It's no secret that certain social groups have predominated India's business and trading history, with business traditionally being the preserve of particular 'Bania' communities. However, the past four or so decades have seen a widening of the social base of Indian capital, such that the social profile of Indian business has expanded beyond recognition, and entrepreneurship and commerce in India are no longer the exclusive bastion of the old mercantile castes. In this meticulously researched book ? acclaimed for being the first social history to document and understand India's new entrepreneurial groups ? Harish Damodaran looks to answer who the new 'wealth creators' are, as he traces the transitional entry of India's middle and lower peasant castes into the business world. Combining analytical rigour with journalistic flair, India's New Capitalists is an essential read for anyone seeking to understand the culture and evolution of business in contemporary South Asia.

Written towards the end of 1937 during his Europe trip, after being nominated the President of the Indian National Congress, An Indian Pilgrim traces Bose's life story from birth till his resignation from the Indian Civil Service. It is an astounding account of his ideological development and his singular focus on India's reconstruction in which Swami Vivekananda played a large part—"I was barely fifteen when Vivekananda entered my life. Then there followed a revolution within and everything was turned upside down." The book recounts the development of the spirit of service, sacrifice and zeal for national liberation, which were the driving forces of his life. We hope this publication will gain wide circulation so that the spirit of Subhas Chandra Bose becomes the guiding light of the country's youth in these disturbing times.

India has a rich literary assemblage produced by its many different regional traditions, religious faiths, ethnic subcultures and linguistic groups. The published literature of the 20th century is a particularly interesting subject and is the focus of this book, as it represents the provocative conjuncture of the transitions of Indian modernity. This reference book surveys the major regional literatures of contemporary India in the context of the country's diversity and heterogeneity. Chapters are devoted to particular regions, and the arrangement of the work invites comparisons of literary traditions. Chapters provide extensive bibliographies of primary works, thus documenting the creative achievement of numerous contemporary Indian authors. Some chapters cite secondary works as well, and the volume concludes with a list of general works providing further information. An introductory essay overviews theoretical concerns, ideological and aesthetic considerations, developments in various genres, and the history of publishing in regional literatures. The introduction provides a context for approaching the chapters that follow, each of which is devoted to the literature of a particular region. Each chapter begins with a concise introductory section. The body of each chapter is structured according to social and historical events, literary forms, or broad descriptive or analytic trends, depending on the particular subject matter. Each chapter then closes with an extensive bibliography of primary works, thus documenting the rich literary tradition of the region. Some chapters also cite secondary sources as an aid to the reader. The final chapters of the book address special topics, such as sub-cultural literatures, or the interplay between literature and film. A list of additional sources of general information concludes the volume.

AlinaI was eleven when I met Chase Adams. I loved him before I knew what lovin' was.I pulled,

he pushed.I gave, he took.I loved... I lost.Now he's back. All grown up and sexy as sin.But things changed while he was gone.So, he can show those dimples and flex those muscles all he wants.It won't change a thing.Chase Adams is nothin' but a lost memory. I'll do everything I can to keep him that way.ChaseGrowing up, there were only two women I ever loved.Neither one of them ever really loved me back.Until her. Alina. My Goldi.She was everything that's good. I was the bad.She was the brightest goddamn star. I was the black hole shredding her to pieces.I loved her wrong, losing her to my demons.But now I'm back. A better man.I'll do everything I can to make her remember us, even if all she wants is to forget.

The phenomenological approach to the philosophy of mind, as inaugurated by Brentano and worked out in a very sophisticated way by Husserl, has been severely criticized by philosophers within the Wittgensteinian tradition and, implicitly, by Wittgenstein himself. Their criticism is, in the epistemological regard, directed against introspectionism, and in the ontological regard, against an internalist and qualia-friendly, non-functionalist (or: broadly dualistic/idealistic) conception of the mind. The book examines this criticism in detail, looking at the writings of Wittgenstein, Ryle, Hacker, Dennett, and other authors, reconstructing their arguments, and pointing out where they fall short of their aim. In defending Husserl against his Wittgensteinian critics, the book also offers a comprehensive fresh view of phenomenology as a philosophy of mind. In particular, Husserl's non-representationalist theory of intentionality is carefully described in its various aspects and elucidated also with respect to its development, taking into account writings from various periods of Husserl's career. Last but not least, the book shows Wittgensteinianism to be one of the effective roots of the present-day hegemony of physicalism.

A History of Assam Maverick Oak Press

This book seeks to investigate how the pedagogic space of schools and classrooms has been defined by the UK government's counter-terrorism 'Prevent' strategy, most notably through the requirement on teachers not to undermine 'fundamental British values' as part of the Teachers Professional Standards. The term 'fundamental British values' migrated from Prevent to the statutory framework that regulates teacher professionalism and has effectively securitized education practice. The Prevent strategy was conceived in response to the 7/7 bombings in London by so-called 'home-grown' Muslim terrorists. The need for teachers to promote British values is an attempt to forge a cohesive British identity among young citizens within a multiracial, multicultural and multilingual society. However, as the chapters in this book illustrate, the state project to harness education to engender belonging – or as some would argue, civic nationalism – whilst simultaneously undertaking surveillance of children and young people from the Muslim community for signs of radicalization, has led to the perception of a hierarchy of citizens or, conversely, 'insider-outsider' citizens. The imperative to promote, and not undermine, fundamental British values has, in some instances, transformed the safe space of the classroom where children and young people's right to explore their perceptions of current affairs, citizenship and belonging has been curtailed for fear of surveillance by teachers who may interpret their utterances as either undermining British values or to be signs of radicalization.

This book explores these dilemmas for teachers and the implications for their professionalism, and examines how racist nativism has pervaded society, educational policy and practice through the promotion of a Britishness perceived by many as a raced, classed and exclusionary discourse. This book was originally published as a special issue of the *Journal of Education for Teaching*.
