The second edition of this handbook examines family life, health, and educational issues that often arise for the millions of children in the United States whose parents are in prison or jail. It details how these youth are more likely to exhibit behavior problems such as aggression, substance abuse, learning difficulties, mental health concerns, and physical health issues. It also examines resilience and how children and families thrive even in the face of multiple challenges related to parental incarceration. Chapters integrate diverse; interdisciplinary; and rapidly expanding literature and synthesizes rigorous scholarship to address the needs of children from multiple perspectives, including child welfare; education; health care; mental health; law enforcement; corrections; and law. The handbook concludes with a chapter that explores new directions in research, policy, and practice to improve the life chances of children with incarcerated parents. Topics featured in this handbook include: Findings from the Fragile Families and Child Wellbeing Study. How parental incarceration contributes to racial and ethnic disparities and inequality. Parent-child visits when parents are incarcerated in prison or jail. Approaches to empowering incarcerated parents of color and their families. International advances for incarcerated parents and their children. The second edition of the Handbook on Children with Incarcerated Parents is an essential reference for researchers, professors,

clinicians/practitioners, and graduate students across developmental psychology, criminology, sociology, law, psychiatry, social work, public health, human development, and family studies. "This important new volume provides a cutting-edge update of research on the impact of incarceration on family life. The book will be an essential reference for researchers and practitioners working at the intersections of criminal justice, poverty, and child development." Bruce Western, Ph.D., Columbia University "The comprehensive, interdisciplinary focus of this handbook brilliantly showcases the latest research, interventions, programs, and policies relevant to the well-being of children with incarcerated parents. This edition is a 'must-read' for students, researchers, practitioners, and policy-makers alike who are dedicated to promoting the health and resilience of children affected by parental incarceration." Leslie Leve, Ph.D., University of Oregon

Designed to engage students and lower their "fear factor", Integrative Statistics for the Social and Behavioral Sciences is a concise, user-friendly text that prepares students to use statistics in the real world. Providing depth and breadth of statistical tests, the text focuses on choosing the appropriate statistical analysis, and shows how to interpret the output and present the results. Basic descriptive statistics, hypothesis testing, and basic inferential statistics are covered along with more advanced topics such as correlation, regression, non-parametric statistics, multivariate statistics, and general linear modeling. The authors emphasize choosing the appropriate statistical test through conceptual material, assumptions, homework exercises, and a helpful "choose-the-appropriate-test" flowchart. They focus on the interpretation of results from both Excel and SPSS outputs, and also demonstrate how to do important calculations by hand to help students grasp the underlying concepts. The book includes end-of-chapter exercises that help students fully grasp the content of each chapter.

Drawing upon twenty years of experience putting the Positive Behaviour Support (PBS) framework into practice, this is the first definitive handbook to document the ways in which Australian schools have embraced and applied school-wide PBS, and

to provide guidance on implementation. Written by key Australian researchers and implementers with extensive expertise, School-Wide Positive Behaviour Support: The Australian Handbook is an important contribution to the work of school leaders and teachers. This book illustrates the significant contribution of PBS to improving schools and the potential for its systems approach to be expanded across education systems. The book's structure corresponds to the theme of a continuum of supports, addressing the key conceptual foundations of PBS and its representation within school-wide implementation. Each chapter comprises a mix of research, practical case studies and examples, and features learning intentions, keywords, further reading, advice on applying your ideas, and links to the Australian Professional Standards for Teachers. PBS has gained significant attention in Australia over the past two decades and its principles now underpin many successful systems and practices in schools and community and disability services. This book will be a foundational resource for implementers and coaches of PBS, educational leaders and policy advisors, pre- and in-service teachers, as well as researchers.

"Cop Doc's Guide to Public Safety Complex Trauma Syndrome" is written in response to the need for an advanced, specialized guide for clinicians to operationally define, understand, and responsibly treat complex post-traumatic stress and grief syndromes in the context of the unique varieties of police personality styles. The book continues where Rudofossi's first book, "Working with Traumatized Police Officer Patients", left off. Theory is wed to practice and practice to effective interventions with police officer-patients. The 'how' and 'why' of a clinician's approach is made highly effective by understanding the distinct personality styles of officer-patients. Rudofossi's theoretical approach segues into difficult examples that highlight each officer-

patient's eco-ethological field experience of loss in trauma, with a focus on enhancing resilience and motivation to - otherwise left disenfranchised. Thus, this original work expands the ecological-ethological existential analysis of complex PTSD into the context of personality styles, with an emphasis on resilience - without ignoring the pathological aspects of loss that often envelop officer-patient trauma syndromes.
