Consumer Reports Used Car Buying Guide Courier Corporation

These days, there are many advantages to buying a used car over a new car. Unfortunately, purchasing a used car may pose a greater risk to the consumer. A used car in its nature will most likely need more repairs, lack newer safety measures, and may come with a short warranty or none at all. That is why it is so important for consumers to do extensive research so they can avoid all of the pitfalls of the used car market category. The auto experts at "Consumer Reports" have done the work for you and have compiled their extensive research and report their findings into the 2006 edition of "Used Car Buying Guide." This fabulous tool will help steer any consumer who is in the market for a used car towards the better-performing and more reliable used car models and away from those models with a troubled past or substandard performance. Before consumers set foot on a used car lot, they should read all the valuable information provided in this book so they can be armed with as much information as possible and the knowledge to make an educated choice. "Consumer Reports" knows cars and offers the most detailed and revealing used car reliability information available anywhere including: - Reviews of every major model from 1998 - 2005 - Lists of the best and worst used vehicles and how to avoid a lemon - A checklist of what to look for when inspecting a used car - Tips on negotiating the best price Reliability and crash test information - Making sense of safety information The majority of this book is devoted to the profiles of 256 cars and trucks, presenting all major 1998-2005 models. Each profile contains a photo from the representative year, a write-up of the vehicle, reliability history, crash-test data, and the model years when key safety gear was added and when a major redesign was made.

PC Mag Consumer Reports Books

Non-communicable diseases (NCDs) are the leading cause of death worldwide, contributing to over 73% of all deaths annually.

Each day NCDs cause more than 100,000 deaths, 80% of which occur in low- and middle-income countries. NCDs, however, are largely preventable, and a great deal of technical knowledge exists about how to prevent and manage them. Why, then, have we, as a global community, not been more successful at reducing this NCD burden? Does a universal problem not have a universal solution? Created by an international consortium of experts, this informative and accessible book provides practical guidelines, key learning points, and dynamic, real-world case studies to aid NCD program managers, policy officers and decision-makers in low- and middle-income countries, so that they can assess interventions for the prevention and control of NCDs. The book was commissioned by the Prince Mahidol Award Conference (PMAC), an annual international conference centred on policy of global significance related to public health. Non-Communicable Disease Prevention: Best Buys, Wasted Buys and Contestable Buys emphasises the importance of context in NCD control and prevention, arguing that the success of an intervention lies in an ability to respond to local needs and environments. The book comprises ten chapters, which collectively explore the reasons behind, and strategies for, preventing and managing the NCD burden. It spans key themes such as political economy, the transferability of economic evidence, the role of cross-sectoral policies, the importance of deliberative processes, and health technology assessment. This book is written for the benefit of the global health community, and is primarily targeted at those individuals who are involved in NCD programs. This book will also be of interest to NCD champions, policy advocates, and educators spearheading the movement for increased visibility of NCDs.

Buying Guide 2008 Consumer Reports Books

Profiling over 150 of the most popular models of used cars, trucks, SUVs and minivans from 1991 to the present, this guide provides tips for choosing the right car for the right price, what to ask for and what to avoid, how to seal the deal, and more.
