Business Essentials features six modules covering key business communication skills, with audio and video fully integrated into the course. Business Essentials is ideal as a standalone short course, or as a complement to a general English course.

A Guide to Traditional Witchcraft, the Six-Fold Path & the Hidden Landscape Oxford University Press

Regional traditional witchcraft is an animistic form of witchcraft that moves away from the religious harvest festivals and fertility-minded practices associated with the more common Wiccan form of witchcraft. Very few of us in this age are farmers or dependent upon crops and harvests. Regional traditional witchcraft teaches people to find their craft in their own backyards, in the uncultivated land or urban cityscape alike, and in their ancestors rather than in ancient foreign deities or in a neopagan-styled religious form of witchcraft. It's not about where you're from but where you are. The material is adaptable to any region in which the practitioner lives. Although the lack of deity worship and holy days is a significant part of the authors' nonreligious approach, this book presents a complete system of practice utilizing ritual, chant, trance, the six paths of witchcraft as defined and explained by the text, and the practices associated with traditional witchcraft.

As everybody knows, abbreviations and acronyms are short forms of a word or phrase, chiefly in writing, to represent the complete form. An abbreviation is pronounced one letter at a time. An acronym is a set of letters that can be pronounce as a single word as a brief form of a corporate name or term made up of a group of letters that are commonly written/or spoken as a word. It may consist of the initial letters of the full name the text. In Turkish, the word kisaltma is used for both. The idea for a reference book of abbreviations and acronyms came to me when I worked as a cataloger/librarian in American academic libraries such as: Butler Library at Columbia University, New York; Research Library in UCLA, California; Doe Library at UCB, California; and Firestone Library at Princeton University, New Jersey. Inquiries about the Turkish abbreviations made by readers and students in Turkish studies and researchers and people interested in life in Turkey and the Turkish language and literature at all levels, have led me to address this need. They were all looking for the right definition to the abbreviations they came across in their Turkish source material. I made a list of them, whenever I found them in Turkish books, periodicals, and mostly newspapers, where I discovered new ones daily. My book, A Guide to Turkish Abbreviations and Acronyms, is intended as a descriptive, updated work. I compiled them exactly as they appeared in the original Turkish texts only, and none of them are conversational. I would like to emphasize that this book does not attempt to establish any rules or dictate any single correct style for Turkish usage of abbreviations and acronyms. Users will find old and new terms as well as many odd, obsolete, and slang words, but its my responsibility to put every item I found in my research into the book. The abbreviations and acronyms in this book are reproduced exactly as they were seen in the original text, including the same spelling, case, and punctuation. Finally, the entries in this work are arranged in Turkish alphabetical order irrespective of spacing, punctuation, or capitalization, and alphanumeric sequences are listed in the alphabetical order of their respective letters in the following order: A, B, C, , D, E, F, G, G, H, I, I, J, K, L, M, N, O, , P, R, S, S, T, U, , V, Y, Z.

AXUM What do you do when you ' ve discovered a secret that is likely to turn the world ' s religions against each other, igniting a powder-keg of already simmering hostilities? For half a millennium that secret has lain in a journal hidden in the highlands of Ethiopia, a legacy of the 1520 Portuguese expedition into the uncharted interior. The Portuguese had been searching for the fabled lands of Prester John of the Indies, but one of their number, Tristan Perreira, had found something far more momentous. In 1535, Tristan finds himself destined to lead the people of the city of Axum in a fight for survival against the invading Moors from the east, and most of all a fight to protect the sacred Ark of the Covenant. Nearly five hundred years later, the murder of a priest leads Tristan ' s descendant, Marco, on a desperate flight to save the journal and the explosive knowledge it contains. Marco is caught up with Claire McKinnon, a World Bank engineer, in an Ethiopia on the verge of war in the north and internal civil instability in the capital. In strange parallels with Marco ' s ancestor, they find themselves on the run from the police through the harsh landscape of the Simien Mountains and the Danakil Desert, as they gradually learn the story and the fate that befell Marco ' s forebears. Even as they do this, their lives are threatened by other ruthless forces with links to the British Embassy and a modern Jihad resurgence from the east, threatening not just a diplomatic incident but something much more far-reaching. Like a Wilbur Smith with overtones of Dan Brown, " Axum " takes the reader through an exotic and unforgiving land in two adventures, linked across the centuries.

Besom, Stang & Sword
Across Europe we are witnessing a series of events that are drawing upon representations of men and masculinity that are rupturing the social fabric of everyday life. For example, media reports of social unrest, misogynous hate crime, religious extremism, drug trafficking and political Far Right mobilization often have been at the centre of the discussion the figure of the apathetic, disenchanted, socially excluded young man. Marginalized Masculinities explores how men in precarious positions in different countries and social contexts understand and experience their masculinities, focusing on men who are viewed as being marginal in a range of fields in society including the family, work, the media and school. By focusing on atypical or marginal masculinities in each subfield, Haywood and Johansson provide an informed understanding of what it means to experience marginalization. Indeed, within this enlightening volume the chapters engage with the issue of whether it is necessary to name ' a ' dominant masculinity in order to make sense of and understand the nature of marginalized masculinity. This insightful title will be of interest to researchers, undergraduates and postgraduates interested in fields such as Gender Studies, International Studies, Comparative Studies and Men Studies.
