Women in many Westernized countries encounter a wider variety of career opportunities than afforded in previous decades, and the percentage of women leaders in nearly every sector is on the rise. Sport coaching, however,

remains a domain where gender equity has declined or stalled, despite increasing female sport participation. The percentage of women who coach women are in the minority in most sports, and there is a near absence of women coaching men. This important new book examines why. Drawing on original multi-disciplinary research from across the globe, including first-hand accounts from practicing coaches, the book illuminates and examines the status of women in coaching, explores the

complex issues they face in pursuing their careers, and suggests solutions for eliminating the barriers that impede women in coaching. Developing an innovative model of intersectionality and power constructs through which to guide research, the book covers issues including sexual identity, race, motherhood, cross-gender coaching and media coverage to give voice to women coaches from around the world. As such, *Women in Sports Coaching* is essential reading for serious students

and scholars of sports coaching, sport sociology or anyone with an interest in gender and sport.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting

A gripping and original account of how the Civil War began and a second American revolution unfolded, setting Abraham Lincoln on the path to greatness and millions of slaves on the road to freedom. An epic of courage and heroism beyond the battlefields, 1861 introduces us to a heretofore little-known cast of Civil War heroes—among them an acrobatic militia colonel, an explorer ' s wife, an idealistic band of German

immigrants, a regiment of New York City firemen, a community of Virginia slaves, and a young college professor who would one day become president. Their stories take us from the corridors of the White House to the slums of Manhattan, from the waters of the Chesapeake to the deserts of Nevada, from Boston Common to Alcatraz Island, vividly evoking the Union at its moment of ultimate crisis and decision. Hailed as “ exhilarating....Inspiring...Irresistible...” by The New York Times Book Review, Adam Goodheart ’ s bestseller 1861 is an important addition to the Civil War canon. Includes black-and-white photos and illustrations.

Champions aren't born, they're made. The haunting, searingly candid New York Times bestselling memoir of Greg Louganis' journey to overcome homophobia, colorism, and disability to become one of the best

Olympic athletes in the world. Greg Louganis began diving at age nine. At sixteen, he beat out more experienced competitors to win a silver medal at the 1976 Montreal Olympics. By all accounts, the world was his for the taking. But there was more happening beneath the surface... In his tell-all autobiography Greg invites readers into the harrowing, inspirational true story of his life on and off the diving board. Adopted at nine months, Greg spent most of his life fighting colorism in his community and struggling with late-detected dyslexia.

Athleticism was an area in which he thrived—he was in control, he could prove his worth, and he would show the world what he was capable of. But as a closeted gay man living in a violently homophobic world, Greg lived in fear: fear that coming out would mean sacrificing his career and reputation, and fear that by not speaking out he was perpetuating the status-quo. But as his skill as a diver became internationally known, the spotlight he found himself under only intensified his struggles, leading to difficulties with relationships and substance

abuse. It took the true spirit of a champion to heal, rise above adversity, and fight for others. A sports memoir and LGBTQ book in the vein of Meg Rapinoe's *One Life*, in *Breaking the Surface* Olympic diver Greg Louganis reflects on the highs and lows of his iconic life and career—from testing positive to HIV and going on to win double gold medals at the Olympics, to overcoming astounding prejudice and becoming an LGBTQ+ activist—in a raw, honest exploration of how we define greatness.

Change is the Challenge

As Christians, we know that we are new creations in Jesus. So we try to act differently, hoping this will make us more like Him. But changing our outward behavior doesn't change our hearts. Only by God's grace can we be transformed internally. *Renovation of the Heart* lays a biblical foundation for understanding what best-selling author Dallas Willard calls the

“transformation of the spirit”—a divine process that “brings every element in our being, working from inside out, into harmony with the will of God.” This fresh approach to spiritual growth explains the biblical reasons why Christians need to undergo change in six aspects of life: thought, feeling, will, body, social context, and soul. Willard also outlines a general pattern of transformation in each

area, not as a sterile formula but as a practical process that you can follow without the guilt or perfectionism so many Christians wrestle with. Don't settle for complacency. Accept the challenge

Renovation of the Heart offers to become an intentional apprentice of Jesus Christ, changing daily as you walk with Him.

In this engaging account, the first president of Brandeis tells how many formidable obstacles to launching a new university without initial capital endowment or any hope of alumni support for at least a generation were overcome; how

academic goals were drafted, distinguished faculty recruited, and chairs endowed; and how a dilapidated campus was expended into a well-organized plant of some 90 buildings. In this revision of the 1976 edition, Abram L. Sachar expands the scope of his commentary and imbues it with a critical depth and objectivity that comes from 20 additional years of

active involvement in the service of the university.

Sociocultural Identities in Music Therapy Bloomsbury Publishing Most people, specialists or not, typically think of New York City or Boston when considering the early development of parks and open spaces in American cities. Despite the size and importance of the Chicago park system, its history is less well

known—even to many of those Chicagoans who regularly enjoy its facilities. City in a Garden, developed in association with the Chicago Park District itself, changes that: its 184 large—format pages, packed with 140 images and a closely integrated text, provide the first official documentary chronicle of Chicago's parks. Thirty-one of the city's finest spaces are profiled, using photographs—both

contemporary and historical-along with detailed vignettes and captions to trace their development. The visual treat of the book's fine-art duotones combines with its emphasis on narrative history to create a rich and magnificent exploration of a city's most beautiful sites. Whose Toes are Those?
