Thoughts for Young Men was originally published in 1888 as a chapter in The Upper Room, and it has become a minor spiritual classic in its own right. It has few equals among the all-too-short list of solid Christian books for young men. Ryle's insights were derived from more than four decades of pastoral experience, three decades of parenting, and his own experiences as a young man. Ryle always had a heart for young men. He regularly addressed groups like the Young Men's Christian Association (YMCA) and the Church of England's Young Men's Society. By all accounts J.C. Ryle was a "man's man," and his Thoughts for Young Men have proven to be both valuable and timeless. This new edition is designed for devotional reading, small group studies, and one-to-one discipleship. The text has been divided into short readings based on Ryle's own subheadings and lightly edited to make it more accessible to modern readers. It also includes: - Scripture quotations and memory verses from the ESV - Information boxes and chapter summaries - Reflection questions and suggestions for further reading - A discussion guide for group leaders We've also included Daniel the Prophet, a biographical lecture Ryle delivered to a group of young men at the Liverpool YMCA in 1889, which hasn't been published since that time. This work summarizes and illustrates many of the main points Ryle makes in Thoughts for Young Men.

First published in 1983, A Guide to Twentieth Century Literature in English is a detailed and comprehensive guide containing over 500 entries on individual writers from countries including Africa, Australia, Canada, the Caribbean, India, Ireland, New Zealand, Pakistan, Sri Lanka, and the UK. The book contains substantial articles relating to major novelists, poets, and dramatists of the age, as well as a wealth of information on the work of lesser-known writers and the part they have played in cultural history. It focuses in detail on the character and quality of the literature itself, highlighting what is distinctive in the work of the writers being discussed and providing key biographical and contextual details. A Guide to Twentieth Century Literature in English is ideal for those with an interest in the twentieth century literary scene and the history of literature more broadly.

The SCM Studyguide to Anglicanism offers a comprehensive introduction to the many different facets of Anglicanism. Aimed at students preparing for ministry, it presumes no prior knowledge of the subject and offers helpful overviews of Anglican history, liturgy, theology, Canon Law, mission and global Anglicanism. As well as offering updated and improved lists of further reading, this second edition brings a greater emphasis on worldwide expressions of Anglicanism, with more examples taken from Asian and African contexts, and a brand new section which considers the rise of the global communion alongside issues of inculturation and indigenisation.

In *Bullets Not Ballots*, Jacqueline L. Hazelton challenges the claim that winning "hearts and minds" is critical to successful counterinsurgency campaigns. Good governance, this conventional wisdom holds, gains the besieged government popular support, denies support to the insurgency, and makes military victory possible. Hazelton argues that major counterinsurgent successes since World War II have resulted not through democratic reforms but rather through the use of military force against civilians and the co-optation of rival elites. Hazelton offers new analyses of five historical cases frequently held up as examples of the effectiveness of good governance in ending rebellions—the Malayan Emergency, the Greek Civil War, the Huk Rebellion in the Philippines, the Dhofar rebellion in Oman, and the Salvadoran Civil War—to show that, although unpalatable, it was really brutal repression and bribery that brought each conflict to an end. By showing how compellence works in intrastate conflicts, *Bullets Not Ballots* makes clear that whether or not the international community decides these human, moral, and material costs are acceptable, responsible policymaking requires recognizing the actual components of counterinsurgent success—and the limited influence that external powers have over the tactics of counterinsurgent elites.

The Vanishing Half Thomas Nelson

This book considers how homes, households, and domestic life are related to the Church. Early theologies glorified the monastic lifestyle as a way to transcend earthly attachments in favor of supernatural goods. Contemporary thinkers have seen that functioning marriages and families themselves can lead us toward a more righteous society. Jana Bennett insists that both marriage and singleness must be placed in the context of the Christian story of redemption for the questions and problems at stake to be fully understood. She finds that Augustine of Hippo, maligned by modern theologians, is the source of very fruitful reflection on these topics. Most scholars today would agree that Augustine's works have exerted great influence on Western views of marriage, family, and sex. But many would argue that this influence has been detrimental to a healthy understanding of these topics. However, using Augustine's writing, Bennett shows that marriage and singleness cannot be considered separately, that gender issues are important to considering these states correctly and, most important, that the marriage between Christ and the Church is the first consideration in understanding and living these states of life. The water of baptism, Christians' first birth and initiation into the life of Christ, is the primary standard for relationships, rather than familial ties.

Moving, harrowing, and ultimately uplifting, Lori Schiller's memoir is a classic testimony to the ravages of mental illness and the power of perseverance and courage. At seventeen Lori Schiller was the perfect child—the only daughter of an affluent, close-knit family. Six years later she made her first suicide attempt, then wandered the streets of New York City dressed in ragged clothes, tormenting voices crying out in her mind. Lori Schiller had entered the horrifying world of full-blown schizophrenia. She began an ordeal of hospitalizations, halfway houses, relapses, more suicide attempts, and constant, withering despair. But against all odds, she survived. In this personal account, she tells how she did it, taking us not only into her own shattered world, but drawing on the words of the doctors who treated her and family members who suffered with her.

"The Masters of Wisdom" is the last book to have been published during the John Bennett's lifetime, and is probably the most unusual, having little in common with his previously published works, except in serving a number of discrete objectives. Originally planned to be incorporated into a single volume to be entitled "Gurdjieff and the Masters of Wisdom" this work was separated from what became "Gurdjieff: Making a New World" which eventually was published a year earlier in 1973. In the last years of Bennett's life, he had been deeply affected by his close association with the Turkish mystic, Hasan Lutfi Shushud, and originally a contract was drawn up with a London publishing house for the combined work, in which both men were signed as joint authors. However, before anything was written, Shushud abruptly withdrew his support for the project, ostensibly on the grounds of a disagreement with the publishers. Only after Bennett's death in 1974, Shushud indicated privately that he found Gurdjieff's teaching and methods offensive. There is however some overlap between the two books, and "The Masters of Wisdom" draws on Gurdjieff's resources as well as material provided by Hasan Shushud. "The Masters of Wisdom" is unlike Bennett's other books not only in the way it is constructed, which appears to be somewhat out of balance, but also in the content. The first three chapters provide an overview of material presented 8 years earlier in the fourth volume of "The Dramatic Universe", of the Earth as single intelligent whole, in which humanity plays an increasingly active role and - must accept greater responsibility. These chapters provide an introduction to Chapter 4 which presents an account of the Christ Event not to be found anywhere else, and by Bennett's own account, arising out of insights vouchsafed to him privately by Gurdjieff. The next chapter serves as a bridge to the second major detailed message Bennett shares, which concerns the extraordinary period spanning at least 350 years, when a group of men within a single unbroken tradition played a pivotal and benign role in otherwise catastrophic events. It is not clear why Bennett devotes an entire chapter to Genghis Khan in a book entitled "The Masters of Wisdom" except that he appears to have been an exceptionally gifted individual whom Bennett apparently admired for his great self-control, and his willingness to accept guidance from a spiritual director. The researches Bennett completed in his last years led him to certain conclusions which may not have been fully expressed in this account. Unlike Bennett's other books, "The Masters of Wisdom" contains hidden messages, and also occult elements which are accessible to those able to access them. "Beelzebub's Tales to His Grandson" and "The Dramatic Universe" showed the transformative power of books, but like "Meetings with Remarkable Men" this book imparts information which remains hidden except from those readers who find the key. The book is also unlike any of Bennett's other books in containing secret "magic" elements, opening mystical channels. Since the text was left unfinished when Bennett died, it is not possible to know for certain whether the message of the book is complete or would have included other material such as the very detailed accounts that Bennett gave to his student in the last months - the "esoteric phase" - of the Third Basic Course. Overall the message is of the planet we inhabit seen as a single indivisible whole, of which we human beings are an important element, but which is subordinate to the Cosmic forces.

"The exciting beginning of a promising new epic fantasy series. Prepare for ancient mysteries, innovative magic, and heart-pounding heists." —Brandon Sanderson "Complex characters, magic that is tech and vice versa, a world bound by warring trade dynasties: Bennett will leave you in awe once you remember to breathe!" —Tamora Pierce In a city that runs on industrialized magic, a secret war will be fought to overwrite reality itself—the first in a dazzling new series from City of Stairs author Robert Jackson Bennett. Sancia Grado is a thief, and a damn good one. And her latest target, a heavily guarded warehouse on Tevanne's docks, is nothing her unique abilities can't handle. But unbeknownst to her, Sancia's been sent to steal an artifact of unimaginable power, an object that could revolutionize the magical technology known as scribing. The Merchant Houses who control this magic—the art of using coded commands to imbue everyday objects with sentience—have already used it to transform Tevanne into a vast, remorseless capitalist machine. But if they can unlock the artifact's secrets, they will rewrite the world itself to suit their aims. Now someone in those Houses wants Sancia dead, and the artifact for themselves. And in the city of Tevanne, there's nobody with the power to stop them. To have a chance at surviving—and at stopping the deadly transformation that's under way—Sancia will have to marshal unlikely allies, learn to harness the artifact's power for herself, and undergo her own transformation, one that will turn her into something she could never have imagined.

A Twenty-First Century Guide to Aldersonian Marketing Thought introduces readers to the life, the writings and the intellectual legacy of Wroe Alderson, the preeminent marketing thinker of the mid-twentieth century. Both Alderson's seminal contributions to marketing theory and his "best practices" articles in the areas of marketing management and ethics have been reproduced. Contributions by others about Wroe Alderson include a biography and a number of previously published articles that build on Alderson's theoretical contributions. Six original articles further explore Wroe Alderson's life, his work, his character and his intellectual impact. This book also contains two bibliographies: one of material written by Alderson over a forty year period and the other of publications that discuss his work. This single volume provides readers with an "in depth" understanding of the nature, the scope, and the magnitude of Alderson's highly original and lasting contributions to marketing theory and thought.

Discourses Upon the Existence and Attributes of God Oxford University Press

The strength of Puritan character and life lay in prayer and meditation. In this practice the spirit of prayer was regarded as of first importance and the best form of prayer, for living prayer is the characteristic of genuine spirituality. Yet prayer is also vocal and may therefore on occasions be written. Consequently in the Puritan tradition there are many written prayers and meditations which constitute an important corpus of inspiring devotional literature. Too often ex tempore prayer lacks variety, order and definiteness. The reason for this lies partly in a neglect of due preparation. It is here that the care and scriptural thoroughness which others found necessary in their approach to God may be of help. This book has been prepared not to 'supply' prayers but to prompt and encourage the Christian as he treads the path on which others have gone before.

Relevant Revelation explores themes such as covenant, brothers in conflict, the younger brother being favored by God, changed hearts, barren women who are healed (and the one who is not), and the humble raised high. Relevant Revelation shows how the Bible follows the history of Israel by mirroring the developmental stages of a human, beginning with conception, then birth, infancy, childhood, adulthood, death, and finally, the afterlife. Understanding the development of these themes will change the way you read and study the Bible. Any one of these themes point to purposeful, cohesive authorship throughout the Bible. Relevant Revelation seeks to show that God is the one Author of the Bible with seven themes as support. The fact that all these themes culminate in Christ demonstrates that the New Testament finishes what the Old Testament starts. Christ is the Messiah sent by God and expected by his people. When we see connections between books written by over forty people over three thousand years, the reader is challenged to see the Bible and its stories as one continuous story. When we understand God's word as a cohesive unit, the people and events of Israel's history can be placed and logically understood in the context of God's great purpose and plan of redeeming the world through a Savior.

A much anticipated new addition to the very popular and practical book series that answers real questions on key topics in contemporary Christianity Islam is one of the most significant forces shaping the world today, but most Christians are confused about its key beliefs and practices. Many wonder about the apparent similarities and obvious differences between Christianity and Islam, and want to reach out to Muslim friends or neighbors with the gospel but don't know where to begin. Having spent several years living in North Africa and the Middle East, missions professor Matthew Bennett guides readers through Islam's key tenants and provides answers to critical questions, such as: -Who was Muhammad and what was his message? -Do Muslims and Christians worship the same God? -What are the differences between the Qur'an and the Bible? -What is shariah law? -What is the Islamic view of salvation? -What happens in the mosque? -Is Islam inherently misogynistic? -Do Muslims and Christians worship the same God? -How should a Christian share the gospel with Muslims? Helpful summaries at the end of each chapter encapsulate important information, followed by discussion questions useful for personal or small-group study. Whether you want to understand Islam better or reach Muslims for Christ, 40 Questions on Islam is an indispensable primer and reference book.

The Holy Spirit & You Workbook SCM Press

You have to live on twenty-four hours of daily time. Out of it you have to spin health, pleasure, money, content, respect, and the evolution of your immortal soul. Its right use, its most effective use, is a matter of the highest urgency and of the most thrilling actuality. All depends on that. Your happiness — the elusive prize that you are all clutching for, my friends! — depends on that. Which of us lives on twenty-four hours a day? And when I say "lives," I do not mean exists, nor "muddles through." Which of us is not saying to himself — which of us has not been saying to himself all his life: "I shall alter that when I have a little more time"? We never shall have more time. We have, and we have always had, all the time there is. It is the realization of this profound and neglected truth (which, by the way, I have not discovered) that has led me to the minute practical examination of daily time-expenditure.
