Widely acclaimed as the most sound, comprehensive, down-to-earth, and useful book for teaching all aspects of the charismatic movement, **THE HOLY SPIRIT & YOU** has been enthusiastically endorsed by virtually every leader in the charismatic renewal. Popular and practical, it's not only a personal study guide, but it's used as a textbook in colleges, Bible schools, high schools, and home study groups. This is the workbook that brings the text of the book alive!

The Perfectionist Penguin  
**Thoughts for Young Men** was originally published in 1888 as a chapter in *The Upper Room*, and it has become a minor spiritual classic in its own right. It has few equals among the all-too-short list of solid Christian

books for young men. Ryle's insights were derived from more than four decades of pastoral experience, three decades of parenting, and his own experiences as a young man. Ryle always had a heart for young men. He regularly addressed groups like the Young Men's Christian Association (YMCA) and the Church of England's Young Men's Society. By all accounts J.C. Ryle was a "man's man," and his *Thoughts for Young Men* have proven to be both valuable and timeless. This new edition is designed for devotional reading, small group studies, and one-to-one discipleship. The text has been divided into short readings based on Ryle's own subheadings and lightly edited to make it more accessible to modern readers. It also includes: - Scripture quotations and memory verses from the ESV - Information boxes and chapter summaries - Reflection questions and suggestions for further reading - A discussion guide for group leaders We've also included

Daniel the Prophet, a biographical lecture Ryle delivered to a group of young men at the Liverpool YMCA in 1889, which hasn't been published since that time. This work summarizes and illustrates many of the main points Ryle makes in *Thoughts for Young Men*.

From The New York Times-bestselling  
author of *The Mothers*, a stunning new novel  
about twin sisters, inseparable as children,  
who ultimately choose to live in two very  
different worlds, one black and one white.  
The Vignes twin sisters will always be  
identical. But after growing up together in a  
small, southern black community and  
running away at age sixteen, it's not just the  
shape of their daily lives that is different as  
adults, it's everything: their families, their  
communities, their racial identities. Many  
years later, one sister lives with her black  
daughter in the same southern town she once  
tried to escape. The other secretly passes for  
white, and her white husband knows nothing

of her past. Still, even separated by so many  
miles and just as many lies, the fates of the  
twins remain intertwined. What will happen to  
the next generation, when their own  
daughters' storylines intersect? Weaving  
together multiple strands and generations of  
this family, from the Deep South to California,  
from the 1950s to the 1990s, Brit Bennett  
produces a story that is at once a riveting,  
emotional family story and a brilliant  
exploration of the American history of  
passing. Looking well beyond issues of race,  
*The Vanishing Half* considers the lasting  
influence of the past as it shapes a person's  
decisions, desires, and expectations, and  
explores some of the multiple reasons and  
realms in which people sometimes feel pulled  
to live as something other than their origins.  
As with her New York Times-bestselling debut  
*The Mothers*, Brit Bennett offers an engrossing  
page-turner about family and relationships  
that is immersive and provocative,  
compassionate and wise.

Boating Wipf and Stock Publishers  
"The Masters of Wisdom" is the last book to  
have been published during the John  
Bennett's lifetime, and is probably the most  
unusual, having little in common with his  
previously published works, except in  
serving a number of discrete objectives.  
Originally planned to be incorporated into  
a single volume to be entitled "Gurdjieff and  
the Masters of Wisdom" this work was  
separated from what became "Gurdjieff:  
Making a New World" which eventually  
was published a year earlier in 1973. In the  
last years of Bennett's life, he had been  
deeply affected by his close association with  
the Turkish mystic, Hasan Lutfi Shushud,  
and originally a contract was drawn up with  
a London publishing house for the  
combined work, in which both men were

---

signed as joint authors. However, before anything was written, Shushud abruptly withdrew his support for the project, ostensibly on the grounds of a disagreement with the publishers. Only after Bennett's death in 1974, Shushud indicated privately that he found Gurdjieff's teaching and methods offensive. There is however some overlap between the two books, and "The Masters of Wisdom" draws on Gurdjieff's resources as well as material provided by Hasan Shushud. "The Masters of Wisdom" is unlike Bennett's other books not only in the way it is constructed, which appears to be somewhat out of balance, but also in the content. The first three chapters provide an overview of material presented 8 years earlier in the fourth volume of "The Dramatic Universe", of the Earth as single intelligent whole, in which humanity plays an increasingly active role and - must accept greater responsibility. These chapters provide an introduction to Chapter 4 which presents an account of the Christ Event not to be found anywhere else, and by Bennett's own account, arising out of insights vouchsafed to him privately by Gurdjieff. The next chapter serves as a bridge to the second major detailed message Bennett shares, which concerns the extraordinary period spanning at least 350 years, when a group of men within a single unbroken tradition played a pivotal and benign role in otherwise catastrophic events. It is not clear why Bennett devotes an entire chapter to Genghis Khan in a book entitled "The Masters of Wisdom" except that he appears to have been an exceptionally gifted individual whom Bennett apparently admired for his great self-control, and his willingness to accept guidance from a spiritual director. The researches Bennett

completed in his last years led him to certain conclusions which may not have been fully expressed in this account. Unlike Bennett's other books, "The Masters of Wisdom" contains hidden messages, and also occult elements which are accessible to those able to access them. "Beelzebub's Tales to His Grandson" and "The Dramatic Universe" showed the transformative power of books, but like "Meetings with Remarkable Men" this book imparts information which remains hidden except from those readers who find the key. The book is also unlike any of Bennett's other books in containing secret "magic" elements, opening mystical channels. Since the text was left unfinished when Bennett died, it is not possible to know for certain whether the message of the book is complete or would have included other material such as the very detailed accounts that Bennett gave to his student in the last months - the "esoteric phase" - of the Third Basic Course. Overall the message is of the planet we inhabit seen as a single indivisible whole, of which we human beings are an important element, but which is subordinate to the Cosmic forces.

Relevant Revelation explores themes such as covenant, brothers in conflict, the younger brother being favored by God, changed hearts, barren women who are healed (and the one who is not), and the humble raised high. Relevant Revelation shows how the Bible

follows the history of Israel by mirroring the developmental stages of a human, beginning with conception, then birth, infancy, childhood, adulthood, death, and finally, the afterlife. Understanding the development of these themes will change the way you read and study the Bible. Any one of these themes point to purposeful, cohesive authorship throughout the Bible. Relevant Revelation seeks to show that God is the one Author of the Bible with seven themes as support. The fact that all these themes culminate in Christ demonstrates that the New Testament finishes what the Old Testament starts. Christ is the Messiah sent by God and expected by his people. When we see connections between books written by over forty people over three thousand years, the reader is challenged to see the Bible and its stories as one continuous story. When we understand God's word as a cohesive unit, the people and events of Israel's history can be placed and logically understood in the context of God's great purpose and plan of redeeming the world through a Savior.

*A Study Guide for Michael Bennett's "A Chorus Line"* Elsevier Health Sciences

This book considers how homes, households, and domestic life are related to the Church. Early theologies glorified the monastic lifestyle as a way to transcend earthly attachments in favor of supernatural goods.

Contemporary thinkers have seen that functioning marriages and families themselves can lead us toward a more righteous society. Jana Bennett insists that both marriage and singleness must be placed in the context of the Christian story of redemption for the questions and problems at stake to be fully understood. She finds that Augustine of Hippo, maligned by modern theologians, is the source of very fruitful reflection on these topics. Most scholars today would agree that Augustine's works have exerted great influence on Western views of marriage, family, and sex. But many would argue that this influence has been detrimental to a healthy understanding of these topics. However, using Augustine's writing, Bennett shows that marriage and singleness cannot be considered separately, that gender issues are important to considering these states correctly and, most important, that the marriage between Christ and the Church is the first consideration in understanding and living these states of life. The water of baptism, Christians' first birth and initiation into the life of Christ, is the primary standard for relationships, rather than familial ties.

The Enneagram is an ancient personality typology using nine points within a circle to represent nine distinct personality types. This sixty-day devotional is for the Perfectionist, number 1 of the Enneagram personality types. This book will help Perfectionists, and those who love them, better understand how God created them and how best to use their unique gifts to serve Him and love others. It features an explanation of what the Enneagram is and how it benefits people, followed by a full description of what it means to be a 1, including the Perfectionist's deadly sin and their greatest strength. Some attributes of the Perfectionist: Motivation: To be good, have integrity, and achieve this by following the rules. Biggest Fear: Ones fear being evil or corrupt, unable to do good things or make a difference. Gut Triad: Ones, along with Eights and Nines, receive information through their gut, instinctively feeling if something is right or wrong. When Ones see others blatantly disobeying the "rules" that are very obvious to them, it triggers an anger response, and can cause Ones to be burdened by boiling frustration. The sixty days of this devotional are split into six 10-day topics that include uniqueness, weakness, strength, pain points, and how Perfectionists react in times of stress and growth.

In *Bullets Not Ballots*, Jacqueline L. Hazelton challenges the claim that winning "hearts and minds" is critical to successful counterinsurgency campaigns. Good governance, this conventional wisdom holds, gains the besieged government popular support, denies support to the insurgency, and makes military victory possible. Hazelton argues that major counterinsurgent successes since World War II have resulted not through democratic reforms but rather through the use of military force against civilians and the co-optation of rival elites. Hazelton offers new analyses of five historical cases frequently held up as examples of the effectiveness of good governance in

ending rebellions—the Malayan Emergency, the Greek Civil War, the Huk Rebellion in the Philippines, the Dhofar rebellion in Oman, and the Salvadoran Civil War—to show that, although unpalatable, it was really brutal repression and bribery that brought each conflict to an end. By showing how compellence works in intrastate conflicts, *Bullets Not Ballots* makes clear that whether or not the international community decides these human, moral, and material costs are acceptable, responsible policymaking requires recognizing the actual components of counterinsurgent success—and the limited influence that external powers have over the tactics of counterinsurgent elites.

The Vanishing Half Springer Science & Business Media

You have to live on twenty-four hours of daily time. Out of it you have to spin health, pleasure, money, content, respect, and the evolution of your immortal soul. Its right use, its most effective use, is a matter of the highest urgency and of the most thrilling actuality. All depends on that. Your happiness – the elusive prize that you are all clutching for, my friends! – depends on that. Which of us lives on twenty-four hours a day? And when I say "lives," I do not mean exists, nor "muddles through." Which of us is not saying to himself – which of us has not

been saying to himself all his life: "I shall alter that when I have a little more time"? We never shall have more time. We have, and we have always had, all the time there is. It is the realization of this profound and neglected truth (which, by the way, I have not discovered) that has led me to the minute practical examination of daily time-expenditure.
