"Character" has become a front-and-center topic in contemporary discourse, but this term does not have a fixed meaning. Character may be simply defined by what someone does not do, but a more active and thorough definition is necessary, one that addresses certain vital questions. Is character a singular characteristic of an individual, or is it composed of different aspects? Does character--however we define it--exist in degrees, or is it simply something one happens to have? How can character be developed? Can it be learned? Relatedly, can it be taught, and who might be the most effective teacher? What roles are played by family, schools, the media, religion, and the larger culture? This groundbreaking handbook of character strengths and virtues is the first progress report from a prestigious group of researchers who have undertaken the systematic classification and measurement of widely valued positive traits. They approach good character in terms of separate strengths--authenticity, persistence, kindness, gratitude, hope, humor, and so on--each of which exists in degrees. Character Strengths and Virtues classifies twenty-four specific strengths under six broad virtues that consistently emerge across history and culture: wisdom, courage, humanity, justice, temperance, and transcendence. Each strength is thoroughly examined in its own chapter, with special attention to its meaning, explanation, measurement, causes, correlates, consequences, and development across the life span, as well as to strategies for its deliberate cultivation. This book demands the attention of anyone interested in psychology and what it can teach about the good life.

Ruben Palomares grew up on the mean streets of East L.A., in an abusive home, in a gang infested area, and heavily influenced by relatives who were gang members. However, he succeeded against many odds and excelled in school to become a Golden Gloves boxer and even a sparring partner with superstar boxing champions Oscar de la Hoya and Sugar Shane Mosley. Palomares then joined the Los Angeles Police Department (LAPD), where a shooting incident left him with Post Traumatic Stress Disorder (PTSD), which led to a downward spiral in his life. Angry at the world, he turned from being a model cop, to a life of crime, working for

the Mexican Drug Cartel. Yet his most brutal battles would be against opponents he could not even see, who came from the demonic spirit world, who followed him from his dark life with the Mexican Drug Cartel and the witches who cursed him. This book is about Palomares' turbulent journey from fierce demonic paranormal attacks, to a road of deliverance and inner healing through a relationship with Jesus Christ. Rayford Johnson is a former Correctional Counselor and author of Thug Mentality Exposed, Demon Mentality Exposed and Greek Letter Exposed. He counsels and ministers healing and demon deliverance at correctional facilities, "the streets", online, YouTube, phone prayer-line, conferences, and residential settings. The Christian faith has fallen victim to the times. Its original purpose and meaning is redefined by those who criticize it. No other is to be blamed for the scorning the Faith endures, but the Christian. To have our minds shifted and removed from Christ yield's believers far removed for the image of Christ. For this reason, our existence as Christians is not fulfilling the function and purpose we have been created for. This book intends to calibrate the mind, to return us to the original way of thought. As Ruben Wells kneels with a gun pointed at his head all he can do is reflect on the life he spoiled. What has led him here? Or was that he was too much of a people pleaser having a hard time saying no that has led to him begging for his life? Every thing begins and ends with a choice. The moment a choice is made it only takes a second for a life to change. Ruben made a choice to initiate a relationship with the alluring Bianca Jones. She makes heads turn and every man's dream. She is beautiful as a gazelle, but as dangerous as a lioness, as she's unavailable due to being unhappily married with children. In this engaging account, the first president of Brandeis tells how many formidable obstacles to launching a new university without initial capital endowment or any hope of alumni support for at least a generation were overcome; how academic goals were drafted, distinguished faculty recruited, and chairs endowed; and how a dilapidated campus was expended into a well-organized plant of some 90 buildings. In this revision of the 1976 edition, Abram L. Sachar expands the scope of his commentary and imbues it with a critical depth and objectivity that comes from 20 additional years of active involvement in the service of the university.
