Beginners Guide Light Wave

The North Nugget is a good

option for a beginner in flattish

and light wind conditions. If, on

the other hand, your local spot

has strong (18+ knots) onshore

winds and waves up to 1.5-2m,

you may prefer a thinner board

with a bit of rocker and a couple

inches shorter than you, that can

cut through chop and waves.

The electromagnetic spectrum
includes a wide range of light
waves, some that we can't see.
Some of the non-visible types of
waves are radio waves,
microwaves, infrared rays, and X-
rays. These types of waves have
all sorts of uses in science and
technology. In the visible
spectrum of light, the color of the
light depends on the frequency.
