healing. It is the story of a male survivor, an often overlooked segment of the survivor

community. It is a story often lived but not often told as men, both gay and straight, are so reluctant to speak about their abuse and often stay silent about their emotions as well. It has only been in the last decade or so that male survivors have been added to the discussion of sexual assault but the topic has more recently become recognized, particularly with the revelations of

several well-known survivors, among them basketball player Keyon Dooling, hockey player Theo Fleury, and actor Tyler Perry. They have all told their stories. There are countless other stories out there about ordinary people who have survived similar abuse, but most of them remain untold. Empty Playground is one such story, told with an unflinching

directness and gentle honesty. The Upstander Simon and Schuster The North Koreans launch a surprise Nuclear EMP attack on the USA. Joe Harp had a cabin and land in Southern Oregon when everything goes bad and retreats to the cabin to survive the massive die-off that was always predicted for an apocalypse. Now he has to learn how to survive in a Post-Apocalyptic world without military or survival training -- and to make

matters, worse others look to him for support and guidance. The Choice The New Press Presents a critical analysis of the differences between Christianity and Islam and maintains that Islam contains a political agenda which endorses violence and aggression against non-Muslims. Survivor Macmillan "From young activists at the forefront of the movement to end

sexual assault on college campuses, a collection of survivor stories that will connect with students and inform and inspire us all Across the U.S. student activists are exposing a pervasive cover-up of sexual assault on college campuses. Every day more survivors come forward. But other survivors choose not to. We Believe You elevates the stories the headlines about this issue have been missing--more than 30 experiences of trauma, healing and everyday activism, representing a diversity of races,

economic and family backgrounds, gender identities, immigration statuses, interests, capacities and loves. More than 1 in 5 women and 5 percent of men are sexually assaulted at college, a shocking status quo that might have stayed largely hidden and unaddressed but for the two authors of *We Believe You*. In 2013, Annie E. Clark and Andrea L. Pino, then 23 and 20, building on the work of earlier activists, outed themselves as assault survivors and filed a federal complaint against

the University of North Carolina (Chapel Hill) for mishandling such crimes; within a month, the U.S. government began to investigate UNC. Within a year, dozens of colleges were under federal investigation. But Clark and Pino rightly see themselves as two among many. Students from every kind of college and university--large and small, public and private, highly selective and less so--are sounding alarms and staking claims to justice by filing complaints, by pressing charges, and by simply living beyond the effects of assault

and the betrayals of their schools. A sampling of their voices speak out in this book"-- *Stranded St. Martin's Press They Must Be Stopped* is New York Times bestselling author Brigitte Gabriel's warning to the world: We can no longer ignore the growth of radical Islam--we must act soon, and powerfully. Gabriel challenges our western and politically-correct notions about Islam, demonstrating why radical Islam is so

deadly and how we can halt its progress. Brigitte Gabriel speaks her mind: *Fundamentalist Islam is a religion rooted in 7th century teachings that are fundamentally opposed to democracy and equality. *Radical Islamists are utterly contemptuous of all "infidels" (non-Muslims) and regard them as enemies worthy of death. *Madrassas in America are increasing in number, and they are just one part of a

growing radical Islamic army on US soil. *Radical Islam exploits the US legal system and America's protection of religion to spread its hatred for western values. *America must organize a unified voice that says "enough" to political correctness, and demands that government officials and elected representatives do whatever is necessary to protect us. Brigitte Gabriel has fearlessly

threats, and political correctness, and is one of the most sought after terrorism experts in the world. They Must Be Stopped is her clarion call to action. Gabriel thoroughly addresses the historical and religious basis of radical Islam, its frightening encroachment into societies around the world, and its abuses of democracy in the name of religion.
