A surprisingly simple way for students to master any subject--based on one of the world's most popular online courses and the bestselling book A Mind for Numbers A Mind for Numbers and its wildly popular online companion course

"Learning How to Learn" have empowered more than two million learners of all ages from around the world to master subjects that they once struggled with. Fans often wish they'd discovered these learning strategies earlier and ask how they can help their kids master these skills as well. Now in this

new book for kids and teens, the authors reveal how to make the most of time spent studying. We all have the tools to learn what might not seem to come naturally to us at first--the secret is to understand how the brain works so we can unlock its power. This book explains:

- Why sometimes letting your mind wander is an important part of the learning process
- How to avoid "rut think" in order to think outside the box
- Why having a poor memory can be a good thing
- The value of metaphors in developing understanding

A simple, yet powerful, way to stop procrastinating Filled with illustrations, application questions, and exercises, this book makes learning easy and fun.

Have you paused for a second to consider the power behind the great innovations we see around us these days: the internet, computers, aeroplanes, cell phone technology, drone photography, multimedia stuff, LED ads, etc.?

What do all these inventions have in common? Well, these are all products of the human mind. The creator of the universe endowed humans with an exceptional gift which, when well-harnessed, enables us to think and solve problems. How well we use this gift of the mind is the subject

matter of this book written by Mawuli Dzitse.

In relatively few pages, the author establishes the important role the mind plays in our lives. Any manipulation of the mind has a telling effect on who we are and what we become. The mind is like an independent variable; the state of the dependent variable revolves around it. So what happens when the mind is in a doubtful state? A doubtful mind does not necessarily have to result in negative developments. In fact, doubt generates creativity. When used in moderation, doubt can be a welcoming asset in the society. It is a mover for social change.

Nevertheless, doubt can be pathological if it is not managed properly. It is the prevention of

negative aspects of doubt that the author focuses in this book. The underlying tone of the book posits that every human being has the capacity to use their mind to produce outcomes that can improve the quality of life than the one they came to meet. Mawuli provides answers to questions aimed at enhancing individual outlook on life as well as strategies for making the mind clean, healthy and functional. In other words, how individuals should nurse and nurture their mind food, which he identifies as information and messages. He advises readers to avoid activities that can kill dreams. The book is spiced with biblical quotations to lubricate the mind and provide spiritual wisdom to the

reader. In addition, the author provides practical exercises in “ Self Post-Reading Discernment ” sections that allow the reader to have hands on training and the feel of what is being advocated.

Meetings on Atomic Energy Penguin
This volume offers 17 essays on the apocryphal/deuterocanonical books of Ben Sira (Ecclesiasticus) and

Tobit. Four essays explore Tobit's connections with Genesis (Irene Nowell), Job (Anathea Portier-Young), Psalms (Stephen Ryan), and the New Testament (Vincent Skemp), with a fifth considering the medieval Hebrew and Aramaic Tobit texts (Loren Stuckenbruck and Stuart Weeks). Five further essays examine Ben Sira's links with Genesis (Maurice Gilbert), Exodus (Friedrich Reiterer), Kings (Pancratius Beentjes), Prophets (Leo Perdue), and Proverbs (Jeremy Corley). Seven more essays on Ben Sira refer to the patriarch Joseph (Robert Hayward),

Ezra (Michael Duggan), fear of God (Renate Egger-Wenzel), Qoheleth (Edward Owens), First Enoch (Benjamin Wright), Letter of James (Núria Calduch-Benages), and Matthew's Gospel (James Aitken). *Weekly World News* Springer
