competition of the early church with early Judaism. It was built into the New Testament and was developed by the church fathers. Having learned to dehumanize, it was easy to apply the same techniques to other groups; the church became complicit with enslavement, misogyny, and other forms of oppression. One response to the bad fruit is to

reject religion, in the manner of Christopher Hitchens. However, the dogmas are part of our culture even if in secular form. If the roots of marginalization are not understood, they cannot be eliminated. This work uses a range of critics and defenders of traditional Western Christianity to identify poisonous fruits and detoxify them. The critical

voices do not create a consensus. Nevertheless, a core can be perceived, what Erasmus called the "few truths." Grounded in the religious tradition, they can be shared with secular people as a basis for an ethical, merciful, and respectful society. Although the history of Christianity is bloody, there are ways to go forward. Freedom to Freelance...The

SUCCESSFUL FARMING DES MOINES IOWA: THE DISCOVER CHRISTMAS 1909 Routledge

The complex and sometimes contradictory articulation of ethnicity, religion and gender informs this book on the cultural construction of identity for Jamaican migrants in Britain. The author argues that religion --

in this case Pentecostalism -- cannot be understood simply as a means of spiritual compensation for the economically disadvantaged. Rather, in the New Testament Church of God, one of Britain's largest African Caribbean churches, the cosmology of the church resolves the questions surrounding identity as well as suffering. Religious participation is one way in which African Caribbean people negotiate the terms of representation and interaction in British society.
