This science fiction adventure represents the ultimate survivor genre, a hero against all odds, against powerful special interests too big to fail, a system controlled by ultimate insiders who often seem hell-bent on obsession, the last war, escalation, and world economic domination to create

a brave new world; another dystopia. And the story focuses on a black site scientist with an urgent mission: to reach the next underground bunker with unparalleled destruction and equipment that smolders a place with sections that have damage beyond description, beyond all known languages from some unknown experiment, as the experiment may have fractured time or seriously damaged a local aspect of the universe. As people often say, the most important trait is location-location-location, a real estate term regarding a vital place or vulnerable point. And in this case, the concern is about a weapon of mass destruction, a favorite human pursuit since prehistoric times. And this weapon is not a mother of all bombs, not MOAB or the insidious neutron bomb, but a new-age experiment that directed a complex particle beam at a universal pressure point in space universal defect in space time or support aspect,

well, similar to the way someone brings down a high-rise building by damaging the main support beam, and in this case, to collapse the universal wave function, as the universe may represent a bubble, a supreme algebraic bubble, a supreme bulkhead. And this secret military experiment, one without checks and balances, appears to have punctured the universe with a special warp bubble pierce and might initiate deflation at faster-than-light speed to deflate the universe, as space can move faster than light, which in this case will quickly collapse the universe to bring about the end of days, eschatology, the final events of history, and the ultimate human destiny.

Never waste a crisis. Some businesses--and some people--will emerge from today's economic tumult stronger and more dominant than when it started. Others will weaken and fade. It all depends on critical choices they make right now. Geoff Colvin, one of America's most respected business jour-nalists, says even the scariest turbulence has an upside. The best managers know that conventional thinking won't help them in tough times. They're taking smart, practical steps--frequently unconventional and even counterintuitive--that will not only keep them strong, but will also distance them from the pack for years to come. The dozens of top-

performing leaders Colvin interviewed reject the common view that slashing costs and firing employ-ees are the only effective tactics. They see volatility as a rich opportunity to reinvent their organizations and lay the ground-work for future growth. Colvin shows us how these strategies really work, using exam-ples of major companies that have successfully applied them.

Search History oscillates between a wild cyberdog chase and lunch-date monologues as Eugene Lim deconstructs grieving and storytelling with uncanny juxtapositions and subversive satire. Frank Exit is dead—or is he? While eavesdropping on two women discussing a dog-sitting gig over lunch, a bereft friend comes to a shocking realization: Frank has been reincarnated as a dog! This epiphany launches a series of adventures—interlaced with digressions about AI-generated fiction, virtual reality, Asian American identity in the arts, and lost parents—as an unlikely cast of accomplices and enemies pursues the mysterious canine. In elliptical, propulsive prose, Search History plumbs the depths of personal and collective

consciousness, questioning what we consume, how we grieve, and the stories we tell ourselves.

From Pulitzer Prize-winning journalist and culture critic Christina Binkley comes an updated edition of her New York Times bestselling account of sex, drugs, and the rise of Las Vegas. With a new prologue on the rise and fall of Steve Wynn. The Strip. Home to some of the world's grandest, flashiest, and most lucrative casino resorts, Las Vegas, with its multitude of attractions, draws millions of tourists from around the world

every year. But Sin City hasn't always been booming: modern Vegas exists largely thanks to the extraordinary vision, and remarkable hubris, of three competing business moguls: Kirk Kerkorian, Dr. Gary Loveman, and Steve Wynn. And in the wake of #MeToo revelations, not all empires survive. Having had personal access to all three tycoons, Binkley explains how their audacious efforts to reach the top-and to top one another-shaped the city as it stands. She takes us inside their grandest schemes, their riskiest deals, and the personalities that drove them to their greatest successes, and their most painful defeats. In this updated edition, she reveals the inside story of how Steve Wynn, the winner who took all, ultimately lost everything-twice. Sharp, insightful, and revealing, Winner Takes All is the gripping story of how billions of dollars and the unparalleled drive for power turned dreams into larger-than-life reality. "It's a great drama on the greatest stage. . . Wynn, Kerkorian, and Loveman represent three opposing business personalities, three styles of achieving success. On the Vegas Strip, they're pitted against one another like gladiators, and we've got front-row seats. Kapow!" - bestselling author Po Bronson

she's got to act quick to

Another break from the past was to be found under the bonnet, for decades home to the same 6.75 litre V8 engine, a powerplant which could trace its roots back to the 1950s. The Arnage is over 5 metres (197 in) long, 1.9 metres (75 in) wide, and has a kerb weight of more than 2.5 metric tonnes.
