Holly runs a dating agency. Up to now she's had no need of her own services, but, convinced her relationship with her fiancé Nick has staled, she turfs him out and determines to go in pursuit of hearts-and-flowers romance, true love and the soul-mate she has convinced herself must exist. In the meantime, to get back into practice, she accepts a date with the hugely eligible Stuart. Rich, arrogant and charming, he's not her type at all, but he's her guinea pig. But Stuart rather likes Holly. And he's used to getting his own way. Much to her dismay, Holly finds Stuart won't take no for an answer and suddenly things don't look so easy. Brimming with warmth, perception and understanding, Anna Maxted once again mixes the heart-breaking with the humorous to deliver a page-turning, laugh-out-loud, emotionally satisfying read.

Trauma Reporting provides vital information on developing a healthy, professional and respectful relationship with those who choose to tell their stories during times of trauma, distress or grief. Amid a growing demand and need for guidance, this fascinating book is refreshingly simple, engaging and readable, providing a wealth of original insight. As an aspiring or working journalist, how should you work with a grieving parent, a survivor of sexual violence, a witness at the scene of a traumatic event? How should you approach people, interview them and film with them sensitively? Trauma Reporting features guidance from some of the industry's most

successful news correspondents and documentary makers, including Louis Theroux, Lucy Williamson, Tulip Mazumdar, Richard Bilton, Jina Moore and many more, all sharing their experience and expertise. It also features people who chose to tell their sensitive stories to journalists, giving readers invaluable insight into what helped and what harmed. The book also includes: What your interviewees may be going through and how best to respond, by trauma expert Professor Stephen Regel. A discussion on ethics, rules and regulations by Dr Sallyanne Duncan of the University of Strathclyde. Making sure you look after yourself, by Dr Cait McMahon of the Dart Center for Journalism and Trauma. Insightful and innovative, this book is essential for new and established journalists across all media, students of journalism and broadcasting, and anyone who wishes to share the stories of those affected by trauma.

THESE GIRLS ANU Press

NAMED ONE OF COSMOPOLITAN'S "15 BEST MARRIAGE BOOKS ALL COUPLES SHOULD READ." An accessible, transformative guide for couples seeking greater love, connection, and intimacy in our modern world Nate and Kaley Klemp were both

successful in their careers, consulting for high-powered companies around the world. Their work as mindfulness and leadership experts, however, often fell to the wayside when they came home in the evening, only to end up fighting about fairness in their marriage. They believed in a model where each partner contributed equally and fairness ruled, but, in reality, they were finding that balance near impossible to achieve. From this frustration, they developed the idea of the 80/80 marriage, a new model for balancing career, family, and love. The 80/80 Marriage pushes couples beyond the limited idea of "fairness" toward a new model grounded on radical generosity and shared success, one that calls for each partner to contribute 80 percent to build the strongest possible relationship. Drawing from more than one hundred interviews with couples from all walks of life, stories from business and pop culture, scientific studies, and ancient philosophical insights, husband-and-wife team Nate and Kaley Klemp pinpoint exactly what's not working in modern marriage. Their 80/80 model of marriage provides practical, powerful solutions to transform your relationship and open up space for greater love and connection.

Jane Spring has discovered that twenty-first-century relationships are built on a myth.

She's organized, attractive, strong-minded and self-sufficient - yet she's single. She's smart, ambitious and sexually confident - yet somehow, while all her friends plan their weddings, no-one wants to marry her. Then one day she finds the answer. Drinking her way through a depressing afternoon snowed into her apartment, she turns on the TV and finds a Doris Day marathon. And that's when the revelation hits her: Doris wouldn't be stuck inside alone at a weekend. Doris wouldn't scare men off. Doris always gets her man. Because despite everything men say, they're terrified of women like Jane. What they really want is a cute little blonde with frosted pink lipstick, tight pencil skirts and kitten heels. What they really want is Doris. And so Jane Spring sets out to reinvent herself. If that's what men want, that's what she'll give them...

A Tale of Two Sisters Springer

A practical and hilarious guide to getting difficult people off your back, for anyone pulling their hair out over an irritating colleague who's not technically breaking any rules From open floor plans and Zoom calls to Slack channels, the workplace has changed a lot

over the years. But there's one thing that never changes: you'll always encounter jerks. Jerks at Work is the definitive guide to dealing with—and ultimately breaking free from—the overbearing bosses, irritating coworkers, and all-around difficult people who make work and life miserable. Social psychologist Tessa West has spent years leveraging science to help people solve interpersonal conflicts in the workplace. What she discovered is that most of our go-to tactics don't work because they fail to address the specific motivations that drive bad behavior. In this book, she takes you on a rollicking deep dive of the seven jerks you're most likely to encounter at the office, drawing on decades of original research to expose their inner workings and weak points—and ultimately deliver an effective game plan for stopping each type before they take you down with them. Jerks at Work is packed with everyday examples and clever strategies, such as how to:

- Stop a Bulldozer from gaining influence by making sure they're not the first to speak up in meetings
- Report a Kiss Up/Kick Downer to a manager who idolizes them without looking like the bad guy
- Protect your high-achieving team from Free Riders without stifling collaboration
- Use a Gaslighter's tactics to beat them at their own game

For anyone who's said "I can't stand that jerk!" more times than they'd like to admit,

Jerks at Work is the ultimate playbook you wish you didn't need but will always turn to.

Sexing the Body MIT Press

A glimpse into the tribulations of parenting that is part documentary, part therapy, and completely hilarious. It all started when busy father Greg Pembroke posted a few pictures online of his three-year-old son, mid-tantrum, alongside the reason his son was crying: He had broken his bit of cheese in half. In *Reasons My Kid is Crying*, Greg collects together photos sent from parents around the world, documenting the many, completely logical reasons why small children cry. Among them: "I let him play on the grass" . . . "He ran out of toys to throw into his pool" . . . "The neighbor's dog isn't outside". The result is both an affectionate portrait of the universal, baffling logic of toddlers—and a reminder for burned-out parents everywhere that they are not alone.

Girls Night In Harper Collins

Helen Bradshaw isn't exactly living out her dreams. She's a lowly assistant editor at *GirlTime* magazine, she drives an ancient Toyota, and she has a history of choosing men who fall several thousand feet below acceptable boyfriend standard. Not to mention that she shares an apartment with a scruffy, tactless roommate, her best girlfriends are a little too perfect, and the most affectionate male in her life—her cat, Fatboy—occasionally pees in her underwear draw. Then Helen gets the telephone call she least expects: Her father has had a massive heart attack. Initially brushing off his death as merely an interruption in her already chaotic life (they were never very close, after all), Helen is surprised to find everything else starting to crumble around her. Her pushy mother is coming apart at the seams, a close friend might be heading toward tragedy, and, after the tequila incident, it looks as though Tom the vet will be sticking with Dalmatians. Turns out getting over it isn't going to be quite as easy as she thought.

Bet Me Penguin

In the late 19th and early 20th centuries, most countries in Europe and English-speaking countries outside Europe experienced a fertility transition, where fertility fell from high levels to

relatively low levels. England and the other English-speaking countries experienced this from the 1870s, while fertility in Australia began to fall in the 1880s. This book investigates the fertility transition in Tasmania, the second settled colony of Australia, using both statistical evidence and historical sources. The book examines detailed evidence from the 1904 New South Wales Royal Commission into the Fall in the Birth Rate, which the Commissioners regarded as applying not only to NSW, but to every state in Australia. Many theories have been proposed as to why fertility declined at this time: theories of economic and social development; economic theories; diffusion theories; the spread of secularisation; increased availability of artificial methods of contraception; and changes in the rates of infant and child mortality. The role of women in the fertility transition has generally been ignored. The investigation concludes that fertility declined in Tasmania in the late 19th century in a period of remarkable social and economic transformation, with industrialisation, urbanisation, improvements in transport and communication, increasing levels of

education and opportunities for social mobility. One of the major social changes was in the status and role of women, who became the driving force behind the fertility decline.

Now updated with groundbreaking research, this award-winning classic examines the construction of sexual identity in biology, society, and history. Why do some people prefer heterosexual love while others fancy the same sex? Is sexual identity biologically determined or a product of convention? In this brilliant and provocative book, the acclaimed author of *Myths of Gender* argues that even the most fundamental knowledge about sex is shaped by the culture in which scientific knowledge is produced. Drawing on astonishing real-life cases and a probing analysis of centuries of scientific research, Fausto-Sterling demonstrates how scientists have historically politicized the body. In lively and impassioned prose, she breaks down three key dualisms -- sex/gender, nature/nurture, and real/constructed -- and asserts that individuals born as mixtures of male and female exist as one of five natural human

variants and, as such, should not be forced to compromise their differences to fit a flawed societal definition of normality.

It's no secret that most of us get flabbier the older we get, and it's no surprise that the biggest spike in weight happens in the early stages of parenthood. Mark Macdonald knows the struggle himself, having gained thirty-five pounds after the birth of his son. It happened to him even as a nutritionist and former fitness model, so he knew he wasn't alone in the struggle. Along with his wife, Abbi, Mark has created this proven eight-week program specifically geared toward parents to help them shed the weight, discover new amounts of energy, and most importantly, create new sustainable habits to keep it from coming back.

Cure your kids of the entitlement epidemic so they develop happier, more productive attitudes that will carry them into a successful adulthood. Whenever Amy McCready mentions the "entitlement epidemic" to a group of parents, she is inevitably met with eye rolls, nodding heads, and loaded comments about affected

children. It seems everywhere one looks, there are preschoolers who only behave in the grocery store for a treat, narcissistic teenagers posting selfies across all forms of social media, and adult children living off their parents. Parenting expert McCready reveals in this book that the solution is to help kids develop healthy attitudes in life. By setting up limits with consequences and training them in responsible behavior and decision making, parents can rid their homes of the entitlement epidemic and raise confident, resilient, and successful children. Whether parents are starting from scratch with a young toddler or navigating the teen years, they will find in this book proven strategies to effectively quell entitled attitudes in their children.

Welcome to the world of the Kents, a charismatic, ambitious, and fabulously wealthy English family with two sisters - one as strong and sparkling as the other is delicate and wounded - who must somehow put their differences aside to keep an unknown enemy from bringing them down. Wild and beautiful Emily Kent has had the world laid at her feet by her

ruthless mother and billionaire father – but it's not enough. Gifted with her mother's to-die-for looks, her father's hard-scrabble business sense, and both of her parents' lust for control, Emily is determined to make her own luck by seducing the only man she's ever wanted, a man who can make her dreams of attaining the heights of old-money English society come true. By contrast, Emily's step-sister, Claudia, is a fragile soul—her mother died when she was five, leaving her to the unkind reign of step-mother Innocence. In an uncharacteristic burst of rebellion, Claudia trades her gilded lifestyle for an ordinary flat and daytime job where she meets the man of her dreams... or so she imagines. But, Emily and Claudia are caught up in a desperate situation that may be beyond their control. As for their father, disgraced tycoon Jack Kent, and his wife Innocence, they are too obsessed with the fight for supremacy over their vast empire to see that a mighty and sinister opponent is plotting to ruin them all.

We are told that simply by sipping our morning cup of organic, fair-trade coffee we are encouraging environmentally friendly agricultural methods, community development, fair prices, and shortened commodity chains. But what is the reality for producers, intermediaries, and consumers? This ethnographic analysis of fair-trade coffee analyzes the collective action and combined efforts of fair-

trade network participants to construct a new economic reality. Focusing on *La Voz Que Clama en el Desierto*—a cooperative in San Juan la Laguna, Guatemala—and its relationships with coffee roasters, importers, and certifiers in the United States, Coffee and Community argues that while fair trade does benefit small coffee-farming communities, it is more flawed than advocates and scholars have acknowledged. However, through detailed ethnographic fieldwork with the farmers and by following the product, fair trade can be understood and modified to be more equitable. This book will be of interest to students and academics in anthropology, ethnology, Latin American studies, and labor studies, as well as economists, social scientists, policy makers, fair-trade advocates, and anyone interested in globalization and the realities of fair trade.
